ORDINANCE _________________

AN ORDINANCE related to land use, zoning and environmental review, amending Sections 23.40.006, 23.42.040, 23.42.050, 23.44.014, 23.44.041, 23.45.504, 23.45.510, 23.45.512, 23.45.514, 23.45.518, 23.45.526, 23.45.527, 23.45.529, 23.45.532, 23.45.545, 23.47A.005, 23.47A.008, 23.54.015, 23.54.016, 23.54.020, 23.55.022, 23.76.004, 23.76.006, 23.84A.032, 23.91.002, 25.05.800 and Chapter 23.52 of the Seattle Municipal Code, and adding new Sections 23.40.035 and 23.52.008 to carry out proposals for regulatory reform.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 23.40.006 of the Seattle Municipal Code, which section was last amended by Ordinance 123649, is amended as follows:

23.40.006 Demolition of housing

No demolition permit for a structure containing a dwelling unit shall be issued unless one of the following conditions is satisfied, and provided that no permit for demolition of a structure containing a dwelling unit may be issued if the new use is for non-required parking:

A. The structure is a residential use in a single family zone (that was last occupied as rental housing and has been unoccupied) and was not occupied as rental housing (for at least) during the prior 12 (consecutive) months, unless such demolition aids expansion of an adjacent non-residential use; or

B. A permit or approval has been issued by the Director according to the procedures set forth in Chapter 23.76, Procedures for Master Use Permits and Council Land Use Decisions, to change the use of the structure or the premises; or

C. A permit or approval has been issued by the Director to relocate the structure containing a dwelling unit to another lot, whether within the City limits or outside the City limits, to be used, on the new lot, as a dwelling unit; or

* * *

* * *
Section 2. A new Section 23.40.035 of the Seattle Municipal Code is adopted to read as follows:

**23.40.035 Location of accessory dwelling units on through lots**

On a through lot, when yards cannot be determined pursuant to Section 23.40.030, the Director shall designate a rear yard for the purpose of allowing a detached accessory dwelling. In designating a rear yard, the Director shall consider factors including but not limited to the location of existing structures, vehicular and pedestrian access, platting patterns in the vicinity and topography.

Section 3. Section 23.42.040 of the Seattle Municipal Code, which section was last amended by Ordinance 123565, is amended as follows:

**23.42.040 Intermittent, temporary and interim uses**

The Director may grant, deny or condition applications for the following intermittent, temporary or interim uses not otherwise permitted or not meeting development standards in the zone.

A. Intermittent Uses.

1. A Master Use Permit for a time period of up to one year may be authorized for any use that occurs no more than two days per week and does not involve the erection of a permanent structure, provided that:

   a. The use (shall) is not (be) materially detrimental to the public welfare; and

   b. The use (shall) does not result in substantial injury to the property in the vicinity; and

   c. The use (shall be) is consistent with the spirit and purpose of the Land Use Code.
B. ((Temporary Four Week Use. A Master Use Permit for a time period of up to four weeks may be authorized for any use that does not involve the erection of a permanent structure and that meets the requirements of subsections 23.42.040.A.1.a – 23.42.040.A.1.e.)) Reserved.

C. Temporary Uses for Up to ((Six)) Eighteen Months. A Master Use Permit for a time period of up to ((six)) 18 months may be authorized for any use that does not involve the erection of any permanent structure and that meets the requirements of subsections 23.42.040.A.1.a – 23.42.040.A.1.c.

***

Section 4. Section 23.42.050 of the Seattle Municipal Code, which section was last amended by Ordinance 123649, is amended as follows:

23.42.050 Home occupations

A home occupation of a person residing in a dwelling unit is permitted outright ((in that dwelling unit)) in all zones as an accessory use to any residential use permitted outright or to a permitted residential conditional use, ((in each case)) subject to the following requirements:

((standards of this section.))

A. The occupation ((shall be)) is clearly incidental to the use of the dwelling unit as a dwelling.

B. Commercial deliveries and pickups to the dwelling unit ((shall be)) are limited to one per day Monday through Friday. No commercial deliveries or pickups ((shall be)) are permitted on Saturday, Sunday or federal holidays.

((C. To discourage drop-in traffic, the address of the home occupation shall not be given in any advertisement, including but not limited to commercial telephone directories, newspapers, magazines, signs, flyers, radio, television or other media. Addresses may be listed on business cards, but a statement must be included to the effect that business is by appointment only.))

C. Customer visits are by appointment only.
D. The occupation ((shall)) may be conducted ((only)) within ((the principal)) any legal principal or accessory dwelling unit or structure, ((or in an accessory dwelling unit)) provided that licensed child care may be conducted only in the principal structure or in an accessory dwelling unit. Home occupations may be conducted by residents of a principal dwelling unit and/or an accessory dwelling unit. The presence of one home occupation does not preclude a resident of another legally established dwelling unit on the property from also conducting a home occupation.

E. Parking of vehicles associated with the home occupation ((shall be)) is permitted anywhere that parking is permitted on the lot. ((E. To preserve the residential appearance of the dwelling unit, there shall be no evidence of the home occupation visible from the exterior of the structure((; provided that:

1. ((o) Outdoor play areas for licensed child care programs and outdoor activities customarily incidental to the residential use ((shall be)) are permitted((.));
2. Interior and exterior alterations and additions that comply with the development standards of the zone are permitted;
3. Alterations and additions that are required by licensing or construction codes for licensed child care programs are permitted; and
4. Signs identifying the home occupation are permitted subject to compliance with Chapter 23.55, Signs.

G. No outdoor storage ((shall be)) is permitted in connection with a home occupation. ((F. To preserve the residential character and use of the dwelling unit, only internal alterations customary to residential use shall be permitted, and no external alterations shall be permitted to accommodate a home occupation, except as required by licensing or construction codes for child care programs.))
((G.))H. Except for licensed child care programs, no more than two persons, whether full-time or part-time, who are not residents of a dwelling unit on the lot may work in a home occupation, regardless of whether the persons work full or part-time or are compensated. (This includes persons working off site who come to the site for business purposes at any time as well as persons working on site.)

((H.))I. The home occupation shall not cause a substantial increase in on-street parking congestion or a substantial increase in traffic within the immediate vicinity.

((I.))J. A maximum of two passenger vehicles, vans and similar vehicles each not exceeding a gross vehicle weight of 10,000 pounds are permitted to operate in connection with the home occupation, independent of commercial deliveries and pickups as provided for in subsection 23.40.050.B.

((J.))K. The home occupation shall be conducted so that noise, odor, smoke, dust, light and glare, and electrical interference and other similar impacts are not detectable by sensory perception at or beyond the property line of the lot where the home occupation is located.

((K. Signs are regulated by Chapter 23.55.))

L. Licensed child care programs in the home of the operator are limited to 12 children per day including the children of the operator.

Section 5. Section 23.44.014 of the Seattle Municipal Code, which section was last amended by Ordinance 123649, is amended as follows:

23.44.014 Yards

Yards are required for every lot in a single-family zone. A yard that is larger than the minimum size may be provided.

A. Front Yards.
1. The front yard depth shall be either the average of the front yards of the single-family structures on either side or \((\text{twenty (20)})\) 20 feet, whichever is less.

2. On any lot where the natural gradient or slope, as measured from the front line of the lot for a distance of \((\text{sixty (60)})\) 60 feet or the full depth of the lot, whichever is less, is in excess of \((\text{thirty-five (35)})\) 35 percent, the required front yard depth shall be either \((\text{twenty (20)})\) 20 feet less one \((\text{one (1)})\) foot for each one \((\text{one (1)})\) percent of gradient or slope in excess of \((\text{thirty-five (35)})\) 35 percent, or the average of the front yards on either side, whichever is less.

3. In the case of a through lot, each yard abutting a street, except a side yard, shall be a front yard. Rear yard provisions shall not apply to the lot, except pursuant to Section 23.40.030 or 23.40.035.

4. A larger yard may be required in order to meet the provisions of Section 23.53.015, Improvement requirements for existing streets in residential and commercial zones.

***

Section 6. Section 23.44.041 of the Seattle Municipal Code, which section was last amended by Ordinance 123649, is amended as follows:

23.44.041 Accessory Dwelling Units

***

B. Accessory dwelling units, detached, additional provisions. ((A detached accessory dwelling unit is also known as a backyard cottage.)) The Director may authorize a detached accessory dwelling unit, also known as a backyard cottage, ((and that unit may be used as a residence, only under)) if the unit meets the ((conditions set forth in)) requirements of subsection 23.44.041.A and the following additional ((conditions)) requirements:

1. Detached accessory dwelling units are not permitted on a lot if any portion of the lot is within the Shoreline District established pursuant to Section 23.60.010.
2. Detached accessory dwelling units are required to meet the additional development standards set forth in Table B for 23.44.041:

<table>

</tr>
</tbody>
</table>

Footnotes:
1. The Director may allow an exception to standards (a-f, h, i and j pursuant to subsection 23.44.041.B.3, for converting existing accessory structures.
2. For lots that do not meet the lot depth requirement, but have a greater width than depth and an area greater than 5,000 sq. ft., a detached accessory dwelling unit is permitted, provided the detached accessory dwelling unit is not located in a required yard.
3. If the lot line is adjacent to an alley and a detached accessory dwelling unit includes a garage with a vehicle entrance that faces the alley, the garage portion of the structure may not be located within 12 feet of the centerline of the alley.
4. On a reversed corner lot, no detached accessory dwelling unit shall be located in that portion of the required rear yard that abuts the required front yard of the adjoining key lot.
5. Features such as chimneys, antennas, and flagpoles may extend up to 4 feet above the maximum allowed height. ((The additional height for sloped lots permitted by subsection 23.44.012.B does not apply.))
6. Detached accessory dwelling units on lots that have a width greater than 40 feet up to 50 feet may (also) be built to the maximum height limit((s)) applicable in the column for lots greater than 50 feet (listed in this column if both of) when ((the following conditions are met: a)) the detached accessory dwelling unit is located on a lot with a rear lot line that is adjacent to an alley.((and b) the width of the lot is 40 feet or greater.))
7. The exceptions from standard yard requirements in subsection 23.44.014.D.6.a shall also apply.
8. All parts of the roof above the applicable base height shall be pitched at a rate of not less than 3:12.

***
3. Conversion of accessory structures. An existing accessory structure that is not located in a required front yard, or that is located in a front yard where Section 23.40.030 or 23.40.035 applies, may be converted into a detached accessory dwelling unit if the structure complies with the minimum standards set forth in Sections 22.206.010 through 22.206.140 of the Housing and Building Maintenance Code and with the Seattle Residential Code, if work requiring a permit is performed on the structure or has previously been performed without a permit. The Director may allow an exception to one or more of the development standards for accessory dwelling units contained in subsections 23.44.041.A.4 and standards a-f, h, i and j listed in Table B for Section 23.044.041, provided the conversion does not increase the structure's nonconformity with the standard and the applicant can demonstrate that the accessory structure was constructed prior to June 1, 1999, as an accessory structure.

***

Section 7. Section 23.45.504 of the Seattle Municipal Code, which section was last amended by Ordinance 123547, is amended as follows:

23.45.504 Permitted and prohibited uses

A. All uses are permitted outright, prohibited or permitted as a conditional use according to Table A for 23.45.504 and this Section 23.45.504. Uses not referred to in Table A for 23.45.504 are prohibited, unless otherwise indicated in this Chapter 23.45 or Chapters 23.51A, 23.51B, or 23.57. Communication utilities and accessory communication devices, except as exempted in Section 23.57.002, are subject to the regulations in this Chapter 23.45 and additional regulations in Chapter 23.57. Public facilities are subject to the regulations in Section 23.51A.004.

B. All permitted uses are allowed as a principal use or as an accessory use, unless otherwise indicated in this Chapter 23.45.

Footnotes to Table A for 23.45.504:
1. Institutions meeting development standards are permitted outright; all others are administrative conditional uses pursuant to Section 23.45.506. The provisions of this Chapter 23.45 shall apply to Major Institution uses as provided in Chapter 23.69.
2. Prohibited in Station Area Overlay Districts; otherwise, permitted as an administrative conditional use pursuant to Section 23.45.506.
3. Commercial uses as indicated in (Subject to) subsection 23.45.504.E((.) are permitted within structures in any Midrise or Highrise zone, and in Lowrise 2 and Lowrise 3 zones that are located within an urban center or the Station Area Overlay District.
4. Subject to subsection 23.45.504.G and 23.45.506.F.
5. Subject to subsection 23.45.504.F.
6. Subject to subsection 23.45.504.G.
7. Subject to subsection 23.45.504.H.
8. Subject to subsection 23.45.504.I.

27. Subject to subsection 23.45.504.AB.
28. Subject to subsection 23.45.504.AC.
29. Subject to subsection 23.45.504.AD.
30. Subject to subsection 23.45.504.AE.
31. Subject to subsection 23.45.504.AF.
32. Subject to subsection 23.45.504.Ag.
33. Subject to subsection 23.45.504.AH.
34. Subject to subsection 23.45.504.AI.
35. Subject to subsection 23.45.504.AJ.
36. Subject to subsection 23.45.504.AK.
37. Subject to subsection 23.45.504. AL.
38. Subject to subsection 23.45.504. AM.
39. Subject to subsection 23.45.504. AN.
40. Subject to subsection 23.45.504. AO.
41. Subject to subsection 23.45.504. AP.
42. Subject to subsection 23.45.504. AQ.
43. Subject to subsection 23.45.504. AR.
44. Subject to subsection 23.45.504. AS.
45. Subject to subsection 23.45.504. AT.
46. Subject to subsection 23.45.504. AU.
47. Subject to subsection 23.45.504. AV.
48. Subject to subsection 23.45.504. AW.
49. Subject to subsection 23.45.504. AX.
50. Subject to subsection 23.45.504.AY.
51. Subject to subsection 23.45.504. AZ.
C. Accessory uses. The following accessory uses are permitted in all multifamily zones, subject to standards in Section 23.45.545, if applicable:

1. Private garages and carports;
2. Private, permanent swimming pools, hot tubs and other similar uses;
3. Solar collectors, including solar greenhouses;
4. Open wet moorage accessory to residential structures;
5. Uses accessory to parks and playgrounds, pursuant to Section 23.45.578;
6. Bed and breakfasts in a dwelling unit that is at least five years old;
7. Recycling collection stations;
8. Urban farms with planting area not more than 4,000 square feet. Urban farms with greater than 4,000 square feet of planting area may be allowed as an administrative conditional use to any use permitted outright or as a conditional use. The Director may grant, condition or deny a conditional use permit in accordance with subsection 23.52.051.B; and
9. Accessory dwelling units.

D. Heat recovery incinerators may be permitted as accessory administrative conditional uses, pursuant to Section 23.45.506.

E. Ground floor commercial use.

1. Drive-in businesses are prohibited, as either a principal or accessory use.
2. The following uses are permitted as ground-floor commercial uses in Lowrise 2 and Lowrise 3 zones located within an urban center or the Station Area Overlay District, and in Midrise and Highrise zones pursuant to Section 23.45.532:
   a. Business support services;
   b. Food processing and craft work;
   c. General sales and services;
   d. Medical services;
e. Offices;

f. Restaurants; and

g. Live-work with one of the uses permitted in this subsection 23.45.504.E as the permitted commercial use.

((2. In MR zones, ground floor commercial uses are permitted only on a lot that is within 800 feet of a neighborhood commercial zone.))

***

Section 8. Section 23.45.510 of the Seattle Municipal Code, which section was last amended by Ordinance 123770, is amended as follows:

23.45.510 Floor area ratio (FAR) limits

A. General provisions.

1. All gross floor area not exempt under subsection 23.45.510.E counts toward the maximum gross floor area allowed under the floor area ratio (FAR) limits.

2. The applicable FAR limit applies to the total non-exempt gross floor area of all structures on the lot.

3. If a lot is in more than one zone, the FAR limit for each zone applies to the portion of the lot located in that zone, and the floor area on the portion of the lot with the lower FAR limit may not exceed the amount that would be permitted if it were a separate lot.

B. FAR limits in LR zones. Floor area ratio limits apply in LR zones as shown in Table A for 23.45.510, provided that if the LR zone designation includes an incentive zoning suffix, then the applicant shall comply with Chapter 23.58A, Incentive Provisions, to obtain gross floor area exceeding that allowed by the FAR shown in the suffix designation. These FAR limits also apply to any nonresidential uses permitted pursuant to subsection 23.45.504.E. Single-purpose nonresidential development is subject to the lowest FAR limit listed in Table A for 23.45.510 for the applicable zone and location.

Footnotes for Table A for 23.45.510:

<sup>(1)</sup> If more than one type of residential use is provided on a lot, the FAR limit for each residential use is the higher FAR limit for each residential use in this Table A for 23.45.510 only if the conditions in subsection 23.45.510.C are satisfied for all residential uses on the lot. Nonresidential uses are subject to the FAR limits as indicated in this subsection 23.45.510.B.

<sup>(2)</sup> The higher FAR limit applies if the project meets the standards of subsection 23.45.510.C.

<sup>(3)</sup> On lots that abut a street with frequent transit service, the higher FAR limit is 1.6.

C. In LR zones, in order to qualify for the higher FAR limit shown in Table A for 23.45.510, the following standards shall be met:

1. Applicants shall make a commitment that the structure will meet green building performance standards by earning a Leadership in energy and Environmental Design (LEED) Silver rating or a Built Green 4-star rating of the Master Builders Association of King and Snohomish Counties, except that an applicant that who is applying for funding from the Washington State Housing Trust Fund and/or the Seattle Office of Housing to develop new affordable housing, may elect to meet green building performance standards by meeting the Washington Evergreen Sustainable Development Standards (ESDS). The standards referred to in
this subsection 23.45.510.C.1 are those identified in Section 23.45.526, and that section shall apply as if the application were for new development gaining extra residential floor area.

2. For all categories of residential use, and mixed-use development, if the lot abuts an alley and the alley is used for access, improvements to the alley shall be required as provided in subsections 23.53.030.E and F, except that the alley shall be paved rather than improved with crushed rock, even for lots containing fewer than ten dwelling units.

3. Parking location if parking is provided.
   a. For rowhouse and townhouse developments, and mixed-use development containing either of those housing types, parking shall be totally enclosed with the same structure as the residential use, located in a structure or portion of a structure that meets the requirements of subsection 23.45.510.E.5, or located in a parking area or structure at the rear of the lot.
   b. For apartments, and mixed-use development containing apartments, parking may either:
      1) be totally enclosed within the same structure as the residential use; or
      2) be on lots located outside of ((U))urban ((C))centers, ((U))urban ((V))villages, and the Station Area Overlay District, be located off an alley at the rear of the lot, provided that all surface parking is limited to a single row of spaces along the alley and access to each surface parking space is taken directly from the alley.

4. Access to parking if parking is provided.
   a. Access to required barrier-free parking spaces may be from either a street or an alley. Subsections 23.45.510.C.4.b, c, and d do not apply to required barrier-free parking spaces.
b. If the lot abuts an alley, access to parking shall be from the alley, unless one or more of the conditions in subsection 23.45.536.C.2 are met.

c. If access cannot be provided from an alley, access shall be from a street if the following conditions are met:

1) on corner lots, the driveway shall abut and run parallel to the rear lot line of the lot or a side lot line that is not a street lot line.

2) on a non-corner lot, there is no more than one driveway per 160 feet of street frontage.

d. (i) If access to parking does not meet one of the standards in this subsection 23.45.510.C.4, or if an exception is granted that allows parking access from both an alley and a street pursuant to subsection 23.45.536.C, the lower FAR limit on Table A for 23.45.510 applies.

Section 9. Section 23.45.512 of the Seattle Municipal Code, which section was last amended by Ordinance 123495, is amended as follows:

23.45.512 Residential Density Limits – Lowrise zones

A. There shall be a minimum lot area per dwelling unit in LR zones for cottage housing developments, townhouse developments, (and) apartments, and mixed-use development containing residential use, as shown on Table A for 23.45.512, except as provided in ((subsections B, C, D, E, and G of this Section)) subsections 23.45.512.B, C, D, E, and G.

Section 12. Section 23.45.526 of the Seattle Municipal Code, which section was last amended by Ordinance 123495, is amended as follows:

23.45.526 LEED, Built Green, and Evergreen Sustainable Development Standards

A. Applicants for all new development gaining extra residential floor area, pursuant to this Chapter 23.45, or seeking to qualify for the higher FAR limit in Table A for 23.45.510(,
except additions and alterations)) shall make a commitment that the structure will meet green building performance standards by earning a Leadership in Energy and Environmental Design (LEED) Silver rating or a Built Green 4-star rating of the Master Builders Association of King and Snohomish Counties, except: ((that))

1. This commitment is not required for building additions and alterations; and
2. ((a)) An applicant who is applying for funding from the Washington State Housing Trust Fund and/or the Seattle Office of Housing to develop new affordable housing, as defined in subsection 23.45.526.D, may elect to meet green building performance standards by meeting the Washington Evergreen Sustainable Development Standards (ESDS).

***

Section 14. Section 23.45.529 of the Seattle Municipal Code, which section was last amended by Ordinance 123495, is amended as follows:

23.45.529 Design standards

A. Intent. The intent of the design standards in this Section 23.45.529 is to:

1. Enhance street-facing facades to provide visual interest, promote new development that contributes to an attractive streetscape, and avoid the appearance of blank walls along a street;

2. Foster a sense of community by integrating new pedestrian-oriented (multifamily) development with the neighborhood street environment and promoting designs that allow easy surveillance of the street by area residents;
3. Promote livability in multifamily areas by providing a sense of openness and access to light and air; and

4. Encourage the compatibility of a variety of housing and use types, including limited nonresidential and mixed use development, with the scale and character of neighborhoods where new (multifamily) development occurs.

B. Application of provisions. The provisions of this Section 23.45.529 apply to all development that does not undergo any type of design review pursuant to Chapter 23.41, except single-family dwelling units.

C. Treatment of street-facing facades. For the purposes of this subsection 23.45.529.C, a street-facing façade includes all vertical surfaces enclosing interior space, including gables and dormers, as shown in Exhibit A for 23.45.529.
Exhibit A for 23.45.529: Measurement of Street-facing Facades
1. Façade openings.
   
a. At least 20 percent of the area of each street-facing façade shall consist of windows and/or doors.

                b. Only transparent windows count toward the requirement for façade openings in this subsection 23.45.529.C.1. Windows composed of glass blocks or opaque glass, garage doors, and doors to utility and service areas, do not count.

2. Façade articulation.
   
a. If a street-facing façade or portion of a street-facing façade is not vertical, the Director shall determine whether the façade is substantially vertical and required to comply with this subsection 23.45.529.C.

                b. If the street-facing façade of a structure exceeds 750 square feet in area, division of the façade into separate façade planes is required (see Exhibit B for 23.45.529).
Exhibit B for 23.45.529: Street-facing Facades

- Street-facing facade greater than 750 square feet
- Maximum area of a separate facade plane: 500 square feet
- Minimum area of a separate facade plane: 150 square feet
c. In order to be considered a separate façade plane for the purposes of this subsection 23.45.529.C.2, a portion of the street-facing façade shall have a minimum area of 150 square feet and a maximum area of 500 square feet, and shall project or be recessed from abutting façade planes by a minimum depth of 18 inches.

d. Trim that is a minimum of 0.75 inches deep and 3.5 inches wide is required to mark roof lines, porches, windows and doors on all street-facing facades.

e. The Director may allow exceptions to the façade articulation requirements in this subsection 23.45.529.C.2, if the Director determines that the street-facing façade will meet the intent of subsection 23.45.529.A.1, and the intent of subsections 23.45.529.D.2, E.3, and F.4 for cottage housing developments, rowhouse developments, and townhouse developments, respectively, through one or more of the following street-facing façade treatments:

1) Variations in building materials and/or color, or both, that reflect the stacking of stories or reinforce the articulation of the façades;

2) Incorporation of architectural features that add interest and dimension to the façade, such as porches, bay windows, chimneys, pilasters, columns, cornices, and/or balconies;

3) Special landscaping elements provided to meet Green Factor requirements pursuant to Section 23.45.524, such as trellises, that accommodate vegetated walls covering a minimum of 25 percent of the façade surface;

4) Special fenestration treatment, including an increase in the percentage of windows and doors to at least 25 percent of the street-facing façade(s).

***
Section 15. Section 23.45.532 of the Seattle Municipal Code, which section was last amended by Ordinance 123209, is amended as follows:

23.45.532 Standards for ground floor commercial uses in LR, MR and HR zones

A. All ground-floor commercial uses permitted pursuant to Section 23.45.504, except medical service uses permitted pursuant to Section 23.45.506, shall meet the following conditions:

1. The commercial use is permitted only on the ground floor of a structure. On sloping lots, the commercial use may be located at more than one level within the structure as long as the floor area in commercial use does not exceed the area of the structure’s footprint. See Exhibit A for 23.45.532.
Exhibit A for 23.45.532

![Diagram showing Business and Commercial Use on the Ground Floor of Shaping Sites]

**Total Area of Level 1 plus Level 2 must be less than or equal to the footprint area of the structure.**
2. In a MR or HR zone, the maximum size of use of any one business establishment is 4,000 square feet, except that the maximum size of use of a multi-purpose retail sales establishment is 10,000 square feet.

3. In a LR zone the maximum size of use of any one business establishment is 2,500 square feet. In a LR RC zone, the maximum size of use limits in Section 23.46.014 apply.

4. In a LR zone, use of outdoor seating after 10:00 p.m. for any business establishment is prohibited. In a LR RC zone, this limit does not apply.

5. Vents for venting of odors, vapors, smoke, gas and fumes, and exterior heat exchangers and other similar devices (e.g., related to ventilation, air-conditioning, refrigeration) shall be located and directed away from residential uses to the extent possible. In a LR RC zone, the noise and odor standards of Sections 23.46.016 and 23.46.018 apply.

B. No loading berths are required for ground-floor commercial uses. If provided, loading berths shall be located so that access to residential parking is not blocked.

C. Identifying business signs are permitted pursuant to Chapter 23.55, Signs.

Section 16. Section 23.45.545 of the Seattle Municipal Code, which section was enacted by Ordinance 123495, is amended as follows:

23.45.545 Standards for certain accessory uses

* * *

I. In Lowrise zones, accessory dwelling units are allowed, in rowhouse and townhouse units, as follows:

1. One accessory dwelling unit is allowed for each rowhouse or townhouse unit that is a “principal unit.” A “principal unit” is a dwelling unit that is not an accessory dwelling unit.
((2. The principal structure on the lot shall include one and only one dwelling unit other than the accessory dwelling unit, which other dwelling unit is referred to in this subsection 23.45.545.I as the "principal unit").)

((3.))

((3.-)) The owner of ((the lot)) a principal unit shall comply with the owner occupancy requirements of subsection 23.44.041.C.

((4.))

((4.-)) The maximum gross floor area of an accessory dwelling unit is 650 square feet provided that the maximum gross floor area of the accessory dwelling unit may not exceed 40 percent of the total gross floor area in residential use on the lot or unit lot, if present, exclusive of garages, storage sheds, and other non-habitable spaces.

((5.))

An accessory dwelling unit shall be located completely within the same structure as the principal unit or in an accessory structure located between the rowhouse or townhouse unit and the rear lot line.

((6.))

The entrance to an accessory dwelling unit provided within the same structure as the principal unit shall be provided through one of the following configurations:

a. Through the primary entry to the principal unit; or

b. Through a secondary entry on a different facade than the primary entry to the principal unit; or

c. Through a secondary entry on the same facade as the primary entry to the principal unit that is smaller and less visually prominent than the entry to the principal unit, and does not have a prominent stoop, porch, portico or other entry feature.

((7.))

Exterior stairs. Exterior stairs providing access to an accessory dwelling unit may not exceed 4 feet in height, except for exterior stairs providing access to an accessory dwelling unit located above a garage.

((8.))

Parking. Parking is not required for an accessory dwelling unit.
Section 17. Section 23.47A.005 of the Seattle Municipal Code, which section was last amended by Ordinance 123589, is amended as follows:

**23.47A.005 Street-level uses**

A. The requirements of this Section 23.47A.005 apply in addition to the other applicable requirements of this Title 23.

B. Mini-warehouses, warehouses, or utility uses may not abut a street-level street-facing facade in a structure that contains more than one residential dwelling unit.

C. Residential uses at street level.

1. Residential uses are generally permitted anywhere in a structure in NC1, NC2, NC3 and C1 zones, except as provided in subsections 23.47A.005.C.2 and 23.47A.005.C.3.

((2.)) In all neighborhood commercial and C1 zones, residential uses may occupy, in the aggregate, no more than 20 percent of the street-level street-facing facade in the following circumstances or locations:

a. In a pedestrian-designated zone, facing a designated principal pedestrian street; or

b. Within the Bitter Lake Village Hub Urban Village; or

c. Within the Lake City Hub Urban Village, except as provided in subsection 23.47A.005.C.2; or

((d.)) Within a zone that has a height limit of 85 feet or higher, except as provided in subsection 23.47A.005.C.2; or

((e.)) Within an NC1 zone, except as provided in subsection 23.47.005.C.2; or

d. Within the Northgate Overlay District, except as provided in 23.71.044.
2. ((3. Residential uses may not exceed, in the aggregate, 20 percent of the street-
level street-facing façade if facing an arterial or within a zone that has a height limit of 85 feet or
higher, except that there is no limit on residential uses in the following circumstances or
locations:)) Subsection 23.47A.005.C.1 notwithstanding, there is no restriction on the location of
residential uses in the following circumstances:
   a. Within a very low-income housing project existing as of May 1, 2006,
or within a very low-income housing project replacing a very low-income housing project
existing as of May 1, 2006 on the same site; or ((i))
   b. The residential use is an assisted living facility or nursing home and
private living units are not located at street level; or ((i))
   c. ((Within the Station Area Overlay District, in which case Chapter 23.61
applies.))
   ((4. Residential uses may occupy 100 percent of the street-level street-facing
façade in a structure if the)) Within a structure that:
      ((a.)) 1) ((I))is developed and owned by the Seattle Housing
Authority; and
      ((b.)) 2) ((I))is located on a lot zoned NC1 or NC3 that was owned
by the Seattle Housing Authority as of January 1, 2009((;))
      ((e. Is not located in a pedestrian designated zone or a zone that
has a height limit of 85 feet or higher; and))
      ((d. Does not face a designated principal pedestrian street.))
   ((5))3. Additions to, or on-site accessory structures for, existing single-family
structures are permitted outright.
   ((6))4. Where residential uses at street level are limited to 20 percent of the street-
level street-facing façade, such limits do not apply to residential structures separated from the
street lot line by an existing structure meeting the standards of this Section 23.47A.005 and 23.47A.008, or by an existing structure legally nonconforming to those standards.

***

Section 18. Section 23.47A.008 of the Seattle Municipal Code, which section was last amended by Ordinance 122935, is amended as follows:

23.47A.008 Street-level development standards

A. Basic street-level requirements.

1. The provisions of this subsection apply to:
   a. Structures in NC zones;
   b. Structures that contain a residential use in C zones; and
   c. Structures in C zones across the street from residential zones.

2. Blank facades.
   a. For purposes of this section, facade segments are considered blank if they do not include at least one of the following:
      1) Windows;
      2) Entryways or doorways;
      3) Stairs, stoops, or porticos;
      4) Decks or balconies; or
      5) Screening and landscaping on the facade itself.
   b. Blank segments of the street-facing facade between 2 feet and 8 feet above the sidewalk may not exceed 20 feet in width.
   c. The total of all blank facade segments may not exceed 40 percent of the width of the facade of the structure along the street.

3. Street-level street-facing facades shall be located within 10 feet of the street lot line, unless wider sidewalks, plazas, or other approved landscaped or open spaces are provided.
B. Nonresidential street-level requirements.

1. The provisions of this subsection 23.47A.008.B and subsection 23.47A.008.A apply to:

   a. Structures with street-level nonresidential uses in NC zones;
   
   b. Structures with street-level nonresidential uses that also contain residential uses in C zones; and
   
   c. Structures with street-level nonresidential uses in C zones across the street from residential zones.

2. Transparency.

   a. Sixty percent of the street-facing facade between 2 feet and 8 feet above the sidewalk shall be transparent.
   
   b. Transparent areas of facades shall be designed and maintained to allow unobstructed views from the outside into the structure or, in the case of live-work units, into display windows that have a minimum 30-inch depth.

3. (The following h)) Height and depth provisions (apply to) for new structures or new additions to existing structures((i designate)) Nonresidential uses shall extend an average depth of at least 30 feet and a minimum depth of 15 feet ((in depth)) from the street-level street-facing facade. If the combination of the ((street-facing façade)) requirements of ((subsection)) Sections 23.47A.005 or 23.47A.008((.D.1)) and this depth requirement would result in a requirement that an area greater than 50 percent of the structure's footprint be dedicated to nonresidential use, the Director may modify the street-facing facade or depth requirements, or both, so that no more than 50 percent of the structure's footprint is required to be nonresidential.
   
   b. Nonresidential uses at street level shall have a floor-to-floor height of at least 13 feet.
C. In pedestrian-designated zones, the provisions of subsections 23.47A.008.A and 23.47A.008.B and the following apply:

1. A minimum of 80 percent of the width of a structure's street-level street-facing facade that faces a principal pedestrian street shall be occupied by uses listed in subsection 23.47A.005.D.1. The remaining 20 percent of the street frontage may contain other permitted uses and/or pedestrian entrances (see Exhibit A for 23.47A.008).
Exhibit A for 23.47A.008

Uses and pedestrian access allowed along street-level, street facing facades

LIMIT

Other permitted uses or pedestrian entrances

20%

FRONT FACADE
2. For purposes of calculating the 80 percent of a structure's street-level facade, the width of a driveway at street level, not to exceed 22 feet, may be subtracted from the width of the street-facing facade if the access cannot be provided from an alley or from a street that is not a designated principal pedestrian street.

3. If the street-facing facade and depth requirements would result in a requirement that an area greater than 50 percent of the structure's footprint be dedicated to the uses in subsection 23.47A.005.D.1, the Director may modify the street-facing facade or depth requirements, or both, so that no more than 50 percent of the structure's footprint is required to be dedicated to the uses in subsection 23.47A.005.D.1.

D. (The provisions of this subsection apply to structures with residential uses located along a street-level street-facing facade) Where residential uses are located along a street-level street-facing facade under section 23.47.005.D1, the following requirements apply unless exempted by subsection 23.47A.008.G:

1. At least one of the street-level street-facing facades containing a residential use shall have a visually prominent pedestrian entry; and

2. The floor of a dwelling unit located along the street-level street-facing facade shall be at least 4 feet above or 4 feet below sidewalk grade or be set back at least 10 feet from the sidewalk.

E. When a live-work unit is located on a street-level street-facing facade, the provisions of subsections 23.47A.008.A and 23.47A.008.B apply, and the portion of each such live-work unit in which business is conducted must be located between the principal street and the residential portion of the live-work unit.

F. The Director may allow departures from street-level requirements of this section for projects that are not subject to the Design Review process, as a Type I decision, if the Director
determines that the project will maintain the safety and aesthetics of the streetscape for pedestrians and will:

1. maintain pedestrian access to the structure;
2. maintain urban form consistent with adjacent structures;
3. maintain the visibility of nonresidential uses;
4. maintain the privacy of residential uses; or
5. allow the continued use of an existing structure without substantial renovation.

G. In a structure existing on January 1, 2012, an accessory dwelling unit may be established if it is accessory to an existing dwelling unit and if it meets minimum housing standards of Chapter 22.206, even if nonconforming to standards of subsection 23.47A.008.D.

Section 19. A new Subchapter II and a new Section 23.52.008 are added to Chapter 23.52 of the Seattle Municipal Code as follows:

23.52 Transportation Concurrency, ((Project Review System)) and Impact Mitigation
Subchapter I Transportation Concurrency Project Review System

* * *

Subchapter II Transportation Impact Mitigation

23.52.008 Transportation Impact Mitigation

A. Applicability. The requirements of this Section 23.52.008 apply to new development as described in Table A for 23.52.008. New development that is subject to SEPA environmental review per SMC Chapter 25.05 is exempt from this Subchapter II.

B. Authority.

1. The Director may require a transportation impact evaluation for permit applications for which this subsection 23.52.008.B.1 is applicable pursuant to subsection 23.52.008.A. The Director shall determine the scope and level of detail of the evaluation based on the probable impacts and/or scale of the proposed development. Analysis or discussion of the following topics and other elements may be required:

a. Number of additional daily and peak hour vehicular trips;

b. Likely distribution of project traffic and effects on traffic operations;

c. Availability and expected usage of transit;

d. Existing vehicular, pedestrian, and bicycle conditions, including access and connections to transit and bicycle facilities;

e. Accident history.
2. The Director in consultation with the Director of Transportation may condition permit approval, as a Type I decision, based on the results of a transportation impact evaluation, to mitigate or prevent identified impacts. Mitigation may include, but is not limited to:

a. changes in access;

b. changes in the location, number and size of curb cuts and driveways;

c. provision of transit incentives, including transit pass subsidies;

d. bicycle parking, and shower facilities for bicycle commuters;

e. signage, including wayfinding;

f. improvements to vehicular, pedestrian and bicycle traffic operations including signalization, turn channelization, right-of-way dedication, street widening, pedestrian and bicycle facilities improvements, pedestrian lighting, or other improvements proportionate to the impacts of the project;

g. transportation management plans;

h. Parking management strategies including, but not limited to, unbundling parking from building-space leases, reserved parking spaces for vanpools, and reduction in the amount of parking to be provided; and

i. Participation in transportation mitigation payment program or transportation management association, where available.

Section 20. Section 23.54.015 of the Seattle Municipal Code, which section was last amended by Ordinance 123649, is amended as follows:

23.54.015 Required parking

A. Minimum parking requirements. The minimum number of off-street motor vehicle parking spaces required for specific uses is set forth in Table A for 23.54.015 for nonresidential uses other than institutional uses, Table B for 23.54.015 for residential uses, and Table C for 23.54.015 for institutional uses, except as otherwise provided in this Section 23.54.015 and
Section 23.54.020. The minimum parking requirements are based upon gross floor area of a use within a structure and the square footage of a use when located outside of an enclosed structure, or as otherwise specified. Exceptions to the parking requirements set forth in this section are provided in subsection 23.54.015.B and in Section 23.54.020, Parking quantity exceptions, unless otherwise specified. This chapter does not apply to parking for construction activity, which is regulated by ((SMC)) Section 23.42.044.

B. Parking requirements for specific zones.

1. Parking in downtown zones is regulated by Section 23.49.019 and not by this Section 23.54.015.

2. Parking for major institution uses in the Major Institution Overlay District is regulated by Sections 23.54.015 and 23.54.016 ((and not by this Section 23.54.015)).

3. Parking in the Northgate Overlay District is regulated by Chapter 23.54 except as modified by Section 23.71.016.

4. No parking is required for single-family residential uses in single-family zones on lots less than 3,000 square feet in size or 30 feet in width where access to parking is permitted through a required yard abutting a street according to the standards of subsection 23.44.016.B.2.

5. No parking is required for urban farms or community gardens in residential zones.

Footnotes for Table A for (Section) 23.54.015

1) Required parking for spectator sports facilities or exhibition halls must be available when the facility or exhibition hall is in use. A facility shall be considered to be "in use" during the period beginning three hours before an event is scheduled to begin and ending one hour after a scheduled event is expected to end. For sports events of variable or uncertain duration, the expected event length shall be the average length of the events of the same type for which the most recent data are available, provided it is within the past five years. During an inaugural season, or for nonrecurring events, the best available good faith estimate of event duration will be used. A facility will not be deemed to be "in use" by virtue of the fact that administrative or maintenance personnel are present. The Director may reduce the required parking for any event when projected attendance for a spectator sports facility is certified to be 50 percent or less of the facility's seating capacity, to an amount not less than that required for the certified projected attendance, at the rate of one space for each ten fixed seats of certified projected attendance. An application for reduction and the certification shall be submitted to the Director at least 15 days prior to the event. When the event is one of a series of similar events, such certification may be submitted for the entire series 15 days prior to the first event in the series. If the Director finds that a certification of projected attendance of 50 percent or less of the seating capacity is based on satisfactory evidence such as past attendance at similar events or advance ticket sales, the Director shall, within 15 days of such submittal, notify the facility operator that a reduced parking requirement has been approved, with any conditions deemed appropriate by the Director to ensure adequacy of parking if expected attendance should change. The parking requirement reduction may be applied for only if the goals of the facility's Transportation Management Plan are otherwise being met. The Director may revoke or modify a parking requirement reduction approval during a series, if projected attendance is exceeded.

2) The amount of required parking is calculated based on the maximum number of staff or animals the center is designed to accommodate.

3) The general requirements of lines A through H of Table A for (Section) 23.54.015 is superseded to the extent that a use, structure or development qualifies for either a greater or a lesser parking requirement (which may include no requirement) under any other provision. To the extent that a nonresidential use fits within more than one line in Table A for (Section) 23.54.015, the least of the applicable parking requirements applies. The different parking requirements listed for certain categories of nonresidential uses shall not be construed to create separate uses for purposes of any requirements related to establishing or changing a use under this Title 23.

</tbody>
</table>

**Footnotes for Table B for ((Section)) 23.54.015:**

1. The general requirement of line I of Table B for ((Section)) 23.54.015 for multifamily residential uses is superseded to the extent that a use, structure or development qualifies for either a greater or a lesser parking requirement (which may include no requirement) under any other provision. To the extent that a multifamily residential use fits within more than one line in Table B for ((Section)) 23.54.015, the least of the applicable parking requirements applies, except that if an applicable parking requirement in section ((B))II of Table B for ((Section)) 23.54.015 requires more parking than line I, the parking requirement in line I does not apply. The different parking requirements listed for certain categories of multifamily residential uses shall not be construed to create separate uses for purposes of any requirements related to establishing or changing a use under this Title 23.

2. For development within single-family zones the Director may waive some or all of the parking requirements according to Section 23.44.015 as a special or reasonable accommodation. In other zones, if the applicant can demonstrate that less parking is needed to provide a special or reasonable accommodation, the Director may reduce the requirement. The Director shall specify the parking required and link the parking reduction to the features of the program that allow such reduction. The parking reductions shall be valid only under the conditions specified, and if the conditions change, the standard requirements shall be met. (3) Notice of Income Restrictions. Prior to issuance of any permit to establish, construct or modify any use or structure, or to reduce any parking accessory to a multifamily residential use, if the applicant relies upon these reduced parking requirements, the applicant shall record in the King County Recorder a declaration signed and acknowledged by the owner(s), in a form prescribed by the Director, which shall identify the subject property by legal description, and shall acknowledge and provide notice to any prospective purchasers that specific income limits are a condition for maintaining the reduced parking requirement.

### II. General Public Uses and Institutions (with Locational Criteria) For Specific Areas

| P. General public uses, ((and)) institutions and Major Institution uses in urban centers or the Station Area Overlay District (9) | No minimum requirement |

Footnotes for Table C for ((Section)) 23.54.015:

1. When this use is permitted in a single-family zone as a conditional use, the Director may modify the parking requirements pursuant to Section 23.44.022; when the use is permitted in a multifamily zone as a conditional use, the Director may modify the parking requirements pursuant to Section 23.45.570. The Director, in consultation with the Director of Transportation, may allow adult care and child care centers locating in existing structures to provide loading and unloading spaces on-street when no other alternative exists.

2. The amount of required parking is calculated based on the maximum number of staff, children, or clients that the center is designed to accommodate on site at any one time.

3. A child care facility, when co-located with an assisted living facility, may count the passenger load/unload space required for the assisted living facility toward its required passenger load/unload spaces.

4. When family support centers are located within community centers owned and operated by the Department of...

***

Section 21. Section 23.54.016 of the Seattle Municipal Code, which section was last amended by Ordinance 122311, is amended as follows:

23.54.016 Major Institutions—Parking and transportation((.))

Major Institution uses are subject to the following transportation and parking requirements:

A. General Provisions.

1. Minimum requirements for parking quantity are established in subsection 23.54.016.B ((of this section)).
2. The maximum number of spaces provided for the Major Institution use shall not exceed ((one hundred thirty-five (135)) percent of the minimum requirement, ((except)) unless additional spaces are approved through administrative or Council review as provided in subsection 23.54.016.C ((of this section)). For a Major Institution use in an urban center or the Station Area Overlay District, the maximum limit shall not exceed 135 percent of the minimum parking requirements calculated pursuant to subsection 23.54.016.B.2.

3. Parking requirements for Major Institutions with more than one ((1)) type of institutional use (for example, a hospital and a university), if applicable, shall be calculated for each use separately, and then added together to derive the total number of required spaces.

4. When a permit application is made for new development at an existing Major Institution that is not located in an urban center or the Station Area Overlay District, parking requirements shall be calculated both for the entire Major Institution and for the proposed new development. If there is a parking deficit for the entire institution, the institution shall make up a portion of the deficit in addition to the quantity required for the new development, according to the provisions of subsection 23.54.016.B.3((5 of this section)). If there is a parking surplus(,) above the maximum allowed number of spaces(,) for the institution as a whole, ((requirements)) required amounts of parking for new development will first be applied to the surplus in the required ratio of long-term and short-term spaces. Additional parking shall be permitted only when no surplus remains.

5. When determining parking requirements, individuals fitting into more than one ((1)) category (for example, a student who is also an employee or a faculty member who is also a doctor) shall not be counted twice. The category requiring the greater number of parking spaces shall be used.

B. Parking Quantity Required.((The minimum number of parking spaces required for a Major Institution shall be as follows:))
1. In urban centers and the Station Area Overlay District, no parking is required for Major Institution uses.

2. For all other Major Institutions the minimum number of parking spaces required is as follows:

   ((1.))a. Long-term Parking.
   
   ((a.))1) Medical Institutions. A number of spaces equal to ((eighty (\(\cdot\)))80(\(\cdot\))) percent of hospital-based doctors; plus ((twenty-five (\(\cdot\)))25(\(\cdot\))) percent of staff doctors; plus ((thirty (\(\cdot\)))30(\(\cdot\))) percent of all other employees present at peak hour;

   ((b.))2) Educational Institutions. A number of spaces equal to ((fifteen (\(\cdot\)))15(\(\cdot\))) percent of the maximum students present at peak hour, excluding resident students; plus ((thirty (\(\cdot\)))30(\(\cdot\))) percent of employees present at peak hour; plus ((twenty-five (\(\cdot\)))25(\(\cdot\))) percent of the resident unmarried students; plus one ((\(\cdot\))) space for each married student apartment unit.

   ((2.))b. Short-term Parking.
   
   ((a.))1) Medical Institutions. A number of spaces equal to one ((\(\cdot\))) space per six ((\(\cdot\))) beds; plus one ((\(\cdot\))) space per five ((\(\cdot\))) average daily outpatients;

   ((b.))2) Educational Institutions. A number of spaces equal to five ((\(\cdot\))) percent of the maximum students present at peak hour excluding resident students.

   ((3.))c. Additional Short-term Parking Requirements. When one ((\(\cdot\))) of the following uses is a Major Institution use, the following additional short-term parking requirements shall be met. Such requirements may be met by joint use of parking areas and facilities if the Director determines that the uses have different hours of operation according to ((Section)) subsection 23.54.020.G:

   ((a.))1) Museum. One ((\(\cdot\))) space for each ((two hundred fifty (\(\cdot\)))250(\(\cdot\))) square feet of public floor area;
((b.))2) Theater, Auditorium, or Assembly Hall. One (((4))) space for each (((200))) square feet of audience assembly area not containing fixed seats, and one (((4))) space for every (((10))) seats for floor area containing fixed seats;

((e.))3) Spectator Sports Facility Containing Fewer than (((20,000))) Seats. One (((4))) space for each (((10))) permanent seats and one (((100))) space for each (((100))) square feet of spectator assembly area not containing fixed seats;

((d.))4) Spectator Sports Facility Containing (((20,000))) or More Seats. One (((4))) space for each (((10))) permanent seats and one (((300))) bus space for each (((300))) permanent seats.

((4.))d) Bicycle Parking. Bicycle parking meeting the development standards of subsections 23.54.015.K.2 through 23.54.015.K.((--))6 and subsection 23.54.016.D.2 ((of this section)) shall be provided in the following quantities:

((a.))1) Medical Institutions. A number of spaces equal to two (((2))) percent of employees, including doctors, present at peak hour;

((b.))2) Educational Institutions. A number of spaces equal to (((10))) percent of the maximum students present at peak hour plus five (((5))) percent of employees.

If at the time of application for a master use permit, the applicant can demonstrate that the bicycle parking requirement is inappropriate for a particular institution because of topography, location, nature of the users of the institution or other reasons, the Director may modify the bicycle parking requirement.

((5.))3) Parking Deficits. In addition to providing the minimum required parking for a new structure, five (((5))) percent of any vehicular or bicycle parking deficit as determined by the minimum requirements of this subsection 23.54.016.B, existing on the effective date of
the ordinance codified in this section, shall be supplied before issuance of a certificate of occupancy.

C. Requirement for a Transportation Management Program.

1. When a Major Institution proposes parking in excess of ((one hundred thirty-five \(135\)) percent of the applicable minimum requirement for short-term parking spaces calculated pursuant to subsections 23.54.016.A and 23.54.016.B, or when a Major Institution prepares a master plan or applies for a master use permit for development that would provide ((require twenty \(20\)) or more parking spaces or increase the Major Institution's number of parking spaces by ((twenty \(20\)) or more above the level existing on May 2, 1990, a transportation management program shall be required or an existing transportation management program shall be reviewed and updated. The Director shall assess the traffic and parking impacts of the proposed development against the general goal of reducing the percentage of the Major Institution's employees, staff and/or students who commute in single-occupancy vehicles (SOV) during the peak period to ((fifty \(50\)) percent or less, excluding those employees or staff whose work regularly requires the use of a private vehicle during working hours.

2. Transportation management programs ((shall be)) are prepared and implemented in accordance with the Director’s Rule governing Transportation Management Programs. The Transportation Management Program shall be in effect upon Council adoption of the Major Institution master plan.

***

4. Through the process of reviewing a new or updated transportation management program in conjunction with reviewing a master plan, the Council may approve in excess of ((one hundred thirty-five \(135\)) percent of the minimum requirements for long-term parking spaces, or may increase or decrease the required ((fifty \(50\)) percent SOV goal, based upon
the Major Institution's impacts on traffic and opportunities for alternative means of
transportation. Factors to be considered shall include, but not be limited to:

a. Proximity to a street with ((fifteen (抽检15(抽检)))) minute transit service
headway in each direction;

b. Air quality conditions in the vicinity of the Major Institution;

c. The absence of other nearby traffic generators and the level of existing
and future traffic volumes in and through the surrounding area;

d. The patterns and peaks of traffic generated by Major Institution uses
and the availability or lack of on-street parking opportunities in the surrounding area;

e. The impact of additional parking on the Major Institution site;

f. The extent to which the scheduling of classes or work shifts reduces the
transportation alternatives available to employees and/or students or the presence of limited
carpool opportunities due to the small number of employees; and

g. The extent to which the Major Institution has demonstrated a
commitment to SOV alternatives.

5. The provision of short-term parking spaces in excess of ((one hundred thirty-
five (抽检135(抽检)))) percent of the minimum requirements established in subsection 23.54.016.B.2
((of this section)) may be permitted by the Director through preparation or update of a
Transportation Management Program. In evaluating whether to allow more than ((one hundred
thirty-five (抽检135(抽检)))) percent of the minimum, the Director, in consultation with the Director of
((Seattle Department of Transportation (and Metropolitan King County)), shall consider
evidence of parking demand and opportunities for alternative means of transportation. Factors to
be considered shall include but are not necessarily limited to the criteria contained in subsection
23.54.015.D.1.b ((of this section)) and the following:
a. The nature of services provided by Major Institution uses which generate short-term parking demand; and

b. The extent to which the Major Institution manages short-term parking to ensure its availability to meet short-term parking needs.

Based on this review, the Director shall determine the amount of additional short-term parking to be permitted, if any.

***

Section 22. Subsection F of Section 23.54.020 of the Seattle Municipal Code, which section was last amended by Ordinance 123495, is amended as follows:

23.54.020 Parking quantity exceptions

***

F. Reductions to minimum parking requirements.

1. When parking is required, reductions to minimum parking requirements permitted by this subsection 23.54.020.F will be calculated from the minimum parking requirements in Section 23.54.015. Total reductions to required parking as provided in this subsection 23.54.020.F may not exceed 40 percent.

((2. Transit reduction:

a. In multifamily and commercial zones, the minimum parking requirement for all uses is reduced by 20 percent if the use is located within 1,320 feet of a street with frequent transit service. This distance will be the walking distance measured from the nearest transit stop to the lot line of the lot containing the use.

b. In industrial zones, the minimum parking requirement for a nonresidential use is reduced by 15 percent if the use is located within 1,320 feet of a street with peak transit service headways of 15 minutes or less. This distance will be the walking distance measured from the nearest transit stop to the lot line of the lot containing the use.))
2. For new or expanding offices or manufacturing uses that require 40 or more parking spaces, the minimum parking requirement may be reduced by up to a maximum of 40 percent by the substitution of alternative transportation programs, according to the following provisions:

   a. For every ((certified)) carpool space accompanied by a cash fee, performance bond or alternative guarantee acceptable to the Director, the total parking requirement will be reduced by 1.9 spaces, up to a maximum of 40 percent of the parking requirement. ((The Director will consult with the Director of the Seattle Department of Transportation in certifying carpool spaces and the location of carpool parking.))

   b. For every ((certified)) vanpool purchased or leased by the applicant for employee use, or equivalent cash fee for purchase of a van by the public ridesharing agency, the total parking requirement will be reduced by six spaces, up to a maximum of 20 percent of the parking requirement. ((Before a certificate of occupancy may be issued, details of the vanpool program shall be specified in a Memorandum of Agreement executed between the proponent, the Director, and the Director of the Seattle Department of Transportation.))

   c. If transit or transportation passes are provided with a 50 percent or greater cost reduction to all employees in a proposed structure for the duration of the business establishment(s) within it, or five years, whichever is less, and if transit service is located within 800 feet, the parking requirement shall be reduced by 10 percent. With a 25 percent to 49 percent cost reduction, and if transit service is located within 800 feet, the parking requirement shall be reduced by 5 percent.

   d. For every four covered bicycle parking spaces provided, the total parking requirement shall be reduced by one space, up to a maximum of 5 percent of the parking requirement, provided that there is access to an arterial over improved streets.

   ***
Section 23. Section 23.55.022 of the Seattle Municipal Code, which section was last amended by Ordinance 123046, is amended as follows:

23.55.022 Signs in multifamily zones

***

E. In ((Midrise and Highrise)) all multifamily zones ((which)) that are not designated Residential-Commercial (RC), permitted ground-floor business establishments in multifamily structures may have one (((1))) electric or non-illuminated sign per street frontage. The sign may be a wall or projecting sign. The maximum area of each sign face (((shall be twenty-four (24)))) is limited to 24 square feet. The maximum height of any portion of the sign (((shall be fifteen (15)))) is limited to 15 feet.

***

Section 24. Section 23.76.004 of the Seattle Municipal Code, which section was last amended by Ordinance 123649, is amended as follows:

23.76.004 Land use decision framework

***

B. Type I and II decisions are made by the Director and are consolidated in Master Use Permits. **Type I** decisions are decisions made by the Director that require the exercise of little or no discretion and that are not appealable to the Hearing Examiner. **Type II** decisions are discretionary decisions made by the Director that are subject to an administrative open record appeal hearing to the Hearing Examiner; provided that **Type II** decisions enumerated in ((Section)) subsection 23.76.006.C.2 shall be made by the Council when associated with a Council land use decision and are not subject to administrative appeal. **Type III** decisions are made by the Hearing Examiner after conducting an open record hearing and not subject to administrative appeal. Type I, II or III decisions may be subject to land use interpretation pursuant to Section 23.88.020.

Form Last Revised: December 6, 2011
Section 25. Section 23.76.006 of the Seattle Municipal Code, which section was last amended by Ordinance 123649, is amended as follows:

**23.76.006 Master Use Permits required**

A. Type I, II and III decisions are components of Master Use Permits. Master Use Permits are required for all projects requiring one or more of these decisions.

B. The following decisions are Type I:

1. Determination that a proposal complies with development standards;

2. Establishment or change of use for uses permitted outright, interim use parking under subsection 23.42.040.G, uses allowed under Section 23.42.038, temporary relocation of police and fire stations for 24 months or less, and temporary uses for (four weeks) 18 months or less not otherwise permitted in the zone except temporary uses and facilities for light rail transit facility construction.

C. The following are Type II decisions:

1. The following procedural environmental decisions for Master Use Permits and for building, demolition, grading and other construction permits are subject to appeal to the Hearing Examiner and are not subject to further appeal to the City Council (supplemental procedures for environmental review are established in Chapter 25.05, Environmental Policies and Procedures):

   a. Determinations of Non-significance (DNS), including mitigated DNS;

   b. Determination that a final environmental impact statement (EIS) is adequate; and

   c. Determination of Significance based solely on historic and cultural preservation.
2. The following decisions, including any integrated decisions to approve, condition or deny based on SEPA policies, are subject to appeal to the Hearing Examiner (except shoreline decisions and related environmental determinations that are appealable to the Shorelines Hearings Board):

   a. Establishment or change of use for temporary uses more than four weeks not otherwise permitted in the zone or not meeting development standards, including the establishment of temporary uses and facilities to construct a light rail transit system for so long as is necessary to construct the system as provided in subsection 23.42.040.F (but excepting temporary relocation of police and fire stations for 24 months or less));

   b. Short subdivisions;

   c. Variances; provided that, variances sought as part of a Type IV decision may be granted by the Council pursuant to Section 23.76.036;

   d. Special exceptions; provided that, special exceptions sought as part of a Type IV decision may be granted by the Council pursuant to Section 23.76.036;

   e. Design review, including streamlined design review pursuant to Section 23.41.018 if development standard departures are requested pursuant to Section 23.41.012;

   f. Administrative conditional uses; provided that, administrative conditional uses sought as part of a Type IV decision may be approved by the Council pursuant to Section 23.76.036;

   g. The following shoreline decisions (supplemental procedures for shoreline decisions are established in Chapter 23.60):

      1) Shoreline substantial development permits;

      2) Shoreline variances;

      3) Shoreline conditional uses;

   h. Major Phased Development;
i. Determination of project consistency with a planned action ordinance and EIS;

j. Establishment of light rail transit facilities necessary to operate and maintain a light rail transit system, in accordance with the provisions of Section 23.80.004; and

k. Downtown planned community developments.

***

Section 26. Section 23.84A.032 of the Seattle Municipal Code, which section was last amended by Ordinance 123589, is amended as follows:

23.84A.032 "R((c)))"

***

"Residential use" means any one or more of the following:

1. "Accessory dwelling unit" means one or more rooms that (a) are located within an owner-occupied dwelling unit, or within an accessory structure on the same lot or unit lot as an owner-occupied dwelling unit; (b) meet the standards of Section 23.44.041, ((or)) 23.45.545, or Chapter 23.47A as applicable; (c) are designed, arranged, and intended to be occupied by not more than one household as living accommodations independent from any other household; and (d) are so occupied or vacant.

***

18. "Rowhouse Development" means a multifamily residential use in which all principal dwelling units on the lot meet the following conditions: (a) each dwelling unit occupies the space from the ground to the roof of the structure in which it is located; (b) no portion of a dwelling unit, ((including an accessory dwelling unit, but excluding garages)) except for an accessory dwelling unit or shared parking garage, occupies space above or below another dwelling unit; (c) each dwelling unit is attached along at least one common wall to at least one other dwelling unit, or abuts another dwelling unit on a common lot line; (d) the front of each
dwellling unit faces a street lot line; (e) each dwelling unit provides pedestrian access directly to the street that it faces; and (f) no portion of any other dwelling unit, except for an attached accessory dwelling unit, is located between any dwelling unit and the street faced by the front of that unit.

***

20. "Townhouse Development" means a multifamily residential use that is not a rowhouse development, and in which: (a) each dwelling unit occupies the space from the ground to the roof of the structure in which it is located; (b) no portion of a dwelling unit occupies space above or below another dwelling unit, except for an attached accessory dwelling unit and except for dwelling units constructed over a shared parking garage; and (c) each dwelling unit is attached along at least one common wall to at least one other dwelling unit, or abuts another dwelling unit on a common lot line.

***

Section 27. Section 23.91.002 of the Seattle Municipal Code, which section was last amended by Ordinance 123546, is amended as follows:

23.91.002 Scope of Chapter 23.91

A. Violations of the following provisions of Seattle Municipal Code Title 23 shall be enforced under the citation or criminal provisions set forth in this Chapter 23.91:

1. Junk storage in residential zones (Sections 23.44.006 and 23.44.040, and Chapter 23.45), unless the lot contains a vacant structure subject to the vacant building maintenance standards contained in subsection 22.206.200.A;

2. Construction or maintenance of structures in required yards or setbacks in residential zones (Sections 23.44.014 and 23.44.040, and Chapter 23.45);
3. Parking of vehicles in a single-family zone (Section 23.44.016) unless the lot contains a vacant structure subject to the vacant building maintenance standards contained in subsection 22.206.200.A; and

4. Keeping of animals (Section 23.42.050).

((5. Home occupations (Section 23.42.052).))

B. Any enforcement action or proceeding pursuant to this Chapter 23.91 shall not affect, limit or preclude any previous, pending or subsequent enforcement action or proceeding taken pursuant to Chapter 23.90.

Section 28. Section 25.05.800 of the Seattle Municipal Code, which section was last amended by Ordinance 123495, is amended as follows:

**Subchapter IX Categorical Exemptions**

**25.05.800 Categorical exemptions**

The proposed actions contained in this subchapter are categorically exempt from threshold determination and EIS requirements, subject to the rules and limitations on categorical exemptions contained in Section 25.05.305.

A. Minor new construction--- flexible thresholds.

1. The exemptions in this subsection 25.05.800.A apply to all licenses required to undertake the construction in question, except when a rezone or any license governing emissions to the air or discharges to water is required. To be exempt under this Section 25.05.800, the project shall be equal to or smaller than the exempt level. For a specific proposal, the exempt level in subsection ((A.2 of this Section)) 25.05.800.A.2 shall control. If the proposal is located in more than one city or county, the lower of the agencies' adopted levels shall control, regardless of which agency is the lead agency.
2. The following types of construction are exempt, except when undertaken wholly or partly on lands covered by water or unless undertaken in environmentally critical areas (Section 25.05.908):

   a. The construction or location of residential ((structures)) or mixed-use development containing no more than the number of dwelling units identified in Table A for 25.05.800((, except for lots located in an Urban Center or a SAOD, if the proposed construction or location is on a lot in an LRI or LR2 zone, and if the lot abuts any portion of another lot that is zoned SF or RSL, or is across an alley of any width from a lot that is zoned SF or RSL, or is across a street from a lot zoned SF or RSL if that street does not meet minimum width requirements in Section 23.53.015.A, then the level of exempt construction is 4 dwelling units for lots in an LR1 zone, and 6 dwelling units for lots in an LR2 zone));

Notes for Table A for 25.05.800
SAOD = Station Area Overlay District((s)).
Urban centers and urban villages are identified in the Seattle Comprehensive Plan.
(1) Pursuant to RCW 43.21C.229, in urban centers and the Station Area Overlay District, new residential and mixed-use development up to these threshold levels is categorically exempt from SEPA, as long as the urban center’s or Station Area Overlay District’s residential density targets stated in the Comprehensive Plan (in terms of dwelling units per acre) have not been achieved. See the Comprehensive Plan’s Urban Village Element Appendix A, and see Director’s Rule 17-2008 (or successor rule) on “SEPA Exemptions From Environmental Review Requirements When Establishing, Changing or Expanding a Use” for details on other rules pertaining to when SEPA review may be required.
b. The construction of a barn, loafing shed, farm equipment storage building, produce storage or packing structure, or similar agricultural structure, covering 10,000 square feet or less, and to be used only by the property owner or his or her agent in the conduct of farming the property. This exemption does not apply to feed lots;

c. The construction of office, school, commercial, recreational, service or storage buildings, in development containing no more than the gross floor area listed in the Table B for 25.05.800 below:

<table>
<thead>
<tr>

</table>

Notes for Table B for 25.05.800. SAOD = Station Area Overlay District(s).

(1) New development that is not mixed-use (e.g., does not contain new residential dwelling units) is categorically exempt from SEPA up to 12,000 square feet or as indicated in Director’s Rule 17-2008 (or successor rule) on “SEPA Exemptions From Environmental Review Requirements When Establishing, Changing or Expanding a Use.”

(2) Pursuant to RCW 43.21C.229, in urban centers and the Station Area Overlay District, commercial uses up to 75,000 square feet that are part of a new mixed-use development are categorically exempt from SEPA, as long as the urban center’s or Station Area Overlay District’s employment intensity targets stated in the Comprehensive Plan, in terms of employees per acre, have not been achieved. See the Comprehensive Plan’s Urban Village Element Appendix A, and see Director’s Rule 17-2008 (or successor rule) on “SEPA Exemptions From Environmental Review Requirements When Establishing, Changing or Expanding a Use” for details on other rules pertaining to when SEPA review may be required.

d. The construction of a parking lot designed for 40 or fewer automobiles, as well as the addition of spaces to existing lots up to a total of 40 spaces;
e. Any landfill or excavation of 500 cubic yards or less throughout the
  total lifetime of the fill or excavation; and any fill or excavation classified as a Class I, II, or III
  forest practice under regulations pursuant to RCW 76.09.050 ((or regulations thereunder));

f. Mixed-use construction, including but not limited to projects combining
  residential and commercial uses, is exempt if each use, if considered separately, is exempt under
  the criteria of subsections 25.05.800.A.2.a through A.2.d ((above)), unless the uses in
  combination may have a probable significant adverse environmental impact in the judgment of
  an agency with jurisdiction (see ((Section)) subsection 25.05.305.A.2.b);

  g. In zones not specifically identified in this subsection 25.05.800.A, the
     standards for the most similar zone addressed by this subsection 25.05.800.A apply.

* * *

Section 29. Severability. The provisions of this ordinance are declared to be separate and
severable. The invalidity of any particular provision, or its invalidity as applied in any
circumstances, shall not affect the validity of any other provision or the application of the
particular provision in other circumstances.
Section 30. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the ____ day of ________________________, 2012, and signed by me in open session in authentication of its passage this ____ day of _________________, 2012.
