

## Denny Way Paving Project

### Overnight work on Denny Way scheduled for May 14 and May 15.

#### WHAT'S GOING ON

Our team will grind off the top two inches of road surface from Denny Way between 5th Ave N and Westlake Ave N.

#### WHEN

Wednesday, May 14 and Thursday, May 15.  
Work is weather dependent and subject to change.

*Example of road surface that has been ground down.*

#### HERE'S WHAT YOU NEED TO KNOW

Work hours will be from 7 PM to 5 AM. Crews have a temporary noise variance for night work.

- On Wednesday, May 15, crews expect to grind the south side of Denny Way.
- On Thursday, May 16, crews expect to grind the north side of Denny Way.
- Work in areas where more people live is planned for earlier in the evening to reduce noise impacts.
- We will install a new, smoother surface in June.

#### PROJECT OVERVIEW

We're paving almost 12 blocks of Denny Way to make using Denny Way easier and better for residents and commuters alike. Our work includes asphalt paving, sidewalk upgrades, bus stop changes, new pedestrian ramps, areas of widened sidewalks that shorten crossing distances, new stop bars painted on the street, and new "no turn on red" signs.

#### CONSTRUCTION WILL CREATE SHORT TERM CHANGES TO YOUR AREA

During construction, you can expect:

- Noise, dust, smells, and vibrations during the work.
- Changes to your walking route while we work on sidewalks, with clear signs to guide you.

- Access to your business will always be maintained. We'll let you know in advance about work and any effects to your business in person. We'll also give you a direct contact for your questions.
- Parking and loading areas shifting near work zones, though most work happens at night to limit disruptions.
- Lane shifts along Denny Way near work areas, with signage to direct traffic.

## PROJECT IMPROVEMENTS

The Denny Way Paving Project improvements include:

- 12 blocks of asphalt paving
- 21 rebuilt curb ramps and 8 new curb ramps
- 8 total curb bulbs that shorten crossing distances, including 4 paint-and-post curb bulbs, a plastic curb and post bulb, and 3 concrete curb bulbs
- 28 "no turn on red" signs
- 25 painted stop bars at every intersection with a signal
- Sidewalk improvements
- Hardened centerlines reinforcing existing turn restrictions
- Bus stop changes to improve transit travel time and reliability
