

Denny Way Paving Project

Construction expected to begin in summer 2024

We are excited to share that we will pave approximately 12 blocks of Denny Way to restore the pavement condition in this critical piece of Downtown Seattle’s arterial network.

Street Improvements will Include:

- New asphalt paving on Denny Way from approximately 5th Ave to Stewart St
- New asphalt paving on Yale Ave from Denny Way to Howell St
- Curb ramp and sidewalk improvements
- Signal phasing modifications to enhance pedestrian access and safety
- "No turn on red" signage and stop bars at every signalized intersection
- Measures to reinforce existing turn restrictions
- Bus stop changes to improve transit travel time and reliability
- Concrete and paint-and-post curb bulbs at select intersections to shorten crossing distances

TIMELINE

Construction expected to begin in summer 2024 and finish as early as 2025. Impacts will include:

- Temporary lane and intersection closures
- Temporary disruption to some street parking and loading zones
- Some sidewalk and crosswalk impacts
