

PROJECT UPDATE

Seattle Center to Waterfront WALKING AND BIKING CONNECTION

View of Thomas Street Overpass from 3rd Ave W looking southwest.

ABOUT THIS PROJECT

We're building an important connection between the Myrtle Edwards Park and Seattle Center to provide a safer, more comfortable way to walk and bike between some of Seattle's most popular destinations.

This project is part of the North Downtown Mobility Action Program (NODO MAP) in coordination with the redevelopment of the new arena at Seattle Center.

WHAT'S NEW

In early 2020, we heard from over 200 people through a survey, drop-in session, and City Advisory Board meetings. Based on that input, we're moving forward on a design with the following features:

- We've updated the route to streets with less steep slopes. The route will now travel along W Harrison St between Queen Anne Ave N and 3rd Ave W. This includes some parking removal; see map on back for details.

- A widened path, with separated space for people walking and biking on 3rd Ave W connecting to the Thomas Street Overpass
- Four new all-way stops along 2nd Ave W and W Thomas St

WHAT'S NEXT

Over the next few months, we'll continue to finalize the design. We expect construction to begin in 2021.
