NOTES:

Sculpture Form:

Forms made from 1/2" thick heavy duty 6061 aluminum. Coated in a durable acrylic polyurethane paint finish with inherent anti-graffiti properties (Matthews Paint System). Horizontal extensions will be flush with gravel, and eased at edges to ensure an accessible path behind the sculpture.

Mounting Plate:

Weighted steel tube / plate located on the roof deck beneath the pea gravel. Sculpture forms will be mechanically fastened to the steel plate with tamper proof bolts to ensure a secure hold.

Total Weight: Approximately 800-920#

Lighting: Landscape up-lighting within gravel at each sculpture segment (not internally illuminated).
