

City of Seattle 2013 State Legislative Bulletin

June 10, 2013

Number 18 (Special Session)

Week Overview

After weeks of negotiations, the full legislature returned to Olympia to begin work towards passage of a final budget. On Wednesday and Thursday, the House convened to hear and pass an amended budget and compromise revenue package to fund education. On Saturday and Sunday, the Senate was in Olympia for passage of a budget and bills related to the Majority Coalitions call for reforms. Both budgets passed on party line votes, and it is likely a second special session will be needed to reach consensus.

This bulletin has been abridged to address only those issues being considered during the special session.

House and Senate Budget Proposals

Senate Budget Proposal

SB 5034: Making 2013-14 Operating Appropriations

Sponsor: Senator Andy Hill

Co-Sponsors: Hargrove

Summary: As this budget proposal passed the Senate (30-18) during the regular session, the bill made a 50% cut to the liquor taxes distributed to local governments, made cuts to housing and homelessness programs and TANF, and permanently redirected significant funding from the Public Works Trust fund. During passage, many Senators said that while they voted to move the bill forward, they would not support a final bill that did not include new revenue.

The House amended this bill with a striker amendment of their budget proposal. This bill, as it passed the House during the regular session (54-43,) included an assumption of \$1.34 billion in new revenue from ending tax exemptions, preserves funding for the Housing and Essential Needs program and TANF, and retains local shared revenues.

On June 8th, the Senate released an amended version of their original bill. It continues to make the cuts outlined above.

Status: At the start of the special session, the bill was referred back to the Senate Rules committee. On June 8th, the amended bill was passed on the Senate floor in a vote of 25 to 23.

Summary: This budget bill includes new revenue from funds created through fixing the Bracken court decision issue related to estate tax for married couples and from passage of the telecom bill that includes a tax on landline phones. The bill largely preserves health and human services, local shared revenues, and many other priority items on the City's legislative agenda. The bill does eliminate the Global Health grant and use funds from the Public Works Trust Fund for the operating budget on a one-time basis.

Status: HB 1057 was voted out of the Appropriations Committee on June 5th and passed on the House floor on June 6th in a vote of 53 to 35, with 9 excused.

The House will likely be using this bill instead of HB 2038, and so HB 2038 has been removed from the bulletin.
