# HEALTHY STREETS

## Beacon Hill

- Permanent
- Under Review
- Neighborhood Greenway
- Multi-use Trail
- Crossing Improvement
- Crossing Signal
- Flashing Beacon Crossing

**As soon as Spring 2023, the northern section of the Beacon Hill Healthy Street is becoming permanent!**

We will be installing permanent signage with a concrete block base and new painted curb space around it at each intersection. Unauthorized on-street parking located within 20ft of the intersection will be removed for new installation.

### Planter Barrels

Planters may be used in place of cement blocks where neighbors volunteer to care for them. If you are interested in stewarding a planter box (including planting, watering, weeding), please visit our website to learn more.

### What are Healthy Streets?

Healthy Streets are closed to pass through traffic, but open to people walking, rolling, biking, and playing. The goal of this program is to open up more space for people rather than cars—improving community and individual health, safety and mobility.

People driving who need to get to homes and destinations along Healthy Streets are still able to drive on these streets. Drivers should use extra caution and yield to people.
