Partial Certification Memo

OIG has reviewed the investigation for case number 2024OPA-0152.

The subject of the incident provided a statement to their supervisor and submitted an OPA complaint regarding the incident. In their complaint, the subject alleged harassment, intimidation, and racial profiling. The subject was not listed as a Complainant, and OPA did not address the allegation of racial profiling in their investigation.

Accordingly, OIG can certify this case as Objective and Timely but not Thorough.

Respectfully,

Sienna Hiller
