

Pike Place Market Baiana - Afro Brazilian Food Design Proposal

1505 PIKE PLACE

presented by Emme Ribeiro Collins

DESIGN PLAN

I'm excited to share the design plan for Baiana's flagship Pike Place Market location, which brings the warmth and vibrancy of our brand into a clean, open space.

The mood board highlights our signature hot pink alongside rich greens and natural wood, setting a tone that feels both lively and grounded.

Our updated layout preserves the existing footprint while introducing select material changes that support flow, function, and a welcoming guest experience.

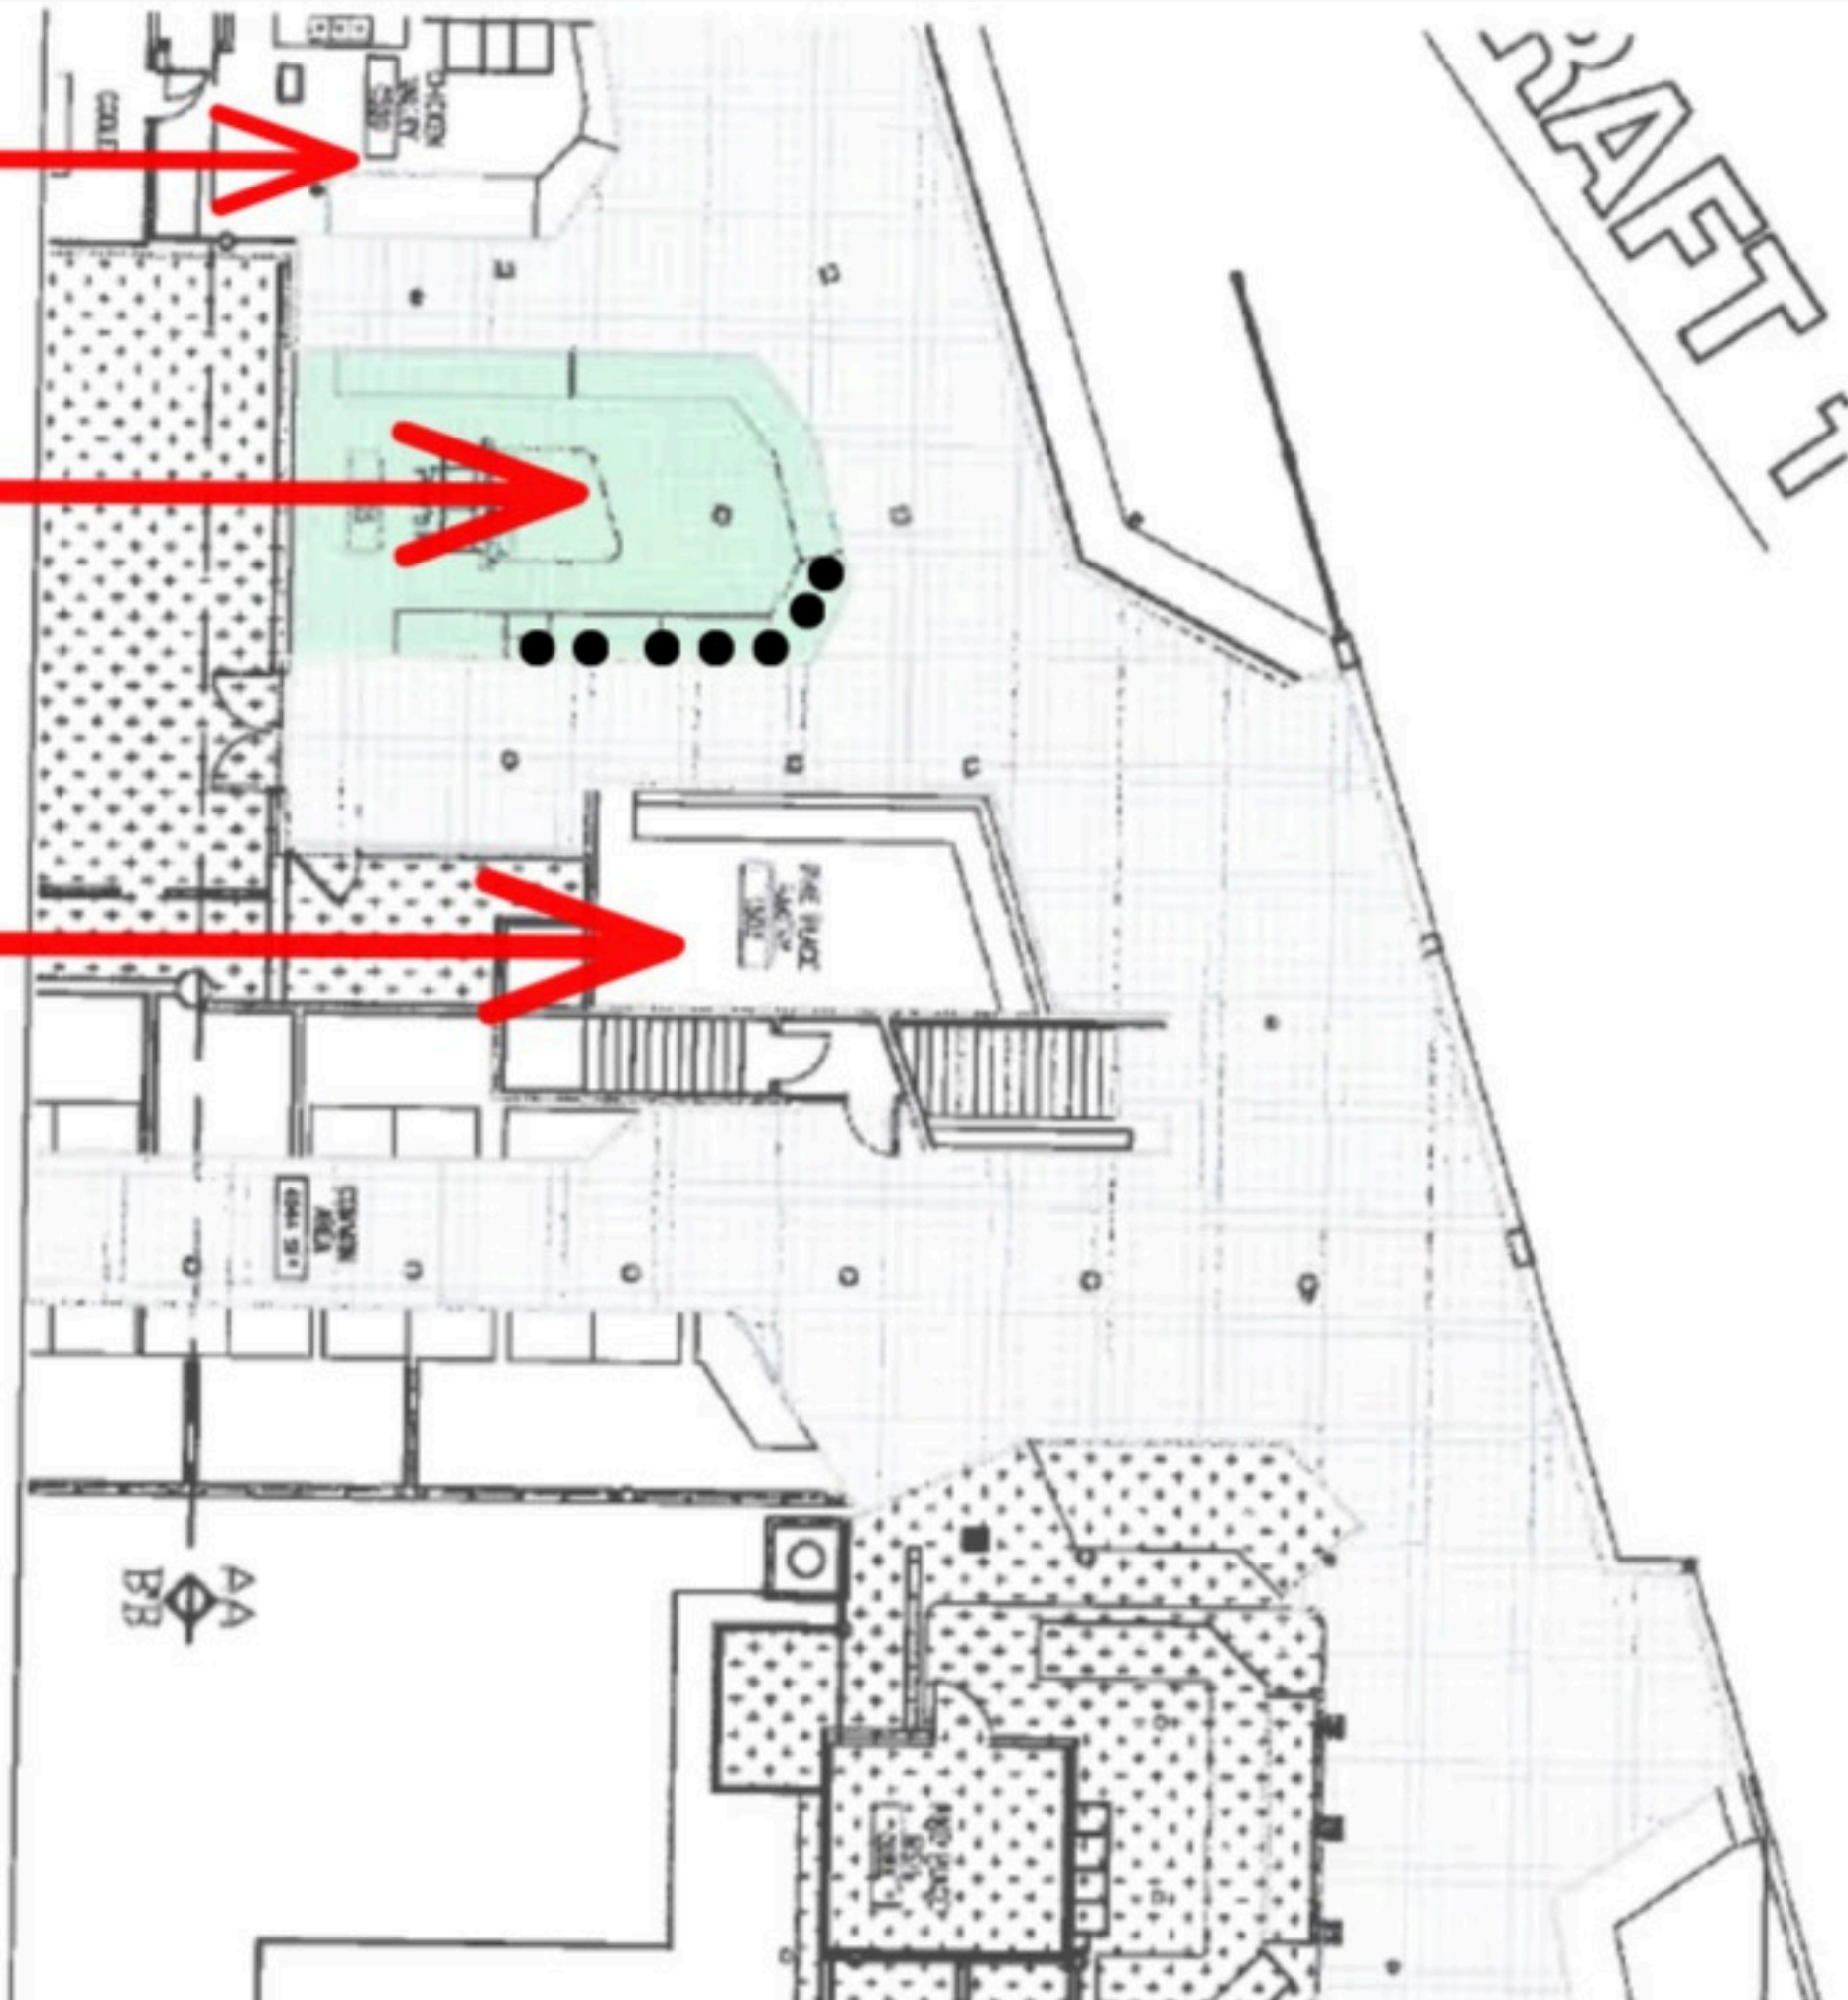

Signage and visual elements build on Baiana's established identity, ensuring consistency while adapting the brand to its first brick-and-mortar home.

- steel countertop
- quartz-like tile
- 3 pendant lighting over south dining countertop

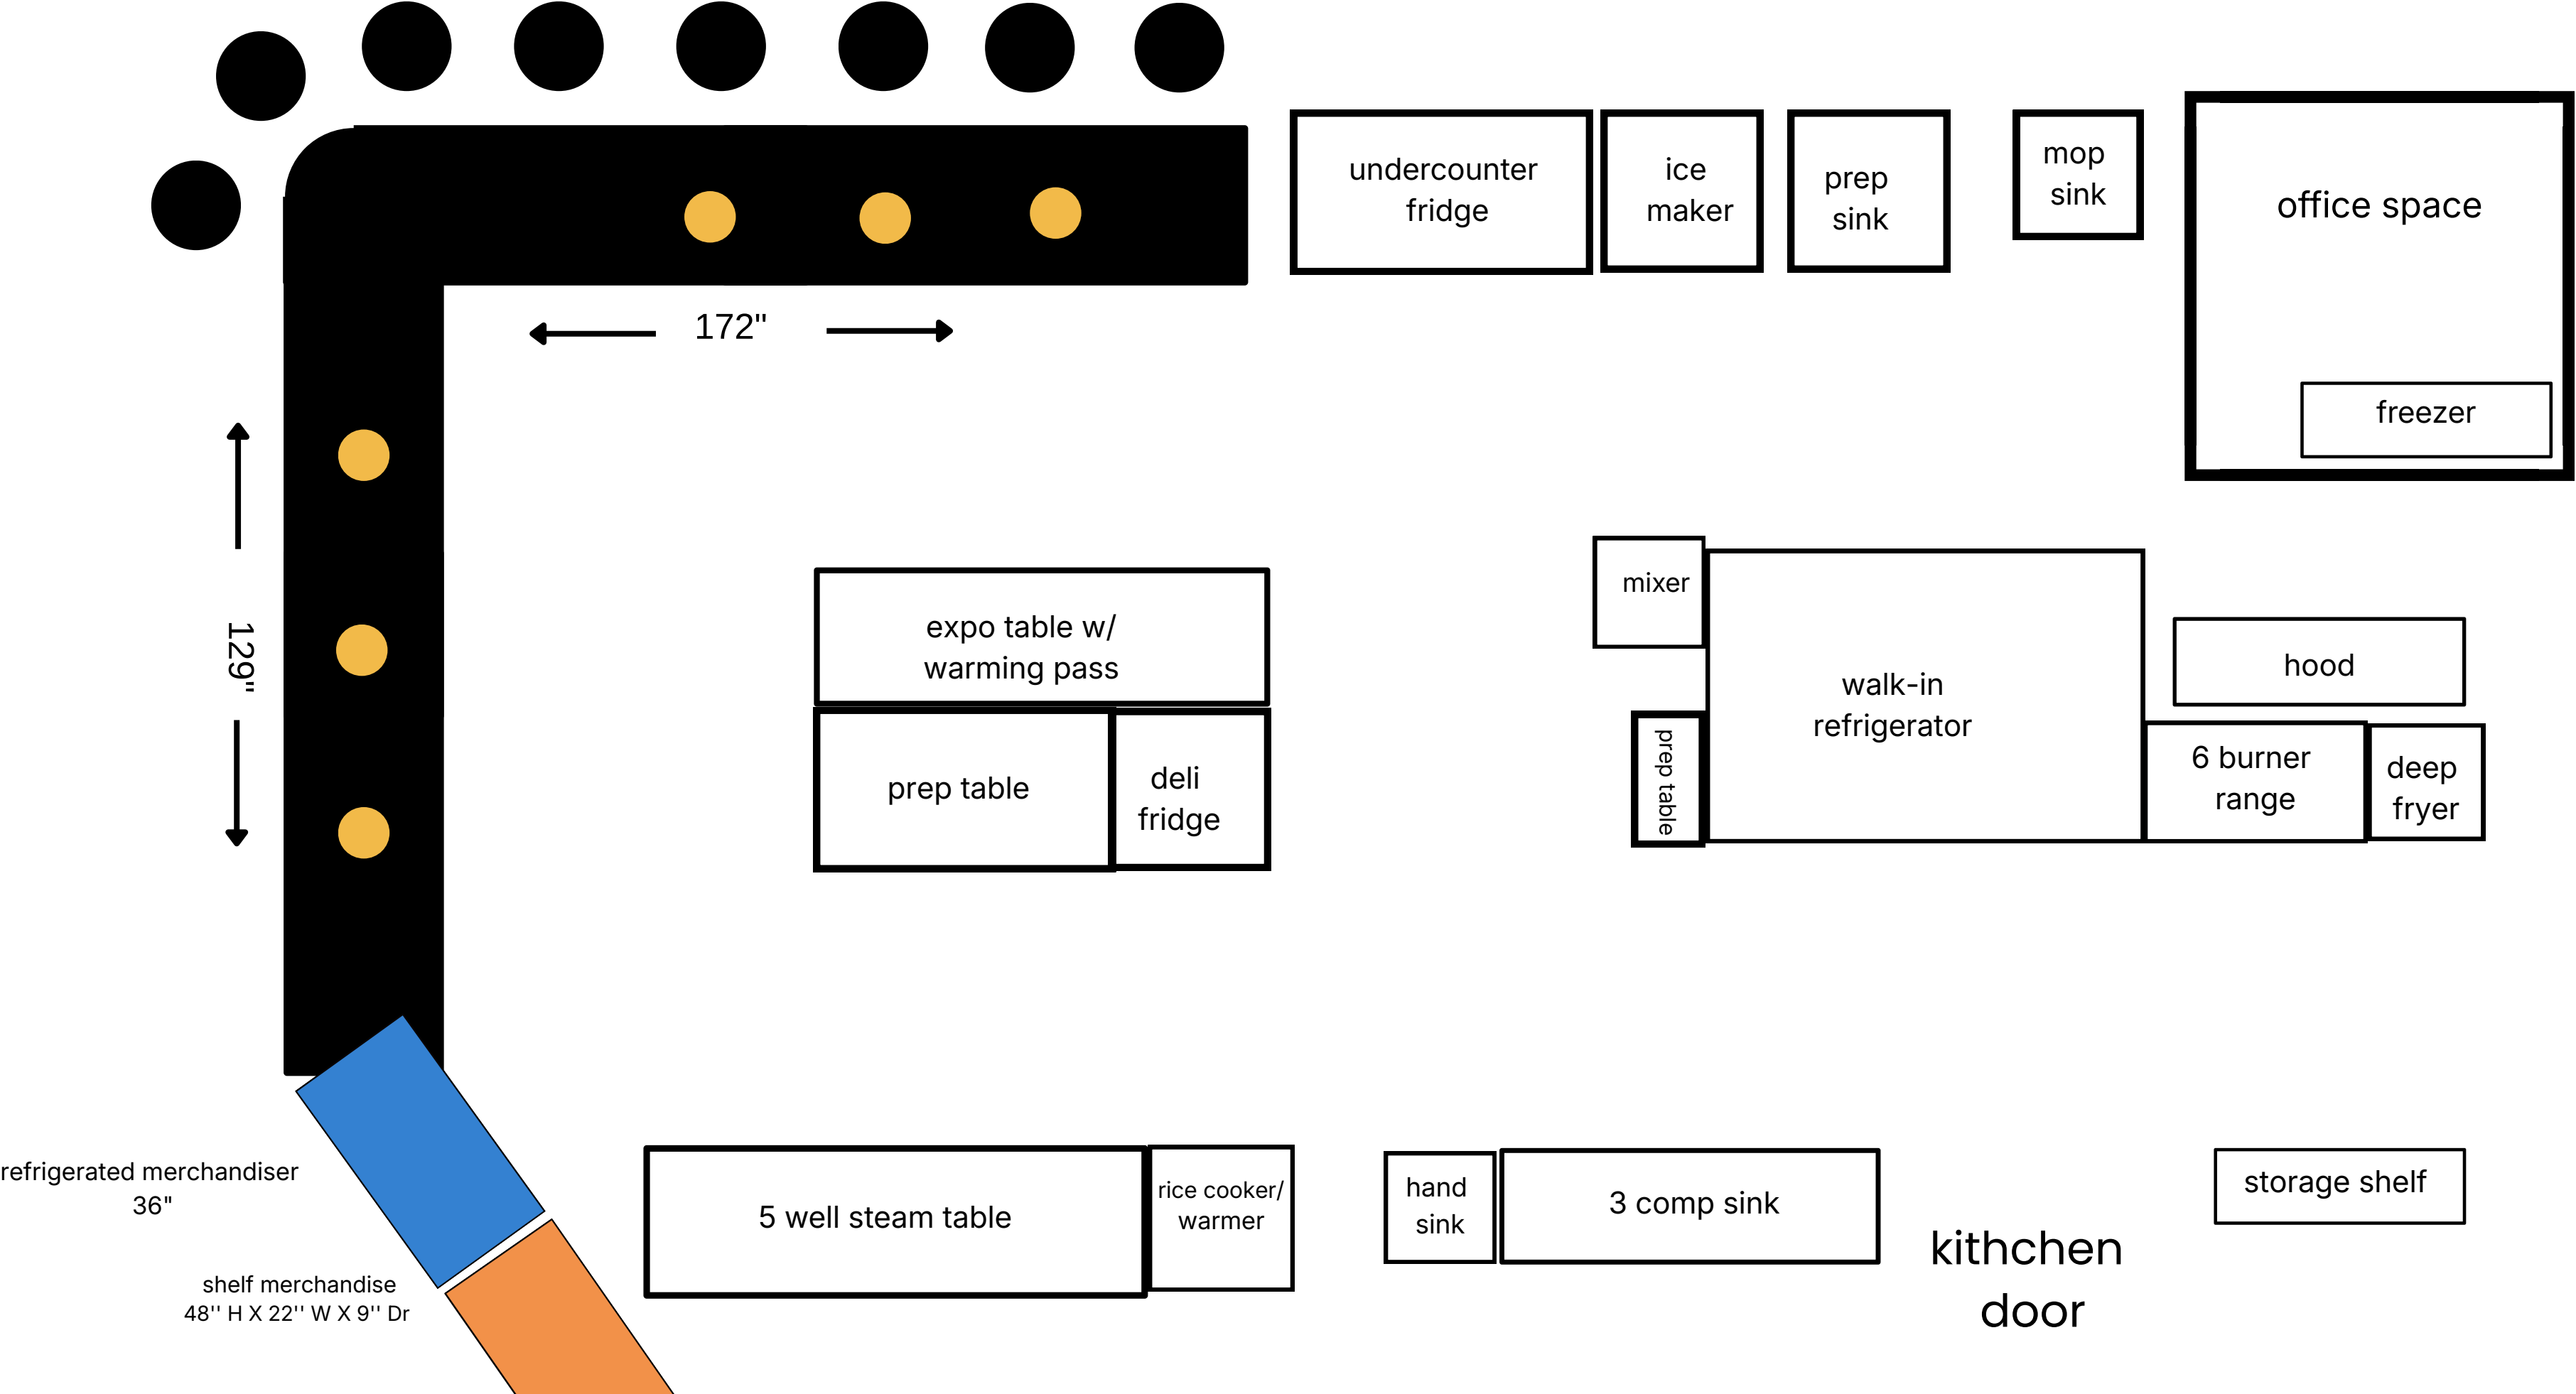

Existing Pendant

3 pendant lights over south countertop

Proposed Kitchen Layout

 = kocation of proposed pendant lights

MOOD BOARD

Warm, vibrant space that reflects the bright soulfulness of the Baiana brand. Natural walnut butcher-block countertop, emerald green subway tiles on the customer-facing counter base, and complementary wood accents throughout. Red elements from the existing build-out are replaced with Baiana's hot pink to create continuity and maintain brand integrity.

Portraits of Baianas and Bahian food taken during travels to Brazil, Photography is displayed in rattan frames to introduce natural texture and connect the space to Afro-Bahian craft traditions.
