

Seattle Police Department

SEA/STAT

PRINCIPLES OF SEASTAT

Accurate and Timely Information

Know what is happening.

Effective Tactics

Have a plan.

Rapid Deployment

Do it quickly.

Relentless Follow-up and Assessment

If it works, do more. If not, do something else.

CRIME REDUCTION STRATEGIES

Focus on:

-Problem Locations

-Prolific Offenders

-Repeat and Vulnerable Victims

-Community Engagement

-Partnerships

MOTOR VEHICLE THEFT

Effective Strategies

Hotspot Factors:

- Main arterial roads, presence of commercial lots, multi-family housing, and higher spatial concentration of disorder calls have been shown to be associated (across several studies) with increased incidence of auto theft.
- Where vehicles are more available (along streets) and people are transitory, there are generally higher concentrations of auto theft (especially relevant for areas around major transit hubs).
- Hotspots for stolen locations and dump locations are not always distinct.
- Thefts are more common at night (after 5pm) due to decreased visibility/guardianship.

CPTED Factors:

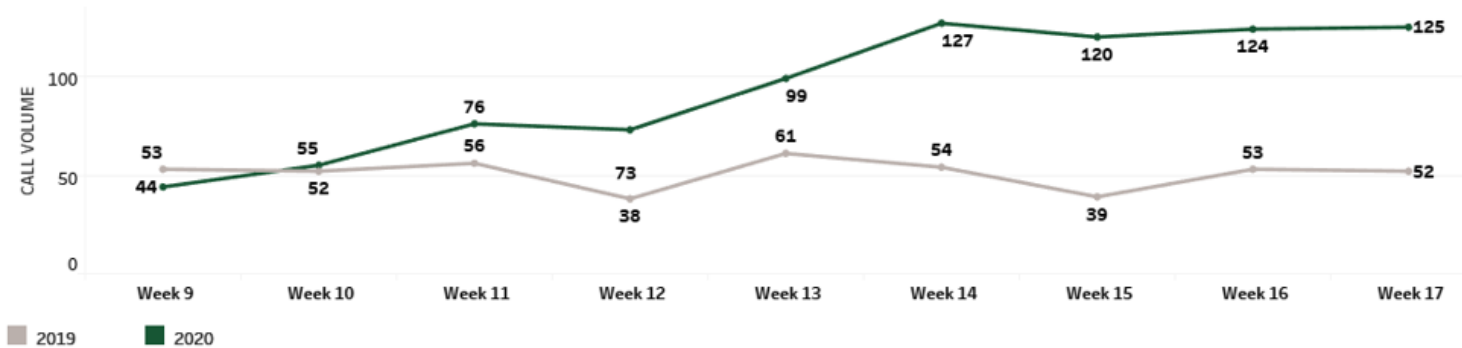

- CCTV-Modest effect for auto theft, little support for prevention of violent crime.
- Lighting improvements in poorly-lit or obscured parking garages has a measurable impact upon motor vehicle theft and perceptions of safety.
- Anti-theft devices can be a useful deterrent for vulnerable vehicle types (older Japanese models).
- CPTED changes to vehicles (improved anti-theft measures) can spatially shift incidence of auto theft (Canadian study of Vancouver demonstrated that law-mandated improvements to new automobiles made wealthier areas of the city less appealing to auto thieves, so they shifted to poorer zip codes).
- Parking garage owners/developers should invest in steps to make their structures more visible, bright, and open to prevent theft.

BURGLARY

Commercial Burglary Calls 2019 vs 2020

- Rapid increase of commercial burglary calls has been observed from week 10
- From Week 10 (03/01-03/08) to Week 17 (04/19-04/25), commercial burglary calls increased 97% (799 vs 405), compared to the same time frame in 2019.
