Green Seattle Partnership

10 Year Strategic Plan Update

1 July 2015

Why is GSP needed?

land purchased as natural area

natural areas “take care of themselves”

limited maintenance funds

urban pressures mount

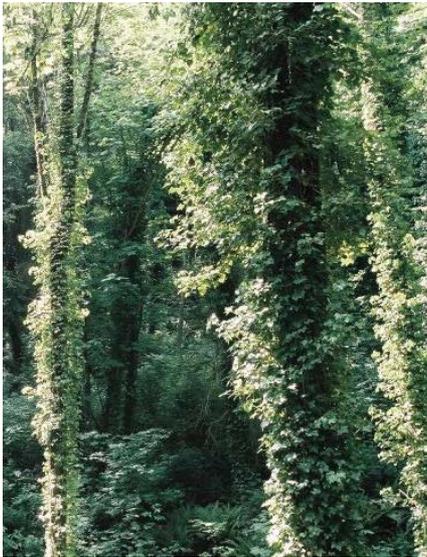

forest declines

The Solution

GSP Goals

- **Field:** To restore 2,500 forested parkland acres by 2025
- **Community:** To encourage resident involvement
- **Resource:** To ensure sustainability

Engagement Process

Message 1: Voice the Value

- Who is GSP
- Why is GSP important
- What GSP does

General Public / Organizations

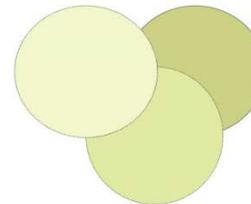

Advisory Groups / GSP Oversight

GSP Team

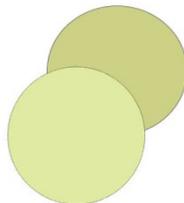

Message 2: Generate Ideas

- Getting to 2025
- Beyond 2025

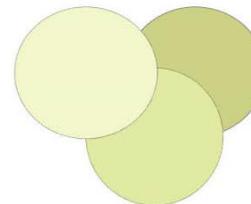

Message 4: Support

- Support the draft update
- Prioritization

Message 3: The Vision

- Communicate the GSP mission and goals
- Recognize accomplishments
- Convey the main goals for the update

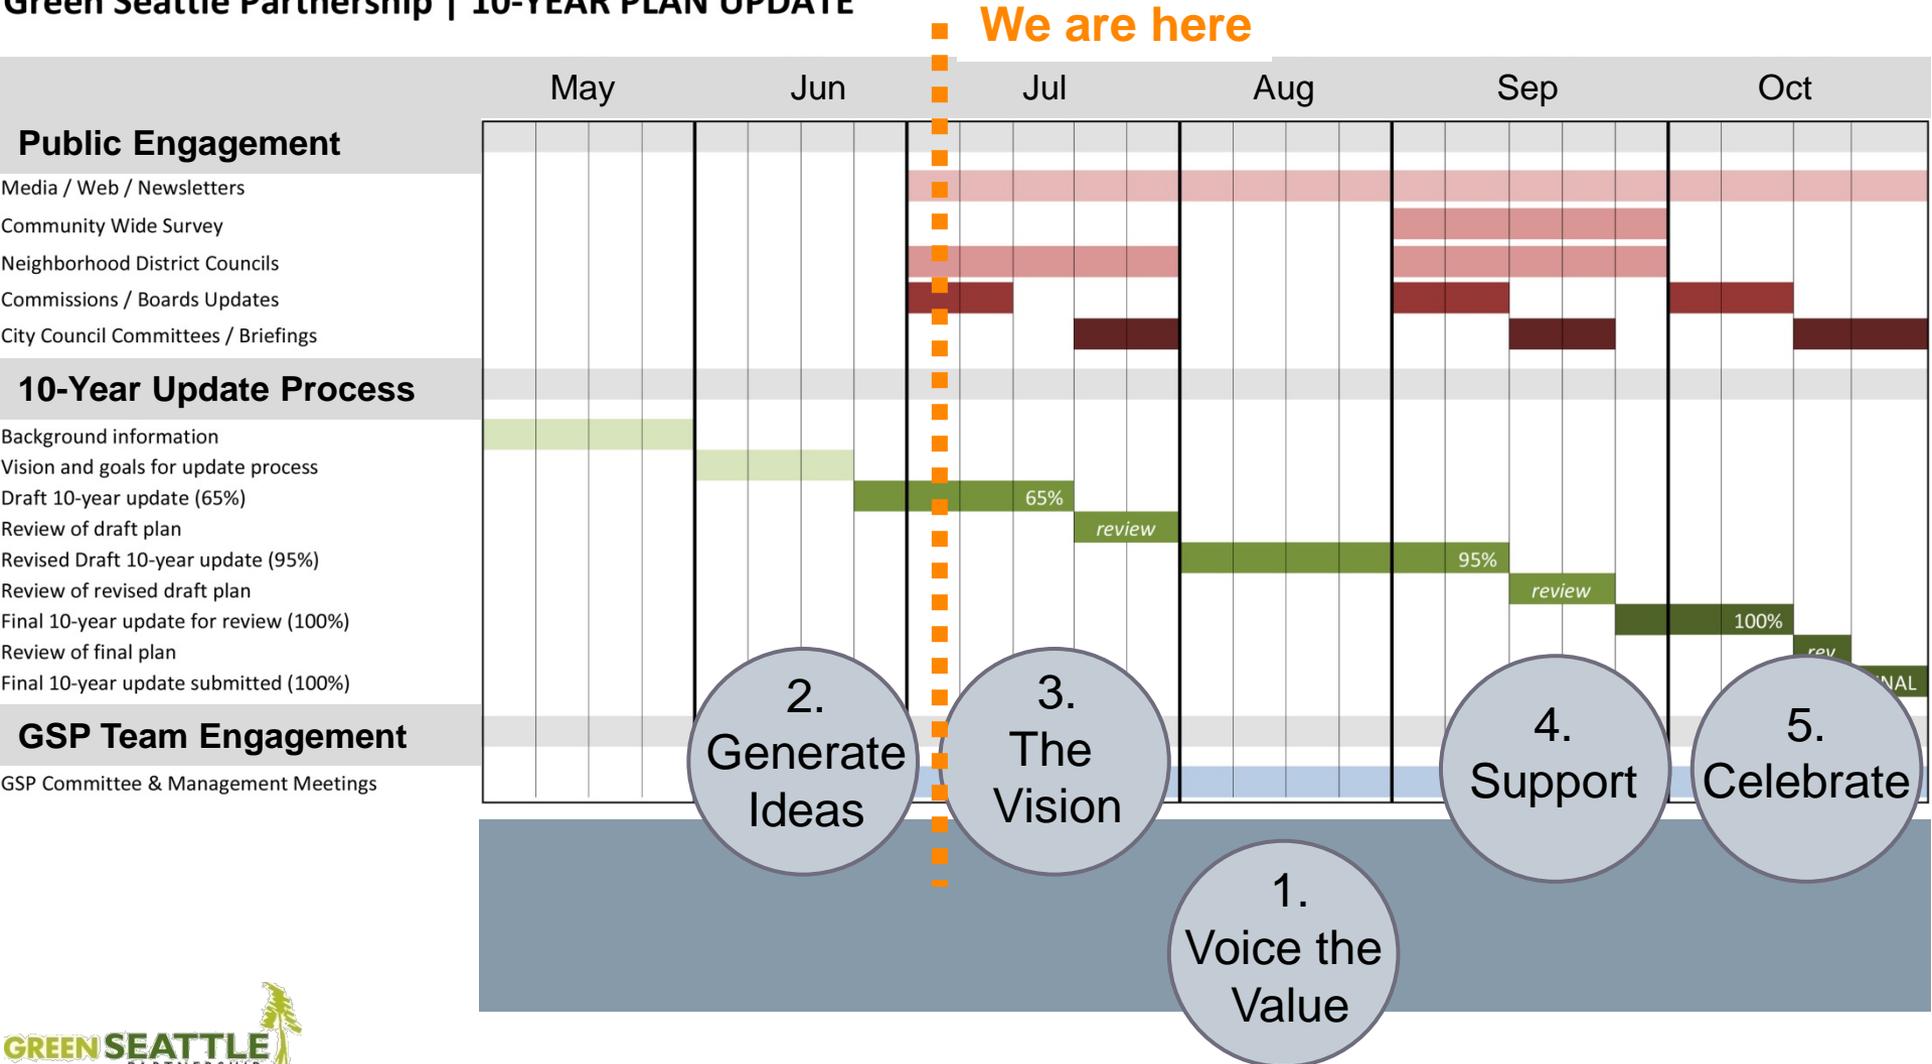

Message 5: Celebrate

- Final plan
- Adoption
- Implementation

Engagement Process

2015 Project Timeline Green Seattle Partnership | 10-YEAR PLAN UPDATE

Key considerations for the update . . .

- Strengthen partnerships
- Engage youth & diverse communities
- Communicate relevancy
- Ensure continued resources and support
- Expand educational opportunities
- Connect GSP sites to the community
- Cultivate new leaders in the community
- Build on GSP success to other public/private lands

“Promote a livable city by re-establishing and maintaining healthy forested parklands throughout Seattle.”

thank you
