AT YOUR SERVICE

Information about your drinking water, drainage, wastewater, and solid waste utility services.

Spring Neighborhood Stewardship

Throughout April and May, Seattle Public Utilities (SPU) hosted and sponsored events that improved the community and protected the environment.

From caring for storm drains, protecting trees, or joining in a community cleanup, there are still many ways to get involved throughout year-round.

Read our Spring Neighborhood Stewardship Blog

Find out the many ways SPU protects the environment and builds community during spring. Visit atyourservice.seattle.gov and search "Spring Neighborhood Stewardship."

Volunteer to keep neighborhoods clean

Have a hand in improving our city through our Adopt a Street, Storm Drain Care, and graffiti clean up programs. seattle.gov/utilities/volunteer

Take steps to prevent waste

Protect the environment and save money at home and at work by using less and being deliberate about waste with our sustainability tips. Visit seattle.gov/utilities and search "waste prevention."

Safeguarding our mountain drinking water sources

Seattle's drinking water is pure from the start. Collected and protected in watersheds deep in the Cascade Mountains, our region has some of the best water in the nation.

Find out more in the Drinking Water Quality Report arriving in your mailbox in June. seattle.gov/utilities/WaterQualityReport

Pure from the start.

Salmon Need Our Help!

Salmon are a vital part of our Northwest ecosystem. Please do your part to protect salmon and their freshwater habitat by using water wisely.

By reducing your water consumption at home, you will help us keep water in our creeks and rivers for the salmon, which is especially important in

the summer and fall when the weather is dry and stream flows are naturally low.

You can conserve water and save money by taking shorter showers, fixing leaks, and choosing efficient toilets and appliances. For more tips, tools, and rebates to help you save water visit savingwater.org.

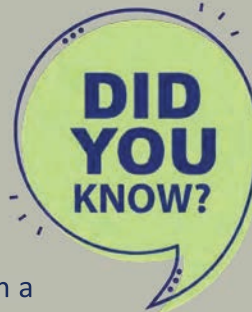

Replacing old toilets can help you save water (and money)!

\$100 toilet rebates

Replace your old toilet – made before 2004 – with a new eligible toilet and you may qualify for a \$100 rebate! Learn more at savingwater.org or call (206) 615-1282.

Free toilet for income-qualified homeowners

Is your household income at or below 80% of the state median income? You may be eligible for a free toilet! Learn more at seattle.gov/utilities/FreeToilets or call (206) 448-5751.

Tolt Relicensing Update

It's Official! Relicensing the South Fork Tolt Hydroelectric Project is underway.

The City of Seattle filed documents with the Federal Energy Regulatory Commission (FERC) on April 8 to formally begin relicensing the South Fork Tolt Hydroelectric Project.

While the hydroelectric project is small, it powers the water treatment plant that provides 30-40% of the water supply for the greater Seattle area and balances out power provided by other renewable sources in the region.

FERC will host a public meeting and site visit this summer. You can learn more about these activities and the overall project at: seattle.gov/tolt-relicensing.
