

PROTECTED BIKE LANES COMING TO YOUR STREET ON S COLUMBIAN WAY BETWEEN BEACON AVE S AND 15TH AVE S

WE'RE CONNECTING PEOPLE BIKING ON BEACON HILL

S Columbian Way is an important route for people biking. This street connects people biking in southeast and southwest Seattle as well as to downtown. We're making changes to S Columbian Way between Beacon Ave S and 15th Ave S to create safe and accessible transportation options for all users of our streets, including people driving, walking, biking, and taking the bus.

NEW PROTECTED BIKE LANES AND REMOVAL OF THE CENTER-TURN LANE

On S Columbian Way, between Beacon Ave S and 15th Ave S, we will be converting existing bike lanes into protected bike lanes (PBLs). To do this, we will widen the existing bike lanes by 2 feet to create a buffer with posts. This buffer separates people driving from people biking.

To create space for the PBLs, we will remove the center turn lane on S Columbian Way between Beacon Ave S and S Snoqualmie St.

GETTING IN AND OUT OF YOUR DRIVEWAY

We do not expect these changes to impact getting in or out of driveways along S Columbian Way. We will ensure the PBL posts do not restrict turns and access.

WE EXPECT TO MAKE STREET CHANGES THIS SPRING

The schedule for this work is dependent on completion of the S Columbian Way/S Alaska St Paving Project. We anticipate installing the new PBLs in spring 2019.
