## 3. Harborview's Response to Committee's Comments

A copy of the presentation can be found [here](#).

- Final Height of the New Tower.
  - The original proposed New Tower will be built to the underlying zone height of 240 ft, and it will be approximately 6-9 stories taller than the West Hospital or Jefferson Terrace, depending on floor heights.
  - The additional 4-story request for the New Tower will be 10-13 stories taller than the West Hospital or Jefferson Terrace.
    - The actual number of stories and building height will be determined once the building is designed and permitted.
- Status of the WSDOT property procurement:
  - King County recently submitted an exhibit detailing the area of the WSDOT property to acquire for the loop road development.
  - The exhibit is under WSDOT engineer review. Negotiations are expected to start in October.
- Requested Edits:
  - Include a language that allows Harborview to add 4 additional floors to the original proposed New Tower. Suggest a 300 ft. zoning height increase from a 240 ft. zoning height limit.
  - Replace "Harborview Park" with "View Park".
  - Replace "free transit passes" with "subsidized transit passes".

Ted Klainer: The proposed additional 4-story request will cover the proposed Floor Area Ratio (FAR) request of 6.0.
