CC: Dan Okada, OPA Investigations Supervisor
From: Matthias Gydé, OIG Investigations Supervisor
Date: February 12, 2026
Re: Partial Certification Memo for Case Number 2023OPA-0255

Partial Certification Memo

OIG has reviewed the investigation for case number 2023OPA-0255.

OIG is able to certify on the elements of thoroughness and objectivity but is unable to certify on the element of timeliness.

This complaint was initially reported in February 2023 to SPD HR. It was referred to various city departments for investigation before landing with OPA as per Ordinance 126628. The time spent identifying the correct department and the extremely high volume of COP complaints delayed the prompt processing of this complaint. As such, OIG cannot certify the investigation as timely.

Respectfully,
