OIG Certification Memo

OIG has reviewed the investigation for case 2024OPA-0259. The investigation is certified as thorough, timely, and objective.

In the casefile OPA uses the intake investigation for related OPA case 2024OPA-0221. While this does not impact OIG's determination the case is thorough, timely, and objective, using an intake investigation with Named Employees not involved in the investigation could cause future confusion, and removing sections not relevant to the current allegation in the future would be preferred.

Respectfully,

Payton Schenck
