

Emergency Rental Assistance Data for 7/1/21 – 6/30/22

Between July 1, 2021, and June 30, 2022, the City of Seattle, in partnership with United Way of King County and numerous community-based organizations, distributed a total of \$40,201,343.88 in Emergency Rental Assistance to 7,842 households impacted by the COVID-19 pandemic.

Types of Assistance Provided

The majority of Emergency Rental Assistance provided has been in the form of Rental Arrears, totaling 77.86% (\$31,302,456.93) of all assistance. Assistance for Current and Future Rent accounts for 18.21% (\$7,321,547.24) of all assistance provided; Utility Arrears accounts for 3.85% (\$1,549,305.96); Current Utilities accounts for 0.04% (\$15,363.29); and Other Housing Costs account for a total of \$12,670.46 \$11,035.46.

Income Data

Most households (47.08%) who received Emergency Rental Assistance have incomes that are less than 30% of Seattle’s Area Median Income, while 23.52% have incomes between 30%-50% of AMI, and 17.67% have incomes between 50%-80% of AMI. 11.74% of households were deemed eligible for Emergency Rental Assistance through Categorical Eligibility (i.e., their eligibility was determined based on the fact that they receive other types of government assistance that use income as a qualifying criteria), and thus we do not have exact income figures for these households.

The following charts were used to calculate income bands for each household:

For households served July 2021 – March 2022

	1 Person	2 Person	3 Person	4 Person	5 Person	6 Person	7 Person	8 Person
30% of AMI	\$25,100	\$28,650	\$32,250	\$35,800	\$38,700	\$41,550	\$44,400	\$47,300
50% of AMI	\$41,800	\$47,800	\$53,750	\$59,700	\$64,500	\$69,300	\$74,050	\$78,850
80% of AMI	\$66,700	\$76,200	\$85,750	\$95,250	\$102,900	\$110,500	\$118,150	\$125,750

Racial Data

The following data is based on the heads of the households that received Emergency Rental Assistance and only represents 4,642 of the 7,842 total households that received assistance (heads of household that declined to answer or for whom we do not have racial data were removed from this data set).

The majority of heads of households who received assistance identify as People of Color (66.31%) and 33.69% identify as White. Of the folks that identify as People of Color, 46.91% identify as Black or African American, 6.99% as Mixed Race, 7.29% as Asian, 2.96% as American Indian or Alaska Native, and 2.16% as Native Hawaiian or Other Pacific Islander.

Ethnic Data

The following data is based on the heads of the households that received Emergency Rental Assistance and only represents 4,839 of the 7,842 total households that received assistance (heads of household that declined to answer or for whom we do not have ethnic data were removed from this data set).

The majority of heads of households who received assistance identify as Not Hispanic or Latino (84.23%) and 15.77% identify as Hispanic or Latino.

Ethnicity of Heads of Households who Received Emergency Rental Assistance

Gender Data

The following data is based on the heads of the households that received Emergency Rental Assistance and only represents 5,279 of the 7,842 total households that received assistance (heads of household that declined to answer or for whom we do not have gender data were removed from this data set).

55.81% of heads of households who received assistance identify as Female, 42.98% identify as Male, and 1.21% identify as Non-binary.

Households with Children

The following data is based on a subset of households that have received Emergency Rental Assistance, and only accounts for households served between October 1, 2021 – June 30, 2022 (we were unable to collect information about households with children prior to October 1, 2021). During this service period, we were able to gather information from 2,968 households whether or not there were children in the household. Of these 2,968 households, 1,270 (43%) had children living in them (defined as anyone under the age of 18), and 1,698 did not have children living in them.
