

UPCOMING CONTRACT OPPORTUNITIES

The following packet contains a list of potential, upcoming contract opportunities with Seattle Public Utilities. Each project/potential contract includes estimated cost and schedule information. A Project Manager’s contact information is available for each project for any follow-up questions or to seek more information. The following contracts are included in this material:

Capital Project Contracts Professional Service / Construction Pages 2-8	Programmatic Professional Service Contracts Pages 9-11	Blanket Contracts Pages 12-16
<ul style="list-style-type: none"> • 430 Water Transmission Pipeline Reline Phase 2 • Tolt Reservoir Debris Boom Replacement • Magnolia Tank Seismic Upgrade & Recoating • OCC Loading Dock Reroof Project • Landsburg Debris Passage • South Transfer Station Tipping Floor Replacement • Solid Waste School Education & Outreach • Cedar River Pipeline in Renton Seismic Upgrade • Tolt Spillway Improvements • Cedar East Side Supply Line Replacement • Real Property Relocation Consultant • Tolt Electric Power Systems Improvement • Water Main Rehab Package 5B • Bitter Lake Reservoir Improvement • Tolt Dam Early Warning System Other Project Components • South Park Drainage and Roadway improvements Phase 2 • California Ave S Culvert Replacement Project 	<ul style="list-style-type: none"> • Recycling Processing Contract (24-013-A) • Drainage and Wastewater Hydrologic and Hydraulic Modeling Support (24-042-R) • Design and Construction Phase Support for the Vine Street CSO Flow Redirect Project (24-051-S) • Food Waste Prevention Facilitation Support • Solid Waste Collateral Graphic Design • On-Call Engineering Services • On Call Drainage program Services (24-008-S) • On-Call Drainage and Wastewater Planning Services (23-233-S) • RainWise Customer & Contractor Outreach (24-032-S) 	<p>Upcoming blanket contracts:</p> <ul style="list-style-type: none"> • Building Services, CCTV, and Sewer Services • CSO Outfall CCTV assessment & cleaning • HazMat Spill Clean Up • Fire System Services • Canopy Repairs • Furniture Re-Use Event Coordination • Floor Barrier Placement • Base Camp Janitorial Services • Shower & Laundry Trailer Management • Emergency Sandbags • Tire Recycling & White Goods Recycling • Pole Holding Service • Itron Products • Reusable Food Service Ware Pilot <p>Blanket contracts set to expire in 2024 – early 2025 are listed on pages 13-15. The estimated bid date for contracts to replace these blanket contracts is unknown, but planning efforts are underway internally.</p>

UPCOMING CONTRACT OPPORTUNITIES

Note: Projects are not a guarantee. Cost details and advertisement dates are approximate and may change without notice.

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
430 Water Transmission Pipeline Reline Phase 2	This project consists of relining 15,000 ft of 42" steel lock bar pipe with cement mortar lining. The pipeline spans between north Seattle and central Seattle from the Maple Leaf Reservoir to the Volunteer Park Reservoir.	TBD	Q2 2024	Andy Karch Andrew.Karch@seattle.gov
Tolt Reservoir Debris Boom Replacement	The South Fork Tolt Reservoir is the source of 1/3 of SPU's drinking water. The project will remove and replace the existing boom protecting the dam spillway and intake tower from floating debris and ice in extreme events, including installing two new anchorages and electrical improvements to the walkway bridge from the dam crest to the spillway and intake towers.	\$6.3M	Q1 2025	Ian Fitz-James Ian.Fitz-James@seattle.gov
Magnolia Tank Seismic Upgrade and Recoating	Recoat the Magnolia Elevated Tank's interior and exterior surfaces, seismically retrofit the tank, improve safety equipment, water quality components, replace site fencing, and upgrade the electrical system.	\$9.6M	Q3 2024	Kevin Sahara Kevin.Sahara@seattle.gov
OCC Loading Dock Reroof Project	Reroof the loading dock roof, including new drainage at the Operations Control Center (OCC).	\$400K	Q3 2024	John Ovitt John.Ovitt@seattle.gov

UPCOMING CONTRACT OPPORTUNITIES

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
Landsburg Debris Passage	Landsburg diversion dam and fish passage facility is where SPU diverts 2/3 of its drinking water. This will be a phased options analysis-through-construction consultant contract to assist SPU address how to safely pass debris around or through the dam during high flow events.	\$12M	Q4 2024	Ulysses Hillard Ulysses.Hillard@seattle.gov
South Transfer Station Tipping Floor Replacement	Replace 25,000 square feet of the sacrificial topping slab at the South Transfer Station with an overlay of high-performance concrete topping slab.	\$5.1M	Q4 2024	Kevin Sahara Kevin.Sahara@seattle.gov
Solid Waste School Education & Outreach	Provide solid waste education workshops and technical assistance outreach to Seattle Schools, including education program development and staff training and support in waste reduction, diversion, and prevention. This will be a 3-5 year contract.	\$200K	Q4 2024 – Q1 2025	Becca Fong Becca.Fong@seattle.gov
Cedar River Pipeline in Renton Seismic Upgrade	Install flexible seismic joints on Cedar River Pipelines (CRPL) 1, 2, and 3 downstream of the pipelines' crossing with I-405 in Downtown Renton and on CRPL 2 where it crosses the former channel of the Black River in Downtown Renton. Rehabilitate a concrete tunnel approximately 60 feet in length that conveys CRPL 1 in Downtown Renton.	TBD	Q1 2025	Ian Fitz-James Ian.Fitz-James@seattle.gov

UPCOMING CONTRACT OPPORTUNITIES

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
Tolt Spillway Improvements	The South Fork Tolt Reservoir is the source of 1/3 of SPU's drinking water. The project will replace the spillway bridge, raise the spillway walls, install new access holes to the spillway underdrains, and install new access catwalks along the spillway walls. May include improvements to existing spillway slab panel joints.	\$20M	Q2 2025	Andy Karch Andrew.Karch@seattle.gov
Cedar East Side Supply Line Replacement	Replace up to 900-feet of the original 36-inch concrete cylinder pipe of Cedar East Side Supply Line parallel to Coal Creek Parkway in Bellevue. Includes rehabilitation of three culverts crossing the water line.	\$5.4M	Q2 2025	Kevin Sahara Kevin.Sahara@seattle.gov
Tolt Electric Power Systems Improvements	The South Fork Tolt reservoir is the source of 1/3 of SPU's drinking water. This will be a phased options analysis-through-construction consultant contract to assist SPU address improving the uptime reliability and sustainability of two local electric power systems that are critical to dam safety monitoring and operations.	\$3M	Q3 2025	Ulysses Hillard Ulysses.Hillard@seattle.gov

UPCOMING CONTRACT OPPORTUNITIES

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
Real Property Relocation Consultant	<p>Real Property relocation services for residential and/or commercial tenants, including tenant notifications, relocation plans, advisory services, inventories, estimates, move monitoring, inspections, and claim reviews and appeal support. Consultant to provide the following services:</p> <ul style="list-style-type: none"> *Prior to property acquisition, provide relocation advice to contract manager regarding residential and/or business relocation due to potential property acquisition. Contractor to prepare time and cost estimates. City relocation guidelines per SMC 20.84 will govern this relocation. *Determine if relocation benefits due to owner. *Determine if relocation benefits due to tenant(s). *Determine if relocation benefits are due to sub-tenant, if any. •After property is acquired, notify owner, tenants & (sub)tenant(s) of their potential relocation benefits and provide advisory services per SMC 20.84. •Provide all required relocation services per SMC 20.84. *After relocation(s) accomplished, provide SPU with relocation file(s) per SMC 20.84. 	TBD	Q3 2025	<p>Gerry Caruso Gerry.Caruso@seattle.gov</p>

UPCOMING CONTRACT OPPORTUNITIES

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
Water Main Rehab Package 5B	At six sites across Seattle, abandon in-place existing watermain; install new ductile iron watermain pipe, including valving, fire hydrants, and other watermain appurtenances, ranging from 4 - 20 inch in diameter by open-trench method; storm & sewer improvements; assist SPU water operations with: cut, cap, blocking of existing watermain, temporary and permanent water main connections, and temporary and permanent water services connection transfers; and final surface restoration of roadway and landscaping, including ADA curb ramp improvements.	\$4.7M	Q3 2025	Kevin Sahara Kevin.Sahara@seattle.gov
Bitter Lake Reservoir Improvement	Construction of a new 21-million-gallon potable water reservoir to replace the existing reservoir. The new reservoir will be a pre-stressed concrete partial buried circular reservoir. The work will also include earthwork, access road, street and right of way improvements, stormwater management facilities, piping, electrical, meter and valve vault, and fencing. The project site is located in north Seattle in the Bitter Lake neighborhood. The site is located at Linden Ave N and N 143rd St.	TBD	Q4 2025	Andy Karch Andrew.Karch@seattle.gov

UPCOMING CONTRACT OPPORTUNITIES

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
Tolt Dam Early Warning System Other Project Components	<p>The Tolt Early Warning System provides audible and/or visual indications to people downstream of a current or impending breach of the Tolt dam, allowing time for evacuation. The total work for the Tolt Early Warning system upgrade is split between 3 packages – the siren replacement project (SRP), the microwave work (MW), and the other project components (OPC). This package only covers the OPC project. The existing Tolt Early Warning System (EWS) is upgraded by installing new: 1) system controllers, 2) remote unit warning systems to include 4 outdoor warning sirens, 1 indoor warning siren, and 9 highway message signs, and 3) a siren alerting data network. The work primarily occurs in the City of Carnation, WA and at the Tolt watershed which is located east of Carnation. There is also one site in Fall City and one site located in Duvall, WA.</p>	\$1.8M	TBD	<p>Josh Campbell Josh.Campbell@seattle.gov</p>
South Park Drainage and Roadway Improvements Phase 2	<p>This project in South Park aims to improve drainage and roadways. The first phase of drainage and roadway improvements, covering 10 blocks, is essentially complete. We are now moving forward with design of the next tier of priority investments identified during the planning phase of the South Park Drainage and Roadway Phase 1 project and will be making additional stormwater infrastructure investments.</p>	\$3M	Q1 2025	<p>Johathan Brown Jonathan.Brown@seattle.gov</p>

UPCOMING CONTRACT OPPORTUNITIES

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
	SPU is seeking consultant services to support design and construction of drainage improvements of Phase 2, and to support external funding reporting.			
California Ave S Culvert Replacement Project	This project will replace a degraded culvert that conveys Fautleroy Creek with a fish passable structure (located in West Seattle)	TBD	TBD	Cody Nelson Cody.Nelson@seattle.gov

UPCOMING CONTRACT OPPORTUNITIES

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
Recycling Processing Contract (24-013-A)	The Contract is for sorting, baling, and marketing all recycling from SPU contracted collectors. Does not include most recycling from businesses. This Contract specifies the terms for Seattle Recycling Processing, the Materials Recycling Facility (MRF) goals and enables Solid Waste Code Compliance.	\$2M/year	TBD	Sally Hulsman Sally.Hulsman@seattle.gov
Drainage and Wastewater Hydrologic and Hydraulic Modeling Support (24-042-R)	This contract will be used to complete core sewer and drainage Hydrologic/Hydraulic (H/H) Modeling and Flow Monitoring work when SPU Staff are unable to perform work due to high workload or institutional knowledge gaps. Major Deliverables include H/H model development, calibration and verification, long term simulations in SWMM and Mike + Platforms, Quality Assurance and Quality Control of Deliverables, documentation of H/H Standard Operating Procedures (system capacity assessments model versioning, etc.), System Capacity Assessments, and Modeling and Analysis Support.	\$395K	TBD	Tracy De La Torre-Evans tracy.Delatorreevans@seattle.gov
Design and Construction Phase Support for the Vine Street CSO Flow Redirect Project (24-051-S)	This contract will include engineering, landscape architecture, and outreach consultant support for design, construction, and closeout phases for the Vine Basin CSO Flow Redirect Project. This project will install new conveyance pipes, maintenance holes and appurtenances, and involve CSO system reconfiguration. Services for this contract will include hydraulic and hydrologic modeling, civil engineering design, existing utility investigation, landscape architecture design, permit acquisition support,	\$5M	Q2 2024	Stephen Anderson Stephen.Anderson@seattle.gov

UPCOMING CONTRACT OPPORTUNITIES

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
	temporary property access agreement support, trenching design, and constructability review.			
Food Waste Prevention Facilitation Support	SPU is seeking a skilled facilitator to co-develop and guide listening sessions/focus groups/interviews with food businesses, community organizations/leaders, institutions, and other interested parties to better understand attitudes, behaviors, and needs of these entities as they relate to engaging in food waste prevention.	\$63K	Q3 2024	Liz Fikejs Liz.Fikejs@seattle.gov
Solid Waste Collateral Design	Provide graphic design services for solid waste print and digital collateral, including posters, flyers, campaign visual materials, and templates.	\$45K	Q3 2024	Becca Fong Becca.Fong@seattle.gov
On-Call Engineering Services	This contract will supplement the engineering services provided by the CIP Design Section	\$3.5M	Q2 2024	Young Kim Young.Kim@seattle.gov
On-Call Drainage Program Services	Provide drainage system program development, project management and engineering analysis and support, inspection, and construction management services to assess, maintain, and rehabilitate drainage assets.	\$5M	Q3 2024	Caroline Barlow Caroline.Barlow@seattle.gov

UPCOMING CONTRACT OPPORTUNITIES

PROJECT	DESCRIPTION	CONTRACT COST ESTIMATE	ANTICIPATED AD / BID	PROJECT MANAGER
On-Call Drainage and Wastewater Planning Services	This contract will provide consultant services to support ongoing citywide and focus area planning functions for the Drainage and Wastewater Line-of-Business, including their associated engagement and technical analysis components. Specifically, this contract will support the completion of Shape Our Water - SPU's 50-year plan for water resilience – as well as focus area planning in high priority areas of Seattle. This infrastructure planning is essential to meeting regulatory requirements in SPU's stormwater and wastewater permits, planning for development, and to partnering on projects with other City departments and regional agencies (e.g., Sound Transit, WSDOT).	\$5M	Q2 2024	Leslie Webster Leslie.Webster@seattle.gov
RainWise Customer & Contractor Outreach	This contract will support the RainWise program by providing creative educational, outreach, and marketing approaches that result in the equitable recruitment of program participants, as well as recruitment and retention of RainWise “certified” landscape professionals.	\$750K	Q2 2024	Bill Malatinsky Bill.Malatinsky@seattle.gov
