

The following packet contains a list of potential, upcoming contract opportunities with Seattle Public Utilities. Each project/potential contract includes estimated cost and schedule information. A Project Manager's contact information is available for each project for any follow-up questions or to seek more information. Projects are not guaranteed. Cost details and advertisement dates are approximate and may change without notice.

**Capital Project Contracts Professional Services / Construction..... 3**

- Holden Natural Drainage System
- Tolt Electric Power System Improvement
- Lakeridge Park Slope Stabilization – Construction
- Bitter Lake Reservoir Improvement – Construction
- Tolt Reservoir Debris Boom – Construction
- Cedar River Pipeline Renton Seismic Upgrade – Construction
- Water Main Rehab Package 6 South – Construction
- Water Main Rehab Package 6 central – Construction
- Management Area (MA) Lining Contract 1 – Construction
- Water Main Rehab Package 5 B – Construction
- Cedar River Sockeye Hatchery Water Supply Improvements – Construction
- 20<sup>th</sup> Avenue NE Sewer Backups
- Cedar East Side Supply Line Replacement – Construction
- Thorton Creek Watershed Creek Culvert Replacement

**Programmatic Professional Service Contracts..... 7**

- Food Waste Prevention Contract
- Real Property Relocation Services
- Duwamish Valley Water Resilience Support Services
- Solid Waste – Single Family Residential Survey
- Public Private Materials Recover Facility Feasibility Study
- Disposal Contract Consulting
- Collection Contract Consulting

**Blanket Contracts..... 9**

Upcoming blanket contracts:

- Long-term Permanent Flow Monitoring
- Mobile Trailer Repair
- Haller Lake Janitorial Services
- Pump & Bypass Operations
- Purchase & Service of Yard Tractors
- Water Chemicals for Tolt Treatment Plant
- Environmental Flow Monitoring
- Security Guard Services
- Water Works Operation Products & Repair Parts
- Disaster Debris Removal & Disposal
- Electric Motors, Pumps, Compressors, Parts & Service
- Metal Castings Rebid
- Remote Portable Toilet Servicing & Rentals
- Shoring Rental Rebid

\*Blanket contracts expected to expire in 2025 and early 2026 are listed on pages 11-12. The estimated bid date for contracts to replace these blanket contracts is unknown, but planning efforts are underway internally.

**Capital Project Contracts Professional Service / Construction**

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
Holden Natural Drainage System	The Holden Natural Drainage System Project (Holden NDS) will construct bioretention swales on SW Holden Street between SW 16th and 17th Avenues SW (south side) and half a block west of 17th Ave SW. The work will include installation of NDS systems, drainage infrastructure, landscaping, tree cell water quality treatment system and roadway related work such as pavement, curb ramps and striping.	\$1.1M	July 2025	Wan-Yee Kuo <a href="mailto:Wan-Yee.Kuo@seattle.gov">Wan-Yee.Kuo@seattle.gov</a>
Tolt Electric Power Systems Improvements	The South Fork Tolt reservoir is the source of 1/3 of SPU's drinking water. This will be a phased options analysis-through-construction consultant contract to assist SPU address improving the uptime reliability and sustainability of two local electric power systems that are critical to dam safety monitoring and operations.	\$3M	Q3 2025	Ulysses Hillard <a href="mailto:Ulysses.Hillard@seattle.gov">Ulysses.Hillard@seattle.gov</a>
Lakeridge Park Slope Stabilization - Construction	Contractor Needed to install micro-piles within Lakeridge Park to stabilize the steep slopes adjacent to Taylor Creek where a sewer main resides	\$1.9M	Q3 2025	Katie Wilson <a href="mailto:Katie.Wilson@seattle.gov">Katie.Wilson@seattle.gov</a>
Bitter Lake Reservoir Improvement - Construction	Construction of a new 21-million-gallon potable water reservoir to replace the existing reservoir. The new reservoir will be a pre-stressed concrete partial buried circular reservoir. The work will also include earthwork, access road, street and right of way improvements, stormwater management facilities, piping, electrical, meter and valve vault, and fencing. The project site is located in north Seattle in the Bitter Lake neighborhood. The site is located at Linden Ave N and N 143rd St.	\$60M	Q4 2025	Andy Karch <a href="mailto:Andrew.Karch@seattle.gov">Andrew.Karch@seattle.gov</a>

Tolt Reservoir Debris Boom Replacement - Construction	The South Fork Tolt Reservoir is the source of 1/3 of SPU's drinking water. The project will remove and replace the existing boom protecting the dam spillway and intake tower from floating debris and ice in extreme events, including installing two new anchorages and electrical improvements to the	\$6.3M	Q1 2025	Ian Fitz-James <a href="mailto:Ian.Fitz-James@seattle.gov">Ian.Fitz-James@seattle.gov</a>
Cedar River Pipeline in Renton Seismic Upgrade - construction	Install flexible seismic joints on Cedar River Pipelines (CRPL) 1,2, and 3 downstream of the pipelines' crossing with I-205 in Downtown Renton and on CRPL 2 where it crosses the former channel of the Black River in Downtown Renton. Rehabilitate a concrete tunnel approximately 60 feet in length that conveys CRPL 1 in Downtown Renton.	TBD	Q1 2026	Ian Fitz-James <a href="mailto:Ian.Fitz-James@seattle.gov">Ian.Fitz-James@seattle.gov</a>
Water Main Rehab Package 6 South – Construction	Watermain rehabilitation will be performed at 15 sites, up to 5,600 LF. Up to 70 curb ramps.	\$10.6M	Q1 2026	Kai Fan <a href="mailto:Kai.Fan@seattle.gov">Kai.Fan@seattle.gov</a>
Water Main Rehab Package 6 Central – Construction	Watermain rehabilitation will be performed at 6 sites, up to 3,800 LF. Up to 70 curb ramps.	\$7.1M	Q1 2026	Kai Fan <a href="mailto:Kai.Fan@seattle.gov">Kai.Fan@seattle.gov</a>
Management Area (MA) Lining Contract 1 – Construction	This project will rehabilitate 265 segments/work orders, approximately 64,000 LF (approximately 12 miles) of sewer mainline MH to MH with UV CIPP lining trenchless technology. The assets are located through the City with the majority in council District 1, 2, 6, and 7. The pipe diameters range from 8" – 12" including several at larger diameters. This is the first MA phase of the rehab strategy.	\$13.2M	Q1 2026	Samantha Menathy <a href="mailto:Samantha.Menathy@seattle.gov">Samantha.Menathy@seattle.gov</a>

Water Main Rehab Package 5B (Const.)	At six sites across Seattle, abandon in-place existing watermain; install new ductile iron watermain pipe, including valving, fire hydrants, and other watermain appurtenances, ranging from 4 - 20 inch in diameter by open-trench method; storm & sewer improvements; assist SPU water operations with: cut, cap, blocking of existing watermain, temporary and permanent water main connections, and temporary and permanent water services connection transfers; and final surface restoration of roadway and landscaping, including ADA curb ramp improvements.	\$4.7M	Q2 2026	Kevin Sahara <a href="mailto:Kevin.Sahara@seattle.gov">Kevin.Sahara@seattle.gov</a>
Cedar River Sockeye Hatchery Water Supply Improvements – Construction	Project will install three new groundwater wells to maximize source water and improve reliability throughout the year. Upgrades will also include construction of a standalone building to house new electrical and SCADA equipment, new conveyance piping and associated site restoration.	TBD	Q2-Q3 2026	Fernando Platin <a href="mailto:Fernando.Platin@seattle.gov">Fernando.Platin@seattle.gov</a>
20 <sup>th</sup> Ave NE Sewer Backups	Seattle Public Utilities owns and operates a combined sewer system in the Ravenna neighborhood. During heavy rains, the volume of stormwater and sewage in the combined sewer system can exceed the system's capacity, and Sanitary Sewer Overflows (SSO) have occurred. This will be a phased options analysis-through-construction consultant contract to assist SPU to analyze the contributing sewer-shed, perform options analysis to identify the preferred sewer-shed wide solution, develop the design, and provide permitting, bid, and construction phase support.	TBD	Q2-Q3 2026	Benjamin Barrett <a href="mailto:Benjamin.Barrett@seattle.gov">Benjamin.Barrett@seattle.gov</a>

Cedar East Side Supply Line Replacement (Const.)	Replace up to 900-feet of the original 36-inch concrete cylinder pipe of Cedar East Side Supply Line parallel to Coal Creek Parkway in Bellevue. Includes rehabilitation of three culverts crossing the water line.	\$5.4M	Q3 2026	Kevin Sahara <a href="mailto:Kevin.Sahara@seattle.gov">Kevin.Sahara@seattle.gov</a>
Thorton Creek Watershed Creek Culvert Replacement	Seattle Public Utilities owns and operates creek culverts throughout the Thornton Creek Watershed. This project will address the replacement of one or more, yet to be selected, culverts subject to fish passage requirements. This will be a phased options analysis-through-construction consultant contract to assist SPU to analyze the selected fish passage barrier culverts, perform options analysis to identify preferred replacement wide solutions, develop the design, and provide permitting, bid, and construction phase support.	TBD	Q4 2026	Benjamin Barrett <a href="mailto:Benjamin.Barrett@seattle.gov">Benjamin.Barrett@seattle.gov</a>

## Programmatic Professional Service Contracts

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
---------	-------------	------------------------------	-------------------------	-----------------

Food Waste Prevention Contract	Contract intended to support second phase of “Discovery” contract on topic of food waste prevention. Work may likely involve implementation of the research and recommendations from our current contract.	TBD	Q2-Q4 2025	Sheryl Anayas <a href="mailto:Sherl.Anayas@seattle.gov">Sherl.Anayas@seattle.gov</a>
Real Property Relocation Services	Real Property relocation services for residential and/or commercial tenants, including tenant notifications, relocation plans, advisory services, inventories, estimates, move monitoring, inspections, and claim reviews and appeal support.
