

CONSTRUCTION NOTICE

December 2024

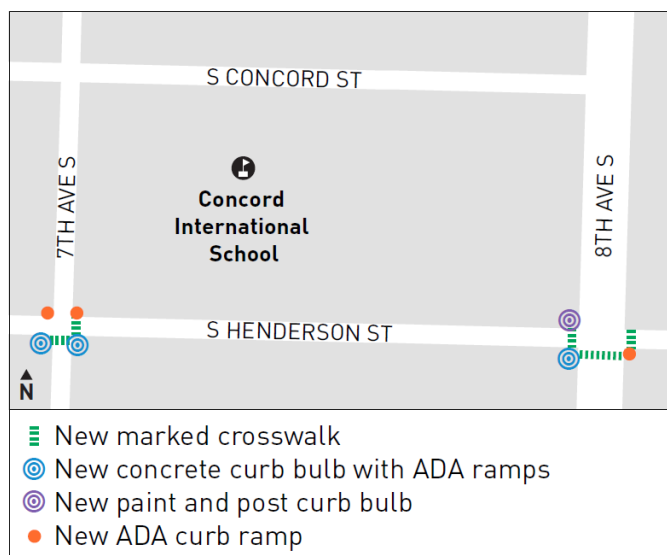

Better crossings to support walking, biking, and rolling to Concord Elementary!

Update! We now expect construction to start in summer 2025.

Why?

To make it safer and easier to cross the street to get to Concord Elementary, we're building curb bulbs and curb ramps and marking the crosswalks next to the school.

What does this include? (see example photos corresponding to text colors on back)

- Improvements to 8th Ave S and S Henderson St include a new **concrete curb bulb** with **ADA ramps** on the southwest corner, new ADA curb ramps on the southeast corner, and a **paint and post bulb** on the northwest corner. We'll also mark the crosswalks on all legs of the intersection.
- Improvements to 7th Ave S and S Henderson St include ADA curb ramps on all corners as well as concrete curb bulbs on the south corners. We'll also mark the crosswalks on all legs of the intersection.

What to expect during construction

- SDOT crews updated the timeline for construction to summer 2025 to minimize disruption to Concord Elementary.
- Construction timelines are dependent on weather and crew availability.
- Crews will place no parking signs a few days before construction starts. Please follow any no parking signs to avoid towing.
- Crews will route people walking, biking, and driving around the work with intermittent street closures on S Henderson St during construction.
- We are notifying adjacent neighbors who have vegetation or encroachments in the right-of-way that need to be removed.

Example of an all way stop with marked crosswalks, a concrete curb bulb, and curb ramp.

Example of a paint and post bulb. Curb bulbs shorten the crossing distance and make people walking easier to see.
