

City of Seattle Public Utilities Notice of Rule Revision

Under the authority of the Seattle Municipal Code SMC 3.32.020 and 21.04.465, Seattle Public Utilities proposes to revise Director's Rules FIN-220.1, Customer Charges and invites the public's review and comment.

Last revised on October 1, 2018, FIN-220.1 sets charges for special services on meters, hydrants, cross-connections, sewer submetering and others.

We propose to revise section 3.D, relating to hydrant-water consumption, by removing tables listing City of Seattle general-service rates. These rates are established by ordinance and listed in the Seattle Municipal Code. Eliminating the rate tables from the rule eliminates the need to maintain the information in multiple sources.

The full text of the draft rule can be found at
