*Comprehensive orthodontic treatment copayment amounts (D8070, D8080, D8090) are based on a typical 24-month case. If case extends beyond 24 months, additional months are prorated according to the number of extra months of treatment. Copayments for limited and interceptive orthodontic services will be prorated based on the treatment rendered. \*The Prorated amount is calculated by taking the full copayment (D8090 for adults & D8040 for child) and dividing by 24 and multiplying by the number of months of expected service. Orthodontist models, x-rays, photographs and records are not covered. There may be additional copayments depending on treatment needs. There may be additional copayments depending on treatment needs.*

*Prenatal*

### *Periodontal Benefit*

*In order to improve the overall health of our enrollees, your plan includes a prenatal health improvement program.*

*Numerous studies indicate that women who have periodontal disease while pregnant are at much greater risk for having other health issues. While you are pregnant, your benefit includes a program to reimburse your copayments for necessary periodontic services when provided by a Dental Health Services' General Dentist.*

*This includes additional cleanings, scalings and periodontal irrigation/antimicrobials treatment determined by your dentist to be necessary. You must submit an itemized receipt from the dental office that provided these services to Dental Health Services within 180 days of treatment.*

NC – Not covered at a specialist because Participating General Dentist is skilled and prepared to provide the procedure for all enrollees.

### Dental limitations

*The following are limitations on covered benefits.*

- A. Limitation on the frequency and appropriateness of services:
  1. Prophylaxis (teeth cleaning, shallow scaling and polishing maximum one per six months, 2 per contract year.
  2. Periodontal scaling and periodontal maintenance – limited to four within calendar year.
  3. Periodontal surgery – limited to four quadrants in two years.
  4. Full/partial dentures (upper and/or lower) – one per five-year period. Replacement of appliances that are causing pain, bleeding, swelling or are required due to additional toothloss which cannot be restored by modification of the appliance are covered. New dentures are covered only if the existing dentures cannot be made satisfactory by either a reline or repair. Lost or stolen appliances are the responsibility of the patient.
  5. Fixed bridges, crowns, gold restorations or jackets are available once per five years. Replacements are available after five years.
  6. Denture relines – one per year, per arch
  7. Full-mouth x-rays – once every three years or as determined necessary by your dentist.
  8. Partial dentures are appropriate treatment when dental spaces are bilateral and can be satisfactorily restored with removable dentures. Unilateral partials (Nesbitt) are not a recommended treatment.
  9. Acid etched bridge (Maryland) is appropriate only on the anterior area.
  10. Fixed bridges are optional and restricted for patients under the age of 16 when periodontal tissue is not supportive or in the presence of bilateral spaces.
  11. Treatment by a pedodontist for baby bottle mouth syndrome is limited to a lifetime benefit of \$500 per member.
  12. General anesthesia is covered solely for dependent children under the age of seven (7) or the physically or developmentally disabled, only when medically necessary and in conjunction with a covered dental procedure performed at a participating dental office. General anesthesia may not be offered at all offices.
- B. Emergency dental condition – a dental condition manifesting itself by acute symptoms of sufficient severity, including severe infection such that a prudent layperson, who possesses an average knowledge of health and dentistry, could reasonably expect the absence of immediate dental attention to result in:
  - (i) Placing the health of the individual, or with respect to a pregnant woman the health of the woman or the unborn child, in serious jeopardy;
  - (ii) Serious impairment to bodily functions; or
  - (iii) Serious dysfunction of any bodily organ or part.

- C. The additional charges of \$70 for noble metal, and \$100 for high noble metal/titanium, and \$125 for upgraded, specialized porcelain such as Lava, Captek, Cercon, etc. If standard porcelain is used there is no charge to patient.
- D. When a Member selects a non-covered service, a more extensive service or treatment that is an alternative to an adequate covered service according to your Designated Participating Primary Dentist, the Member is responsible for the fee for service.
- E. Cosmetic dentistry – services that are for aesthetic (appearance) only will be available at your dentist standard fees. This includes but is not limited to the replacement of clinically acceptable amalgam fillings, as well as bleaching of teeth and labial veneers.
- F. Unsatisfactory patient-doctor relationship: If a satisfactory relationship cannot be established between a Member and their Designated Participating Primary Dentist, Dental Health Services, the Member, or the Designated Participating Primary Dentist reserves the right to request the Member's affiliation with the dental office to be terminated. Dental Health Services will always put forth its best effort to place the Member with another Participating Dentist.
- G. Submit claims for reimbursement within 180 days. In some cases, you may need to receive your care outside of Dental Health Services' network of participating providers. This may be due to an emergency or, in some instances, when your required care for Covered Services is not available within the network. Dental Health Services may not pay for a claim for this care unless the enrollee submits the claim to Dental Health Services within 180 days after treatment.
- H. Implant services – implants are available at Dental Health Services designated locations. Services include evaluations and x-rays specific to implants, surgical implant placement, abutments, and implant crowns.
- I. Third molars (wisdom teeth) – complicated extractions of third molars are at the discretion of the general dentist and are often referred to oral surgeons (specialist).
- J. Your Designated Participating Primary Dentist will coordinate your care to a Participating Specialist or other healthcare professional such as RN, ARNP operating within the scope of their license. A 20% Specialty Copayment for all services performed at a Specialist (not including Orthodontics) will be collected.
- K. Not all participating dentists can perform all dental procedures, please verify what services your selected provider can perform for you. Some complicated extractions, periodontal treatment, osseous surgery and root canal treatment may be referred to a specialist at the discretion of the general dentist.
- L. Services which are compensable under Worker's Compensation or employer liability laws.

- M. Benefits for temporomandibular joint (TMJ) disorders treatment are limited to a maximum of \$1,000 per year, not to exceed a lifetime maximum of \$5,000. No benefits will be provided for the repair or replacement of lost, stolen, or broken TMJ appliances. All covered services must be provided or ordered by a participating dentist and be:
  1. Reasonable and appropriate for the treatment of a disorder of the temporomandibular joint;
  2. Effective for the control or elimination of one or more of the following, caused by a disorder of the temporomandibular joint: pain, infection, disease, difficulty in speaking, or difficulty in chewing and swallowing food;
  3. Recognized as effective, according to the professional standards of good dental practice;
  4. Not investigational;
  5. Not primarily for cosmetic purposes
