A Place That Supports Healthy and Stable Community

The Central Area is an inviting neighborhood that feels safe and comfortable to anyone to walk around at any time of day. Its many parks provide ample opportunities for physical activity and social interaction. People can live in the neighborhood long term and feel a strong sense of community.

Policy Summary

Safe and Clean Environment
- Strengthen partnerships among businesses, property owners, the community and the Seattle Police Department
- Support crime prevention programs and improve the appearance and cleanliness of commercial districts

Opportunities for All in Parks and Open Space
- Promote community participation in park facilities, improvements and programming
- Promote greening and beautification of the neighborhood

Affordable & Diverse Housing Choices
- Support affordable and diverse housing programs and services
- Keep a range of housing prices and unit sizes including affordable family-sized units, and a balance of rental and owner-occupied housing
- Encourage affordable housing near high-frequency transit and other community assets
- Leverage publicly owned properties to produce affordable housing

Actions: Underway or Potential
- Create strong community and police partnership to improve public safety
- Participate in the parks volunteers program
- Create park stewardship committee for better park management
- Encourage well-designed housing infill development in the mixed use commercial node to increase diverse housing choices including affordable housing
- Apply incentive zoning in future rezone for affordable housing
- Outreach to and educate residents of existing housing programs and subsidies

A Destination with Unique Identity

The Central Area is a neighborhood that requires you to believe in it. It is an inclusive multicultural fabric — that welcomes all people, while it is also the heart of the region’s African American community. It has a wealth of cultural heritage — the arts, schools, a library, and recreation facilities, while it also has the neighborly feel of a village. It is authentic — a gritty urban fabric, while full of mature trees and historic architecture. It is layered — new and old; youth and elders; a single neighborhood with multiple business districts — and to those who are committed to it, its richness is revealed.

Summary

Community Character and Identity

- Strengthen the unique identity and recognize the historical significance through improvements to the physical and social environment.
- Identify gathering opportunities and support programs that embrace diversity.

Appealing Environment for the Old and New (Urban Design)

- Enhance the historic character while encouraging pedestrian friendly mixed use development that respects the distinct character of each community core.
- Use land use tools such as zoning and design guidelines to create vibrant commercial districts with residential density to sustain that vitality.

Actions: Underway or Potential

- Create an annual street fair / block party on Cherry Street
- Create an Urban Design Framework
- Amend zoning and development regulations to foster vibrant residential and commercial cores with great businesses and residential capacity while preserving adjacent neighborhood single family housing
- Support the Garfield Campus improvement project
- Integrate public art into projects that represents the diversity of the Central Area
- Promote retail and entertainment uses that are pedestrian oriented
- Collaborate with property owners, developments and community members on future development

Check out the Urban design and zoning boards to see what your neighborhood might look like.

Connected People and Community

The Central Area is rich in community assets. It has visual and performing arts programs; a continuum of educational facilities; and multiple business districts including some major employers. It is also a community with people from many different backgrounds. The opportunity here is to have the assets serve and reflect the community; and for communities to have meaningful connections with each other, now and into the future.

Summary

Opportunities & Places for Gathering
- Seek community gathering opportunities within the commercial districts and unused properties

More Opportunities for Youth
- Provide youth with required skills, experience, job and education opportunities
- Improve youth engagement and leadership skills

Job and Other Services
- Support local living wage jobs, healthy workplaces, and strong linkage between jobs and training
- Provide resources and support for seniors, the immigrant/refugee and African American communities

Community Partnership, Ownership and Leadership
- Provide life-long learning opportunities needed by the diverse community
- Support local leadership

Actions: Underway or Potential
- Work with property owners and developers to provide public accessible open space
- Support the Youth Empowerment Program tailored for Central Area youth (completed for the 2014 pilot)
- Schools, organizations and the community center work together to identify and provide more youth programs and activities
- Encourage local hiring by the City, local institutions, community organizations and businesses.
- Promote job training programs

23rd Avenue
Union-Cherry-Jackson Action Plan

passion empowerment working together
Livable Streets for All

The Central Area neighborhood has an inviting street network that safely connects key destinations for transit riders, bicyclists and pedestrians. A principal arterial, 23rd Avenue, runs north-south and moves people and goods within and beyond the Central District. The intersections of 23rd Avenue with Union Street, Cherry Street, and Jackson Streets are identified as places that play important roles in the community. While we strive to accommodate and balance the needs of a variety of users throughout the neighborhood, improving the safety and the walkability of the connections to the three nodes along the corridor is paramount to their success.

Policy Summary

- Create, maintain and improve a multimodal transportation network with a focus on pedestrians and transit users that connects community destinations with high capacity transit stations.
- Facilitate safe movement of all modes through education, enforcement, and engineering.
- Coordinate transportation and infrastructure project planning and construction.
- Develop creative solutions for minimizing single occupant auto usage.

Actions: Underway or Potential

- 23rd Ave Corridor Improvement Project
- Central Area Neighborhood Greenway
- Organize a walking audit to address safety and place making opportunities
- Organize neighborhood bike rides to show people safe biking techniques and demonstrate it is a healthy and easy way to get around the community
- Support bus service
- Utilize traffic calming tools to improve road safety

## Creating Great Places

### Zoning Background

What are the different zoning types in the Union, Cherry and Jackson nodes?

<table>
<thead>
<tr>
<th>Zoning</th>
<th>Character</th>
<th>Typical Uses</th>
<th>Building Type Examples</th>
</tr>
</thead>
<tbody>
<tr>
<td>NC1 Neighborhood Commercial 1</td>
<td>Small pedestrian-oriented mixed use commercial/residential area that provides primarily convenient retail and services to the surrounding neighborhood</td>
<td>Small grocery store, hair salon, coffee shop, and housing above</td>
<td>Neighborhood Commercial 40’, such as NC1-40, NC2-40</td>
</tr>
<tr>
<td>NC2 Neighborhood Commercial 2</td>
<td>Moderately-sized pedestrian-oriented mixed use commercial/residential area with a full range of retail and services to the surrounding neighborhood</td>
<td>Medium size grocery store, drug store, coffee shop, customer service office, medical/dental facility, and housing above</td>
<td>Neighborhood Commercial 65’, such as NC2-65, NC3-65</td>
</tr>
<tr>
<td>NC3 Neighborhood Commercial 3</td>
<td>Larger pedestrian-oriented mixed use commercial/residential district serving the surrounding neighborhood and a larger community or regional clientele</td>
<td>Supermarket, restaurants, offices, hotels, clothing shops, business support services, and housing compatible with the area’s mixed-use character</td>
<td>Neighborhood Commercial 85’, such as NC3-85</td>
</tr>
<tr>
<td>SF Single Family</td>
<td>Residential area primarily with detached houses, i.e., “single dwelling unit”</td>
<td>Detached houses on separate parcel. May also include “Accessory dwelling units”</td>
<td>Low Rise Residential Commercial Zone, such as LR2-RC</td>
</tr>
<tr>
<td>Low Rise 2</td>
<td>Provides for a variety of multifamily housing types.</td>
<td>A mix of small scale multifamily housing such as townhouses, rowhouses and apartments</td>
<td>Pedestrian Oriented Storefront</td>
</tr>
</tbody>
</table>

- **Exhibit**: This exhibit, from the 23rd Ave Action Plan (Union-Cherry-Jackson), explores different zoning types in the Union, Cherry, and Jackson nodes. It outlines the character, typical uses, and building type examples for each zoning category. The poster includes a table detailing the zoning types, their characteristics, and typical uses, along with images of buildings that exemplify these types.
**23rd Ave Action Plan (Union-Cherry-Jackson)**

**Creating Great Places**

**Cherry - Urban Design Recommendations**

**Cherry Node Goal:**

A smaller scaled community-serving node with finer grained mixed use developments. This node has an abundance of community assets including parks/open space, Garfield High School and Community Center, teen center, arts programs, and small businesses, in particular ethnic restaurants, that create a unique identity for this node. It draws a broad mix of people, especially youth.

Preserve small-scale neighborhood character, immigrant and refugee owned businesses while providing a greater variety of shops and services at 23rd and Cherry and an activated street frontage.

Improve access and connectivity to community assets at 23rd and Cherry and activate space around Garfield High School, Garfield Community Center, and Medgar Evers Pool.

**DESIGN PRIORITIES AT CHERRY NODE**

<table>
<thead>
<tr>
<th>Priority</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Garfield campus improvements including paving, lighting, and mid block crossing on Cherry St between 24th and 25th to create an inviting environment and connect and activate community facilities.</td>
<td></td>
</tr>
<tr>
<td>Activate sidewalks with pedestrian oriented retail and sidewalk cafes at the ground level.</td>
<td></td>
</tr>
<tr>
<td>Small scale neighborhood character and historic buildings.</td>
<td></td>
</tr>
<tr>
<td>Opportunities for small business spaces.</td>
<td></td>
</tr>
<tr>
<td>Cherry Street activation, festival street or other community driven public space.</td>
<td></td>
</tr>
</tbody>
</table>

**Pedestrian friendly storefront and streetscape**

- Encourage pedestrian friendly building setback to provide community gathering places.

- Provide small business spaces at ground level to create more pedestrian activities and more eyes on the street.
Creating Great Places
Jackson - Zoning Recommendations

What the proposal does:

- Support larger scale pedestrian oriented mixed use development to provide opportunities for a variety of shops and services
- Raise height limit to 85' around the intersection to create flexible development potential at this important intersection
- Increase activity on the street with more people living and using this node and "more eyes on the street"
- Creates a pedestrian friendly streetscape with building setback and structure width
- Create pedestrian friendly connection
- Create opportunities for open space and community gathering

Point of Reference
1. Red Apple
2. Neighborhood Service Center
3. Washington Middle School
4. Seattle Vocational Institute
5. Franz Bakery

*Increase height from 65' to 85'

Larger Scale Neighborhood Commercial Character

Neighborhood Commercial 85'

Proposed standards for pedestrian friendly streetscape & connectivity

Setback: upper level setback at 45' height can create a pedestrian friendly streetscape and provide more light and air onto the street

- Through block pedestrian friendly connection:
  Provide a through block connection along the alignment of 24th Ave as a pedestrian access to connect Main St and Jackson St

Maximum structure width: Limit single structure width along the streetfront to a maximum of 250' pedestrian scale streetfront, solar access, view and relief
Jackson Node Goal:
The largest of the three community nodes with larger scaled mixed use developments. It is the community’s center for general goods and services including education, arts, places of worship and gathering, parks, a library, housing, social services and places to shop for daily household needs. It is a local and regional destination that draws a broad mix of people.

Encourage new pedestrian-friendly mixed-use development and increased housing density in and around the 23rd Avenue and Jackson Street commercial area. Include small-scale businesses, opportunities for retail, offices, and affordable housing. Reserving existing gathering places.

Design Priorities at Jackson Node:

- Pedestrian friendly streetscape through street furniture, building design, and use of storefronts
- Pedestrian friendly connection through the commercial core
- Mixed use development with flexible spaces for small and large businesses
- Affordable and mix of housing choices
- Opportunity for open space or community gathering space
- Pedestrian friendly storefront and streetscape
Creating Great Places

Cherry - Zoning Recommendations

What the proposal does:

- Supports small scale mixed use neighborhood commercial character
- Zones area west of 23rd Ave to accommodate existing uses
- Recommends a height limit of 40' to create a consistent and coherent identity
- Creates a pedestrian friendly streetscape with more "eyes on the street"
- Increases activity on the street with more people living and using this mixed use node
- At the NE corner of Cherry and MLK, provides appropriate zoning for existing uses and transition to adjacent existing single family zones
- Support continuation and expansion of services provided by existing institutions (Cherry Hill Baptist Church)

Consider Garfield Master Plan (2005) design concept recommendations for a more pedestrian friendly environment, activation of the public realm and access to community public assets:
- Improve paving, pedestrian lighting, landscaping around the Garfield Community Center and along the pedestrian promenade

Low Rise Residential Commercial

Promenade

Point of Reference:

1. Garfield Community Center
2. Medgar Evers Pool
3. Cherry Hill Baptist Church
4. Fuell's Barbecue Chicken
5. Concrete Central
6. NC106 High School

What is the future of the neighborhood? Suggestions for future development:

* Consider mixing uses in current commercial areas
* Promote mixed use development
* Ensure preservation of historical sites and buildings
* Foster community engagement in decision-making processes
## Design Priorities at Union Node

A moderately sized pedestrian oriented mixed use neighbor commercial node

Greater public safety from more business and living opportunities within vibrant commercial district

Transition between existing single family zones and future higher density development

Community gathering places at ground level

Opportunity for small business spaces

Affordable and mix of housing choices

**Courtyard with Ground Level Retail**
- Encourage additional building setback to allowable sidewalk cafe and community gathering places
- Prioritize open space at ground level

**Pedestrian Friendly Storefront and Streetscape**
- Stalls to enliven the streetscape

---

### Union Node Goal:

A medium sized community-serving node with mixed use developments. This node has locally owned businesses and institutions and continues to serve as the center of the African American community. It is a neighborhood scale destination that builds on existing assets and draws customers from the larger neighborhood.

Encourage new pedestrian-friendly mixed-use development at 23rd and Union that includes neighborhood serving shops and services, opportunities for startup businesses, affordable housing and live/work housing while respecting the medium scale and historic character of this node.
