

# SEATTLE'S GREEN NEW DEAL

City of Seattle

Seattle  
Office of Sustainability  
& Environment

## A STRATEGY FOR CLIMATE AND ENVIRONMENTAL JUSTICE —————>

*The Seattle Green New Deal is part of the City's vision to create a future where all residents can live healthy & prosperous lives, free of toxic chemicals and fossil fuels, and where the social and ecological well-being of all people is a top priority.*

### THE GREEN NEW DEAL AIMS TO:

Make Seattle free of climate pollutants that worsen climate change and harm human health and nature.

Prioritize investments in communities that are most harmed by economic, racial, and environmental injustice to foster healthy communities and environments for all.

Move towards a regenerative economy so that those who currently have the least amount of power and wealth have access to economic opportunities, stable and well-paying jobs with benefits.

## COMMUNITY —————> INVESTMENT HIGHLIGHTS 2023-2024

Approved by the GND Oversight Board

### \$2.8 Million

assistance for under-resourced buildings to comply with the Building Emissions Performance Standard

### \$4 Million

for the Environmental Justice Fund to support community groups and projects

### \$600,000

for small-business support and green workforce development in the Duwamish Valley

*The Seattle Green New Deal is funded by the City's Payroll Expense Tax.*
