YOUR VISION
If our Comprehensive Plan were successful, how would Seattle be different in 20 years?

“Cultural spaces, public spaces, and green spaces proliferated. There were meaningful buffers between residents and heavy industry, and residents could move in and between neighborhoods without needing a car.”

“We would be a beacon of low-carbon living, successfully taking in refugees from impacted areas and having them thrive here, along with existing residents.”

“Downtown would work and cater to residents of all ages and incomes.”

“I’d be able to buy a house (or townhouse, or some other sort of dwelling). My neighborhood would be more socioeconomically and racially diverse.”
Initial Public Survey

YOUR VISION

If our Comprehensive Plan were successful, how would Seattle be different in 20 years?

“Seattle is no longer a car-reliant city. 90% of people commute via public transport or biking/scooter/walking.”

“Middle-income people could buy market-rate housing, and there would be enough subsidized housing for low-income earners. Homelessness would be rare and short-term.”

“A high proportion of commercial space would be used *and owned* by local, family-owned businesses.”

“It would be open & welcoming to all. Clean spaces, clean air, accessible for all types of mobility & friendly with affordability the most important thing.”

“Impacted communities would have a voice in policy making. Seattleites would all sacrifice something for the greater good of all community members.”
