INTRODUCTION

The Department of Education and Early Learning (DEEL) is notifying organizations, early learning providers, and any other entities providing services described in the this Request For Qualification of a funding opportunity through the City of Seattle 2018 Families, Education, Preschool and Promise (FEPP) Levy. The FEPP Levy aims to achieve educational equity, close opportunity gaps, and build a better economic future for Seattle students.

The Seattle Preschool Program (SPP) launched in the 2015-16 school year with the goal of providing accessible, high-quality preschool services for Seattle children designed to improve their readiness for school and to support their subsequent academic achievement. The first four years of SPP were designed to be a demonstration phase, wherein the City would establish sustainable practices to achieve its goal of eliminating race-based disproportionalities in kindergarten readiness.

Purpose

The purpose of the Seattle Preschool Program RFQ is to solicit applications to identify qualified early learning providers in Seattle of the opportunity to join the SPP, funded by the FEPP Levy.

DEEL has approximately \$1,494,381 available for the 2021-22 school year to contract for approximately 6 new SPP classrooms for the 2021-22 school year. These new classrooms will include a combination of classrooms identified through this RFQ, expansion of existing SPP providers, and direct contracting with eligible entities. This RFQ is intended for center-based programs. Family Child Care (FCC) programs participate in SPP through a separate FCC-HUB model.

Contracting will begin in July 2021 with preschool classes to start in September 2021. To be considered for funding, eligible applicants are invited to submit an RFQ application by January 7, 2021. DEEL reserves the right to re-release this RFQ throughout the FEPP Levy period.

Overview of RFQ process

There are two steps to becoming an SPP provider that are further outlined below under the RFQ Roster Design section.

First, applicants must submit an RFQ application to demonstrate how they meet the qualifications for becoming an SPP provider. Successful applicants will be placed on an SPP Roster to be considered for selection as a provider for the 2021-22 school year.

Second, DEEL will select providers from the SPP Roster according to the criteria outlined in the RFQ Roster Design section.

There is no guarantee of work or funding associated with this RFQ opportunity.

INVESTMENT GOALS AND OVERVIEW

Commitment to Funding Seattle Preschool Program

All FEPP investments across the preschool to post-secondary educational continuum contribute to at least one of three core strategies that support the overarching FEPP Levy goal: 1) Equitable Educational Opportunities 2) High-Quality Learning Environments 3) Students and Family Supports

The overarching goal of FEPP investments in Early Learning is to ensure that *Seattle students have access to and utilize high-quality early learning services that promote success in kindergarten*. To accomplish this, DEEL has committed to:

- Supporting preschool providers to offer learning environments that are evidence-based, high-quality, culturally responsive, and equitable;
- Providing families with multiple ways to access high-quality early learning services; and
- Focusing on strategies that will contribute to closing race-based opportunity gaps.

High-quality preschool has been shown to have positive impacts on children's social and emotional development, health, pre-academic skill development, and executive function skills.¹ FEPP's SPP investments fund:

- **Preschool Services.** Preschool providers are eligible to receive funds to deliver preschool services.
- **The City will expand the number of preschool slots each program year, with a goal to serve approximately 2,500 children by the 2025-26 school year.**
 - There are three types of preschool providers in SPP: (1) Seattle Public Schools (the District), (2) community-based organizations (CBOs), and (3) licensed family child care providers (FCCs), who contract with DEEL through administrative Hubs.
- **Tuition Assistance.** Families of eligible children will have access to tuition assistance for SPP.
 - Families with household income up to 350% of federal poverty may participate in SPP free of charge. In 2020, 350% is \$90,000 for a family of four.
 - There is a sliding scale for tuition for families above 350% of federal poverty (see Appendix B).

¹ Child Trends. (2018). High-quality preschool can support healthy development and learning. Retrieved from https://www.childtrends.org/wp-content/uploads/2018/05/PreschoolFadeOutFactSheet_ChildTrends_April2018.pdf

SPP is designed to benefit:

- *Children*, by providing access to high-quality preschool to prepare them for their transition to kindergarten.² Investments will serve Seattle children who are at least 3 years old by August 31 and not yet eligible for kindergarten in Seattle Public Schools.
- *Families*, by improving affordability. Providing tuition assistance reduces the financial burden of working families whose children attend high-quality preschool.
- *Seattle Public Schools and the community*, by reducing the long-term costs for remediation and special education. Studies have found that investing in high-quality preschool leads to reduced costs in health and criminal justice system expenditures³ and a 10% reduction in third-grade special education placements.⁴

Other key elements of the SPP Roster include:

- No specific contract award has been prescribed. The contract award amount will be based on a mutual determination between the service provider and DEEL in accordance with the slot rates and other funding amounts determined for the school year in which the provider will be providing SPP services.

ATTACHMENT 7: Dual Language

Programs that identify as a dual language program will need to provide information on the key elements listed below about their dual language program:

Language Plan: The language plan should identify the specific languages and cultures of children and families in each classroom. It includes language and literacy goals for the focus language(s) and English, delivery model and frequency of language of instruction (*Soy Bilingüe*). A dual language lesson plan should reflect these components.

Language(s) of the children:	
Program model:	
Description of Language Plan:	

Staffing Plan: Effective dual language education programs require additional teaching and staff characteristics (CAL, 2018). These characteristics are important to consider in recruitment and continued professional development. Teachers in dual language programs, like those in English-focused classrooms, should possess high levels of knowledge relating to early childhood and child development, as well as to curriculum, instructional strategies, and assessment. In addition, dual language teachers (both teachers of the focus language and teachers of English) should have the ability to speak, read, and write in the language(s) they instruct. The agency's hiring practices and teams should be built on teachers' strengths and language abilities to meet the children's needs.

List of teachers and their languages:	
List the dual language professional development, education, and/or training (e.g. <i>Soy Bilingüe</i> seminars) of the teachers above:	
List all staff and their role(s) on site that speak a language other than English:	
Description of Staffing Plan:	

Environment: Classroom environments should reflect the languages and cultures of the students and make ties to the language plan. Examples include visual cues, labeling/labels, materials, music, and books in the languages of the children and incorporated in the lesson.

Describe the dual language classroom environment:	
---	--

Leadership and Sustainability: Implementing a quality dual language program requires commitment from leadership to provide staff with additional time to plan, resources, feedback, and supervision to run effective dual language instruction.

Name(s) of agency director(s):	
List of dual language professional development, education, and/or training (e.g. <i>Soy Bilingue</i> seminars) of the directors:	
Describe the agency's commitment to dual language:	

Family Engagement: Family engagement is associated with higher student grades, higher achievement, higher language proficiency, better social skills, and higher graduation rates and enrollment in postsecondary education (Ferguson, 2008; Henderson & Mapp, 2002; Lindholm-Leary, 2015). For dual language programs, effective family engagement strategies must consider the cultural and linguistic diversity of families to ensure equal access to and meaningful participation in home-school collaboration activities.

Describe the agency's family engagement plan regarding dual language:

DEEL COACHING

DEEL coaches are culturally responsive education professionals who engage in child-centered and relationship-based coaching via four interconnected strategies: curriculum instruction, coaching, assessments, and training. Research suggests that integrating substantial strategies increases the probability of attaining the intended purpose.

1

Curriculum Instruction

DEEL coaches have in-depth knowledge of the curriculum (Creative Curriculum or HighScope) that is selected by the early learning agencies, as well as an understanding of diverse learning needs. To support teachers in implementing these curriculums with quality and fidelity, coaches model culturally responsive teaching and implement instructional reflective practice. Additionally, pre-service and in-service curriculum training support teachers' knowledge of curriculum content.

2

Coaching

DEEL coaches provide intensive, intentional, and reflective onsite instructional coaching. The coach uses the lenses of equity and cultural responsiveness to understand the professional development and specific needs of each teacher, director, site supervisor, and preschool program. Using this approach, the coach draws upon and models diverse tools and strategies, including differentiated instruction and the ability to apply strength-based intervention strategies and supports. This tailored approach means that there is no fixed time frame or specific dosage for each participating classroom. Coaching activities focus on the person being coached, teacher-student interactions, collaborative partnerships, family engagement, and learning environments.

3

Assessment

DEEL coaches work in partnership with Child Care Aware, the Washington State Department of Children, Youth and Families (DCYF), Public Health — Seattle & King County (PHSKC), and the University of Washington to analyze data from the following identified assessment tools using a continuous quality improvement process:

- Ages & Stages Questionnaires (ASQ-3 and ASQ-SE)
- Classroom Assessment Scoring System (CLASS)
- Early Childhood Environmental Rating Scales (ECERS)
- Peabody Picture Vocabulary Test (PPVT4)
- Program Quality Assessment (PQA)
- Teaching Strategies Gold (TSG)

4

Training

DEEL coaches play a pivotal role in supporting professional development. They assist in coordinating the following professional development activities:

- Director's instructional leadership series
- In-service training
- SEEC Institutes
 - fall Pre-Service
 - winter data institute
 - spring "Children Race and Racism"

- Professional Learning Communities (PLCs)

SPP Provider Facilities Fund

The Provider Facilities Fund supports preschool facility expansion and renovation projects for SPP or Pathway providers.

How can this support my work?

This fund is meant to support renovation and construction projects that will be used in SPP.

Eligible activities include:

- Construction, renovation, or rehabilitation of child care facilities; including instructional space, kitchens, bathrooms, or storage needed to support the instructional space.
- Design, construction, renovation, or rehabilitation of outdoor play space in accordance with state licensing regulations.
- "Soft costs" or any project costs that is not construction (which may include design, project management, and permitting costs) directly related to the development of space eligible for use as a SPP classroom.
- Improvements that provide accessibility to persons with disabilities.

Who is eligible to apply?

Any agency under contract to provide preschool services for the Seattle Preschool Program (SPP) or the Pathway Program. Funds are awarded through a competitive application process. There are different funding limits for family child care, center, and school-based sites.

What will I be asked to include in the application?

Applications for funds need to **demonstrate that the project is feasible** and can be completed within a reasonable timeframe. Also, for the next 7 years, DEEL is focused on creating additional space for SPP where it is needed. You will be asked to show how the location you propose is a good strategic fit for SPP expansion.

Agencies accessing funds may be required to commit improved space to SPP for up to 10 years. The length of commitment will range depending on the funding request. Requests above \$250,000 require a funding match and additional commitments from the providers.

How do I learn more and apply for funds?

DEEL anticipates that the Request for Investment (RFI) for the SPP Provider Facilities Fund will be released in Spring 2021. All updated information will be posted here:
