7:00	SAC Comment Letter	Karen Wolf
7:30	Public Comment	Public
7:40	Committee Deliberation	Committee
8:00 PM	Adjournment and scheduling of next meeting	Karen Wolf, Chair

Current Campus

Phase 2 Footprint

Key Input on Concept Renderings

- Committee expressed support for the slender columns at the west elevation, and observed that they add scale and rhythm to the façade.
- Committee observed that the white columns seemed stark compared to the rest of the material palette, and suggested they could be darker.
- Discussion of the upper floor expression; Committee favored a solution which helped to break down the mass and scale of the building.
- Committee expressed an appreciation for the colored glass fins found on Forest A as an element of playfulness and “art.”
- Committee asked to see what the building views looked like with the existing landscape buffer, as a way to evaluate mass and scale impacts at the perimeter.
- Committee noted a lack of stone material proportional to the metal and glass cladding elements, compared to Forest A.

Final Renderings for MUP

View from 40th Ave NE – Shown
With Landscape Buffer in Place
