

## Dear neighbor

We plan to repave Wilson Ave S between S Dawson St and S Morgan St. We'll also be making other improvements along Wilson Ave S. We're currently in design and expect construction to start early next year 2018.

## Project overview

Pavement on Wilson Ave S is marked by cracks and potholes and the road base needs repair. To make these repairs, we will be doing a "mill and overlay" project, meaning that we will remove the top road layer and repave with new asphalt. In some places, the road needs extensive repair below the surface, which may require more intensive work.

In addition, we will be installing bike lanes on Wilson Ave S between S Dawson St and S Morgan St. The bike lane on the east side of Wilson will be a protected bike lane with a buffer. The bike lane on the west side of the street will be striped in.

Parking on the west side of Wilson Ave S between S Dawson St and S Morgan St will be consolidated. The bike lanes will make travel along Wilson a more predictable and safer experience.

There will also be several other pedestrian and ADA improvements including, installing and upgrading curb ramps; relocating some pedestrian push buttons, and making sidewalk repairs in some places.

**For more information, please see the included factsheet**

## Project timeline – what's next?

We are currently designing elements of the project and expect construction to start in early 2018. This summer we will be out in the community at neighborhood events engaging residents and businesses about the project and what they can expect. As we get closer to construction, we will start working with you to understand your needs during construction. In the meantime, please contact me if you have questions or concerns.

Sincerely,  
Adonis Ducksworth
