SERVICES**

# Finance and Administrative Services

## Overview

The Finance and Administrative Services (FAS) Capital Improvement Program (CIP) is the department's blueprint for planning, replacing, maintaining, enhancing, and upgrading FAS-owned and operated general government facilities, owned/leased community-based facilities, and the City's enterprise applications such as the financial management (Summit) and payroll/human resources information (HRIS) technology applications. These assets are used by City departments, including FAS, and by certain non-profit agencies that serve the public, to deliver critical services to Seattle residents.

FAS' general government facilities portfolio encompasses the City's core general facilities (City Hall, the Seattle Justice Center and the Seattle Municipal Tower); fleet vehicle maintenance shops; other City multi-purpose campus support facilities (Haller Lake, Charles Street, and Airport Way Center); and the City's public safety facilities, including 33 fire stations and waterfront marine operations, five police precincts, the mounted patrol facility, the harbor patrol facility, and the Seattle emergency operations and fire alarm centers. Additionally, FAS maintains core building systems for some community-based facilities that are owned by the City and leased to community groups, such as the Central Area and Greenwood Senior Centers, and community service centers, including the South Seattle Health Clinic, the Central Area Motivational Program, and the South Park Area Redevelopment Center. In total, FAS manages approximately 3.2 million square feet of building space.

## 2013-2018 CIP

In 2013, approximately \$53 million in appropriations are made to the following projects in the FAS CIP.

- **Asset Preservation** – FAS' Asset Preservation Program replaces existing systems in FAS buildings as they wear out (e.g., roofs, windows, boilers, etc.). Examples of work to be done in 2013 include replacing aged and leaking roofs, window systems, exterior cladding, and outdated electrical and mechanical equipment in the Animal Shelter, Seattle Municipal Tower, and Airport Way Center buildings A and D.
- **Fire Facilities and Emergency Response Levy Program** – This voter-approved program upgrades or replaces fire stations, and renovates the Chief Seattle fireboat. By the end of the program, all but one of the City's fire stations will have been improved. Fourteen fire stations have been replaced or upgraded, with eighteen more in progress through 2014. Major work in 2013 includes construction on twelve stations and design and permitting work on four stations. In addition, ten interim fire station projects have been completed and ten will be in design or construction through 2013.
- **ADA Upgrades** – This program addresses improvements in City facilities to achieve compliance with the Americans with Disabilities Act.
- **Customer Requested Tenant Improvements** – This program allows improvements to FAS facilities to meet tenants' operational needs. Examples include tenant space remodels, security system upgrades, material installation, and equipment replacement.
- **Maintenance Shops and Yards Facilities General** – Two new projects in 2013 will make repairs at the Charles Street Maintenance Shop. The roof will be replaced on the Materials Testing Lab and outdated piping will be replaced in building 714. Additionally, the building envelope will be replaced at Airport Way Center - Building A and a \$500,000 grant will be used to provide energy efficiency improvements.
- **Police Facilities** – This ongoing project preserves or extends the useful life or operational capacity of FAS-owned Police facilities. Projects have included heating/air conditioning replacement, structural assessments and repairs, and roof replacements. Additionally, FAS will begin work on site selection and acquisition for a new North Precinct, and repair the bulkhead and replace the heating and cooling

## Finance and Administrative Services

equipment at the Harbor Patrol facility. In 2014, the East Precinct parking garage will receive data\telecommunications upgrades that provide for uninterrupted police radio and cell phone coverage, and enhanced garage security.

- **Community Facilities** – Six City facilities are leased to community service providers in exchange for community services: Greenwood Senior Center, NW Senior Center, Central Area Senior Center (CASC), South Park Community Service Center (SPARC), Southeast Health Clinic (Public Health – Seattle & King County and Puget Sound Neighborhood Care), and Central Area Motivation Program (CAMP). Work will continue in 2013 to replace the roofs at four of the six facilities and new funding is added to replace and upgrade several HVAC, electrical, and plumbing systems in the buildings.
- **Garden of Remembrance** – This project meets the City's obligation to fund certain capital costs for the memorial located at Benaroya Hall. This capital fund pays for major maintenance and replaces garden installations, including irrigation equipment, landscaping, electrical/lighting fixtures, and mechanical water features.
- **Information Technology** – FAS plans two major information technology projects. The Summit Upgrade/FinMAP project, which will upgrade the City's financial management system (Summit), also includes major standardization and redesign of the City's accounting structure. The Multi-City Tax Portal Project implements a multi-city business and occupation license and tax filing portal, allowing all businesses operating in multiple cities to register for a business license, file business taxes and make tax payments for multiple cities at one location.
- **Seattle Police Technology** – The video mobile data terminals in the Seattle Police Department vehicles will be replaced and upgraded with funding from general obligation bonds.

## Upcoming Budget Issues and Challenges

The primary CIP budget issues confronting FAS involve the age and condition of many City buildings, tenants' diverse facility-related needs, community facilities with minimal funding, and the age and condition of technology infrastructure.

- **Asset Preservation**  
FAS' Asset Preservation Program raises \$4 million in space rent each year for the purpose of replacing building systems in the 95 FAS-managed buildings located outside of the downtown core. Given the number and condition of the buildings, FAS prioritizes the City's limited funding on those systems that are in such poor repair that they risk shutting down a building.
- **Expanding Needs**  
FAS facilities are used by a wide variety of different City departments, from Police and Fire, to the Seattle Department of Transportation, to Seattle Public Utilities, to the Department of Information Technology. The diverse operations of these departments regularly grow in concert with Seattle's population, development, more restrictive regulations, and initiatives, such as the Seawall replacement project and the City's data center infrastructure needs. As growth occurs, FAS works with its tenant departments to propose facility modernization, additions, or expansion to accommodate new operational requirements.

## CIP Revenue Sources

The Department's 2013-2018 Adopted CIP is FAS' plan for maintaining, renovating, expanding, and replacing its extensive inventory of buildings and technology systems. The Department's CIP is financed by a variety of revenue sources, including the City's General Subfund, the Cumulative Reserve Subfund (including the Unrestricted, REET I, and FAS Asset Preservation subaccounts), voter-approved levy proceeds, general obligation bonds, proceeds from property sales, and grants.

### Thematic Priorities

FAS' CIP addresses and balances the following priorities:

1) **Life/Safety Issues**

Projects intended to ensure continuity of service at facilities that provide emergency or other essential services receive top priority (e.g., replacing generators near the end of their useful lives at essential facilities, such as police or fire stations). Projects that respond to potential threats to human life and safety receive priority (e.g., upgrading aging fire sprinkler systems and water intrusion curtailment would rank high in the selection process).

2) **Investments that Create or Enhance Operational Efficiencies/Effectiveness**

FAS is responsible for a variety of assets as described above. FAS' capital investments must preserve, improve or enhance the operational capacity of these mission-critical systems and facilities.

3) **Asset Preservation**

As authorized in Ordinance 121642, FAS is granted \$4 million annually to support the replacement of existing building systems, guided by strict policies to ensure the funds are used exclusively to replace existing components, such as roofs, boilers, windows, and electrical/plumbing/structural systems when they have reached the end of their useful lives. FAS must also maintain the City's enterprise technology systems.

4) **Sustainability**

Up until now FAS' sustainability efforts have focused on meeting the City's LEED Silver requirements per Resolution 30121; the energy efficiency requirements of the new Seattle Energy Code; cost-effective opportunities to reduce energy use; and other regulatory sustainable strategies. The City is being looked upon to meet newer, higher LEED Gold and energy code sustainability goals, with strict reporting requirements on each project's results and building performance. There are also new sustainability programs, such as "20 by 20" and the "2030 Challenge," which are slated to reduce energy use and greenhouse gas emissions in order to meet sustainability goals.

5) **Race and Social Justice Initiative**

FAS integrates the City's social equity contracting requirements into all aspects of the execution of CIP projects.

6) **Federal or State Requirements**

FAS must consider state and federal requirements in assessing capital needs. For example, addressing facility improvements required by the Americans with Disabilities Act, which meet the dual goals of complying with federal requirements and providing equitable access to all. Another example is the recent revision in the Washington Administrative Code, whereby enhanced fire resistance is required for sleeping quarters in fire stations.

### Project Selection Criteria

Projects to be considered for inclusion in FAS' CIP fall into two categories: projects that create and/or enhance operational effectiveness or asset preservation projects.

## Finance and Administrative Services

Facilities-related projects that **create and/or enhance operational effectiveness** are solicited from FAS tenants on an annual basis, and then internally vetted for timeliness and appropriateness, and evaluated on their own merit. Business Technology-related projects are developed by FAS staff with input from customers and the Department of Information Technology's Enterprise Applications Board.

Facilities-related **asset preservation projects** are compiled from a rolling list of urgent and high-priority building deficiencies maintained by FAS' Facility Operations Division, and from a bi-annually updated plan of FAS' maintenance assessment efforts. FAS annually updates the priority status of facilities-related projects on lists based on maintenance efforts in the prior year and other sources, including federal or state requirements, property managers, tenants/customers and elected officials. FAS relies on the expertise of its technology, maintenance, operations, and capital development staff to review and vet the project list, keeping these criteria in mind: responsiveness to life safety concerns, continuity of essential services, preserving the long-term use of the building/technology, meeting regulatory requirements, compatibility and synergy with other planned projects, and capacity to reduce demand for routine maintenance service and generate resulting dollar savings.

When compiling the facilities project list, sustainability and resource conservation are also considered as a subset for both of these categories, as such projects result in longer useful lives of improvements, increased comfort, and reduced utility bills.

### Looking Ahead

FAS staff will continue to work with their tenants as their operational needs expand and change. Our City facilities and information technology systems must be reliable, well-maintained, and responsive to the needs of operating departments to ensure public safety and the delivery of critical services to the citizens of Seattle. Challenges include the need to address the City's data center infrastructure, the major maintenance program on the City's 23-year old, 62-story Seattle Municipal Tower, and the continued aging of our facilities and information technology systems.

### City Council Provisos to the CIP

There are no Council provisos.

### ADA Improvements - FAS

<b>BCL/Program Name:</b>	ADA Improvements - FAS	<b>BCL/Program Code:</b>	A1ADA
<b>Project Type:</b>	Improved Facility	<b>Start Date:</b>	Q1/2011
<b>Project ID:</b>	A1ADA01	<b>End Date:</b>	ONGOING
<b>Location:</b>			
<b>Neighborhood Plan:</b>	Not in Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	
<b>Neighborhood District:</b>		<b>Urban Village:</b>	

This project is the FAS ADA ongoing program that will address specific ADA improvements and upgrades at various FAS owned and operated facilities. Work will include, but is not limited to, reconfiguration of restrooms, meeting rooms and other spaces, reconfiguration of facility amenities such as drinking fountains, and various public access routes to sites, buildings, and public spaces.

## Charles Street Master Facilities Planning

<b>BCL/Program Name:</b>	General Government Facilities - General	<b>BCL/Program Code:</b>	A1GM1
<b>Project Type:</b>	Improved Facility	<b>Start Date:</b>	Q1/2012
<b>Project ID:</b>	A1GM116	<b>End Date:</b>	Q4/2013
<b>Location:</b>			
<b>Neighborhood Plan:</b>	Not in Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	
<b>Neighborhood District:</b>		<b>Urban Village:</b>	

The Charles Street Campus is the primary maintenance facility for City vehicles ranging from police cars and other sedans to vector trucks and other heavy equipment. Campus buildings are occupied by SDOT, SPU, and FAS, in support of their specific operations. The 1950s vintage facilities have very inefficient envelopes, poor insulation, worn building systems and are seismically vulnerable. This project would include updating the existing Master Plan and may involve an operational study, building condition assessments and on-site test-to-fit analyses to improve existing operations.

<b>Location:</b>	925 Alaskan Wy		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	Magnolia/Queen Anne	<b>Urban Village:</b>	Ballard Interbay

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, rehabilitates the Chief Seattle fireboat with upgraded systems, engines, pumps, and other equipment. The Chief Seattle will be relocated to a freshwater mooring, replacing the 80 year-old Alki fireboat to provide firefighting and rescue services on the freshwater bodies in and around Seattle.

<b>Neighborhood Plan:</b>	DUCPG (Downtown Urban Center Planning Group)	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	Downtown	<b>Urban Village:</b>	Commercial Core

This project provides for the City's project management and consultant costs associated with the City's involvement in the redevelopment of the former Public Safety Building site between James and Cherry Streets and Third and Fourth Avenues, the final project completing the Civic Center Master Plan. The City has contracted to sell the site to Triad Development, which will develop a mixed use complex including office, retail, and residential space as well as public and private parking and a "common" area that will be a public amenity.

## FAS: Municipal Energy Efficiency Projects

<b>BCL/Program Name:</b>	General Government Facilities - General	<b>BCL/Program Code:</b>	A1GM1
<b>Project Type:</b>	Improved Facility	<b>Start Date:</b>	Q1/2011
<b>Project ID:</b>	A1GM199	<b>End Date:</b>	Q4/2013
<b>Location:</b>			
<b>Neighborhood Plan:</b>	Not in Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	
<b>Neighborhood District:</b>		<b>Urban Village:</b>	

This project provides for investment in more energy efficient building systems and other facility efficiency improvements. By making these investments the City expects future savings in utility and labor costs, and significant progress toward carbon neutrality. This program is intended to fund facility retrofit projects identified by energy audits conducted in 2010 (funded by the City's Energy Efficiency and Conservation Block Grant), and similar projects identified by the department. Depending on project demand and available funding, additional resources may be added in the future. Projects include but are not limited to review of the energy efficiency of a building and upgrades and/or replacement of mechanical equipment and distribution systems, electrical equipment and distribution systems, building envelopes (walls, windows, and roofs), lighting systems, plumbing equipment and distribution systems, and building controls systems.

## Fire Station 06

<b>BCL/Program Name:</b>	Neighborhood Fire Stations	<b>BCL/Program Code:</b>	A1FL1
<b>Project Type:</b>	Improved Facility	<b>Start Date:</b>	Q2/2009
<b>Project ID:</b>	A1FL106	<b>End Date:</b>	Q4/2014
<b>Location:</b>	2615 S Jackson St		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	Central	<b>Urban Village:</b>	23rd Ave. @ Jackson

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, rebuilds Fire Station 6 at a new site. The existing Fire Station 6 is a historic landmark, seismically vulnerable, and cannot feasibly be renovated to provide the space necessary to support modern firefighting equipment and emergency functions. The project protects firefighters in the event of an earthquake and allows them to provide high-quality emergency services to the Central District community.

## Fire Station 09

<b>BCL/Program Name:</b>	Neighborhood Fire Stations	<b>BCL/Program Code:</b>	A1FL1
<b>Project Type:</b>	Improved Facility	<b>Start Date:</b>	Q1/2008
<b>Project ID:</b>	A1FL109	<b>End Date:</b>	Q4/2014
<b>Location:</b>	3829 Linden Ave N		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	Lake Union	<b>Urban Village:</b>	Fremont

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, rebuilds Fire Station 9 at its existing site. It also provides temporary quarters for firefighters while the fire station is under construction. At 50 years of age, the station building has reached the end of its useful life, and cannot feasibly be renovated to provide the space necessary to support modern firefighting equipment and emergency functions. The project protects firefighters in the event of an earthquake and allows them to provide high-quality emergency services to the Fremont community.

<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	Greater Duwamish	<b>Urban Village:</b>	Duwamish

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, provides for a major renovation and expansion of Fire Station 14, which is a historic landmark. It also provides temporary quarters for firefighters while the fire station is under construction. The improved building will be seismically safe and accommodate modern emergency equipment and functions. The project protects firefighters in the event of an earthquake and allows them to provide high-quality emergency services to the SoDo District.

# Finance and Administrative Services

## Fire Station 22

<b>BCL/Program Name:</b>	Neighborhood Fire Stations	<b>BCL/Program Code:</b>	A1FL1
<b>Project Type:</b>	Improved Facility	<b>Start Date:</b>	Q4/2013
<b>Project ID:</b>	A1FL122	<b>End Date:</b>	Q4/2017
<b>Location:</b>	901 E Roanoke St		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	East District	<b>Urban Village:</b>	Not in an Urban Village

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, rebuilds Fire Station 22. The existing Fire Station 22 is seismically vulnerable, and cannot feasibly be renovated to support modern emergency equipment. The project protects firefighters in the event of an earthquake and allows them to provide high-quality emergency services to the Roanoke community. This project is on hold pending a decision about replacement of SR520, so no budget or schedule is shown.

## Fire Station 28

<b>BCL/Program Name:</b>	Neighborhood Fire Stations	<b>BCL/Program Code:</b>	A1FL1
<b>Project Type:</b>	Improved Facility	<b>Start Date:</b>	Q4/2009
<b>Project ID:</b>	A1FL128	<b>End Date:</b>	Q4/2016
<b>Location:</b>	5968 Rainier Ave S		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	Southeast	<b>Urban Village:</b>	Not in an Urban Village

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, rebuilds Fire Station 28 and associated facilities on its existing site. The existing building is not seismically sound and is too small to support modern firefighting operations. The project ensures that firefighters will not be hurt in an earthquake and can continue to provide high-quality, modern emergency services to the Rainier Valley community.

### Fire Station 34

<b>BCL/Program Name:</b>	Neighborhood Fire Stations	<b>BCL/Program Code:</b>	A1FL1
<b>Project Type:</b>	Rehabilitation or Restoration	<b>Start Date:</b>	Q1/2011
<b>Project ID:</b>	A1FL134	<b>End Date:</b>	Q4/2014
<b>Location:</b>	633 32nd Ave E		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	East District	<b>Urban Village:</b>	Not in an Urban Village

This project, part of the 2003 Fire Facilities and Emergency Response Levy, provides a seismic and safety upgrade for Fire Station 34 and makes minor functional improvements to the facility. It also provides temporary quarters for firefighters while the fire station is under construction. The project protects firefighters in the event of an earthquake and allows them to provide high-quality emergency services to the Madison Park community.

## Fire Station Emergency Generators

<b>BCL/Program Name:</b>	Neighborhood Fire Stations	<b>BCL/Program Code:</b>	A1FL1
<b>Project Type:</b>	Improved Facility	<b>Start Date:</b>	Q3/2007
<b>Project ID:</b>	A1FL151	<b>End Date:</b>	Q4/2013
<b>Location:</b>	Multiple Fire Station locations		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	In more than one District	<b>Urban Village:</b>	In more than one Urban Village

This project provides funding for emergency generators at fire stations including Fire Station 8 (Queen Anne), Fire Station 11 (Highland Park), Fire Station 24 (Bitter Lake), Fire Station 34 (Madison Park), Fire Station 36 (Delridge), and Fire Station 40 (Wedgwood). The project installs generators for these fire stations in advance of the 2003 Fire Facilities and Emergency Response Levy seismic retrofit projects scheduled for these stations, where feasible, in order to improve disaster preparedness.

<b>Location:</b>	1301 3rd Ave		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	Downtown	<b>Urban Village:</b>	Commercial Core

This ongoing project provides an annual contribution (including increases for inflation) to a capital renewal fund for the Garden of Remembrance, located next to Benaroya Hall, per an agreement with Benaroya Hall Music Center (BHMC), a private, non-profit affiliate of the Seattle Symphony. This fund pays for major maintenance and replaces garden installations including, but not limited to, irrigation equipment, landscaping, electrical/lighting fixtures, and mechanical water features. The project is managed by the BHMC and is displayed within FAS's CIP for informational purposes only.

<b>Neighborhood District:</b>	Lake Union	<b>Urban Village:</b>	Not in an Urban Village

Address L&I citations by providing a one-hour fire resistive assembly between the apparatus bay and all sleeping areas in various fire stations. The majority of corrections include replacing doors leading into the apparatus bay with the properly rated doors, frames, and hardware, replacing glass with wire glass or fire rated glass, and providing rated enclosures at all openings and penetrations.

<b>Neighborhood District:</b>	Not in a Neighborhood District	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project preserves or extends the useful life or operational capacity and provides for improvements to FAS-owned Police facilities including, but not limited to, the East Precinct, the North Precinct, the Mounted Patrol Facility, the Harbor Patrol Facility, and the K-9 Facility. Typical work may include, but is not limited to upgrades to heating, ventilation, air conditioning upgrades, equipment replacement, siting, pre-design, test-to-fit analyses, and structural assessments and repairs. These improvements support police service by extending the operational life of old police facilities, complying with regulatory requirements, or addressing capacity problems.

### 2013 - 2018 Adopted Capital Improvement Program

# Finance and Administrative Services

## Seattle License Management System Upgrade

<b>BCL/Program Name:</b>	Information Technology	<b>BCL/Program Code:</b>	A1IT
<b>Project Type:</b>	New Investment	<b>Start Date:</b>	Q1/2013
<b>Project ID:</b>	A1IT03	<b>End Date:</b>	Q4/2014
<b>Location:</b>			
<b>Neighborhood Plan:</b>	Not in Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	
<b>Neighborhood District:</b>		<b>Urban Village:</b>	

The Seattle License Information System (SLIM) manages the issuance and renewal of business licenses; and the collection of revenue from fees and taxes. The system was originally implemented in 1996 at a cost of \$1.2 million and was developed in-house. SLIM is outdated and can no longer adequately meet the needs of expanding business license, tax collection and enforcement processes. The City needs a revenue collection that is more user friendly, flexible, allows integration of newer technology, requires fewer manual processes and workarounds, and supports data needs, such as GIS, real-time processing and reporting capabilities. While the preference is to purchase off-the-shelf software, the City would also consider hiring an outside vendor to build a new system.

### 2013 - 2018 Adopted Capital Improvement Program

# **INFORMATION TECHNOLOGY**

# Department of Information Technology

## Overview

The Department of Information Technology (DoIT) builds, manages and maintains the City's government information technology infrastructure – radio, data, communications, and computer networks – used by other City departments to serve constituents. DoIT also manages the Seattle Channel and the City's central data center, which houses most of the computer servers and the computing architecture that operate City department software applications. DoIT also directs the development of certain computer application projects on behalf of other City departments.

The Capital Improvement Program (CIP) supports DoIT's mission by providing for major technology upgrades, major maintenance and improvements to the City's existing networks, computing architecture and systems. This includes: enhancements and upgrades to the data and communications infrastructure; build out of fiber optic links; and upgrades and improvements to the public safety radio network, the enterprise computing system, and the television channel infrastructure.

DoIT's CIP has grown steadily over the eleven years of its existence, in line with the City's growing investment in information technology during that time period. Projects have been completed successfully on time and within budget. Close fiscal stewardship has allowed DoIT to make the most of the available CIP funds. Savings have been used to expand scope and/or complete additional efforts, and City funds have been used to leverage grant and external funding to maximum benefit.

## 2013-2018 CIP

The DoIT 2013-2018 Adopted CIP includes two new projects: (1) the Next Generation Data Center and (2) the Electronic Records Management System.

The Next Generation Data Center is a new project of paramount importance to the City. In 2012, the City identified a power transmission problem in the Seattle Municipal Tower (SMT) that directly impacted the City's primary data center, and therefore affected the business operations of all City departments. In addition, separate IT infrastructure that is housed in the SMT but managed by City Light and the Department of Transportation was also affected. Although the problem has been repaired, it underscored the need to upgrade the City's systems. The 2013- 2018 DoIT CIP includes funding to plan for the next generation data center. In 2013, the City will begin planning and designing alternatives for a new data center that will provide more capacity, redundancy and resiliency.

An engineering consultant report completed in 2012 developed preliminary options and costs for an upgraded system of data centers. The preliminary recommendation is to develop an integrated system with a new more redundant and reliable main data center, upgrade two existing City data centers to enhance redundancy and reliability, and to repurpose or decommission the remaining data centers. Preliminary estimates suggest the costs to range from \$29 million to \$49 million depending on which choices are made to meet the City's needs. The project is expected to take three years to complete. In planning for the City's future data center needs, DoIT and the Department of Finance and Administrative Services, working in conjunction with other City departments, will take a holistic look at the City's comprehensive data center needs and assess the potential of serving those needs in facilities already maintained by the City. This options analysis will determine: which systems should be housed in City facilities, which systems could be best accommodated in leased data center space, which applications may be candidates for cloud computing, and where the City needs redundancies to ensure reliable access to the City's business systems.

## Department of Information Technology

The Electronic Records Management System will be a multi-year initiative to address the City's need for a system that will manage the retention of electronic records and provide efficient search and e-delivery tools for responding to business needs, public records requests, and other legal matters. The project will begin in 2013 with the replacement of the City's current email archiving system and will be followed in future years by additional phases expanding electronic records management capabilities to other types and formats of records.

The remainder of the DoIT 2013-2018 Adopted CIP focuses on routine maintenance, replacement and upgrades for existing systems. The 2013 projects include:

- Replacement of the City's data center;
- Infrastructure maintenance in the 800 MHz radio network program;
- Upgrades to the alternate data center;
- Replacement, maintenance and upgrades of software and hardware in the City's computing services architecture environment;
- Replacement and upgrades of equipment for the Seattle Channel;
- Installation and maintenance of fiber optic cable links and spurs to various locations.

### Summary of Upcoming Budget Issues and Challenges

While DoIT's CIP Program has been highly successful overall, the nature of technology ensures that there will be ongoing new investments and requirements. Upcoming challenges for the CIP include:

- The City's growing investment in and dependency on IT requires an increasing commitment to fund associated support and replacement costs. New technologies are rapidly being developed and adopted in the general economy and constituents have expectations that government will use the same kinds of technologies that are adopted and used by private companies.
- The rapid and major changes in technology present a major challenge for the City. User demands (both internal staff and constituents) around technology continue to grow as available functionality expands exponentially. Additionally, user expectations continue to grow while resources are constrained to invest in new technologies.
- The City is part of a tri-county public safety radio system. The current technology platform is approaching phased obsolescence and will need to be replaced or upgraded. A three-county committee is exploring options for this effort, including funding strategies. The current CIP does not assume outside funding to replace or upgrade the radio system. The City's Radio Reserves, managed within DoIT's CIP, have through the recession received curtailed funding to help balance the budget. In order to ensure adequate funding for the next planned replacement of public safety radios in the 2020 timeframe, increased collections will be required if the regional funding initiative does not address this.

### Thematic Priorities

In addition to supporting Mayoral and Council goals for the City, DoIT has several thematic priorities which drive its work and consequently its operating and CIP budgets.

- **Ensure reliable maintenance and operation of the technology tools and systems supporting City Departments' staff, missions, and services.** The reliable and continued operation of these systems is critical to the ability for City employees in all departments to perform their work. As such, a majority of DoIT's CIP is expended on "Asset Preservation" and keeping these tools and systems up and operating.

### 2013 - 2018 Adopted Capital Improvement Program

## Department of Information Technology

- **Keep City Technology and Data safe, secure and compliant.** The increasing “computerization” of the City’s information and operations has been paralleled by a similar growth in the threats and risks to those systems and in laws and regulations associated with electronic data and systems. As a result, there is a steady increase in the need for investments related to security and/or compliance with state/federal regulations/laws/requirements.
- **Use Technology to make City government more accessible/accountable/transparent.** With the rapid growth in the Internet and the associated tech-savvy nature of the population, there is an increasing expectation that the City’s information and processes will be readily available via technology in near-to-real time.
- **Improve Efficiency & Effectiveness.** From its earliest stages, the City has invested in technology to improve the efficiency and effectiveness of its staff in doing their jobs, and this continues to be a key driver for our investments. In addition, some technology investments can result in monetary savings and/or the ability to stretch limited resources further (e.g., virtualization of servers).
- **Investments/Foundations for the Future.** A key part of DoIT’s mission is to perform strategic planning for the City within the technology sector and to ensure that the City’s technology investments move in sync with what is happening in the broader industry and world. This includes planning for and investing in key technology trends and emerging technologies as appropriate.

### Project Selection Criteria

DoIT uses a multi-step process to identify and prioritize projects for inclusion in their CIP.

#### STEP 1: Identification of Technology Needs and Opportunities

In this step, needs and opportunities for technology investments are identified. Information is drawn from a number of sources, including:

- The Citywide Enterprise Technology Multi-Year Strategic Plan
- Citywide Technology Roadmaps (updated annually)
- Customer Requirements/Requests
- Asset Replacement Schedules
- Coordination with partners (regional efforts, vendor partners, etc.)

This step includes development of initial cost estimates & other resource requirements, potential timing, and dependencies.

#### STEP 2: Identification of CIP and Non-Discretionary Projects

In this step, items identified in Step 1 are filtered to determine if they are (1) CIP appropriate or not and (2) discretionary or not. Criteria for determining if they are CIP appropriate or not include:

- Overall dollar value
- Timeframe of implementation (e.g., multi-year project)
- Lifespan of investment
- Investment in/preservation of long-term infrastructure

Projects which are determined to be non-CIP in nature are moved over for consideration and ranking with other Department Budget Issue Paper Proposals as part of the normal budget cycle.

## Department of Information Technology

Criteria for determining if they are non-discretionary include:

- Legally mandated (e.g., debt service, federal or state law/regulation changes, court orders, etc.)
- Urgent security or risk mitigation needs (e.g., major system failure, major security breach)
- Reimbursable services to others (e.g., DoIT manages a regional fiber consortium where the partners contract with/through us to get work done).

Projects which are determined to be non-discretionary are automatically included in the Department's CIP and Budget Proposal. Some examples of this type of project in the 2013-2018 CIP include maintenance of existing fiber optic networks and completion of currently contracted work for fiber partners due to reimbursable contracts with regional partners.

Discretionary projects proceed to Step 3.

### **STEP 3: Prioritization of CIP Appropriate Discretionary Projects:**

The projects remaining after Step 2 are then screened to determine if they are a match for DoIT's normal maintenance/upgrade/replacement programs within the CIP. Projects such as these tend to be smaller in scale (<\$250,000), "like for like" replacements (e.g., old equipment replaced by new equipment with little to no functionality change) etc. These projects are rated by program managers based on criteria tailored to each program and implemented as annual funding allows.

Larger capital projects which are best implemented on a stand-alone basis due to the size and complexity of the project are evaluated and ranked separately based on the following criteria:

- Asset Preservation/Replacement/Maintenance
- Product Lifecycles
- Legal Requirements/Mandates
- Security/Risk Mitigation
- Reimbursable from other sources (other depts. or outside entities, grants, reserves?)
- Leveraging Opportunities
- Dependencies (on other Products, Equipment, etc.; also on staff/resource availability/long-term supportability)
- Internal Customer Demands (including capacity) – including Mayoral/Council Priority
- External Customer Demands – Citizens, businesses, etc.
- External Drivers (vendor changes, regional commitments, etc.)
- Efficiency/Effectiveness Improvements/Resource Savings/ROI
- Key Future Trend/Forward-Looking/Pro-active

The final result is a list of prioritized large capital projects which are included in DoIT's Adopted Budget for inclusion in the CIP. The major new initiative is the new project to replace the City's existing Data Center. Other examples of discretionary projects chosen for inclusion in the 2013-2018 CIP budget include telephone, Enterprise Computing, and Seattle Channel asset replacement work which were included because equipment is at the end of its viable lifecycle and needs replacing before it fails.

### **City Council Provisos to the CIP**

There are no Council provisos.

# Department of Information Technology

## Alternate Data Center

<b>BCL/Program Name:</b>	Technology Infrastructure	<b>BCL/Program Code:</b>	D3300
<b>Project Type:</b>	New Investment	<b>Start Date:</b>	Q1/2008
<b>Project ID:</b>	D301AR001	<b>End Date:</b>	ONGOING
<b>Location:</b>	700 5th AVE		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	Downtown	<b>Urban Village:</b>	Commercial Core

This project supports enhancements to and expansion of the City's Alternate Data Center (ADC), including the expansion from a cold site (facility and communications) to a warm site (some recovery equipment ready for immediate use) through the addition of hardware such as servers and storage and has the capability to restore certain software applications.

	<b>LTD Actuals</b>	<b>2012 Rev</b>	<b>2013</b>	<b>2014</b>	<b>2015</b>	<b>2016</b>	<b>2017</b>	<b>2018</b>	<b>Total</b>

## Department of Information Technology

### Computing Services Architecture

<b>BCL/Program Name:</b>	Technology Infrastructure	<b>BCL/Program Code:</b>	D3300
<b>Project Type:</b>	New Investment	<b>Start Date:</b>	Q1/2008
<b>Project ID:</b>	D300CSARC	<b>End Date:</b>	ONGOING
<b>Location:</b>	700 5th AVE		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	Downtown	<b>Urban Village:</b>	Commercial Core

This project funds the regular replacement of server, data storage equipment and data center facilities operated on behalf of City departments by DoIT's computing services group. Timely replacement of this equipment provides stable infrastructure for the City. Equipment is replaced when it reaches the end of its useful life, which is typically no more than 5 years per industry standards.

<b>Location:</b>	700 5th Ave/Various		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	Downtown	<b>Urban Village:</b>	Commercial Core

This project provides funds to maintain, replace, and upgrade software and major hardware for the City's data and telephone switching systems. Updated technology and mandated manufacturer requirements often require changes to software and hardware. The selected projects focus on preventing unscheduled service disruption and system failures and also work to minimize the City's overall costs, increase reliability, and provide features that improve end-user productivity.

## Electronic Records Management System

<b>BCL/Program Name:</b>	Finance and Administration	<b>BCL/Program Code:</b>	D1100
<b>Project Type:</b>	New Investment	<b>Start Date:</b>	Q1/2013
<b>Project ID:</b>	D102TC008	<b>End Date:</b>	Q4/2014
<b>Location:</b>			
<b>Neighborhood Plan:</b>	Not in Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	
<b>Neighborhood District:</b>		<b>Urban Village:</b>	

This project is a multi-year initiative to address a citywide need for an electronic records management system that will manage the retention of electronic records in all formats, provide efficient search and delivery tools for responding to business needs, public records requests and other legal matters, and allow direct online access to records of wide public interest. The project will begin with the replacement of the City's current email archiving system and be followed by additional phases expanding electronic records management capabilities.

# Department of Information Technology

## Fiber-Optic Communication Installation and Maintenance

<b>BCL/Program Name:</b>	Technology Infrastructure	<b>BCL/Program Code:</b>	D3300
<b>Project Type:</b>	New Investment	<b>Start Date:</b>	Q1/2004
<b>Project ID:</b>	FIBER	<b>End Date:</b>	ONGOING
<b>Location:</b>	Various Locations		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	In more than one District	<b>Urban Village:</b>	In more than one Urban Village

This project provides for the installation and maintenance of a high-speed fiber-optic communication network for the City and its external fiber partners. The fiber network includes sites such as libraries, public schools, fire and police stations, community centers, and other City facilities. The use of fiber optics in communications increases the volume of transmission - the amount of data and video, the use of two-way radios for public safety, and the number of telephone calls - that can be conveyed. A fiber-optic network also allows for interconnectivity in the event of an emergency to other agencies and executives at the federal, state and local levels, increases the efficiency of City staff, and provides residents greater access to the City and external agencies that contribute to the network.

## 2013 - 2018 Adopted Capital Improvement Program

# Department of Information Technology

## Next Generation Data Center

<b>BCL/Program Name:</b>	Finance and Administration	<b>BCL/Program Code:</b>	D1100
<b>Project Type:</b>	New Investment	<b>Start Date:</b>	Q1/2013
<b>Project ID:</b>	D102TC007	<b>End Date:</b>	Q4/2015
<b>Location:</b>			
<b>Neighborhood Plan:</b>	Not in Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	
<b>Neighborhood District:</b>		<b>Urban Village:</b>	

This project provides a multi-year plan to collect requirements, assess options, and develop and implement a plan to upgrade/replace the City's data center environments. The City's main data center facility is over ten years old and would require significant capital investments to address existing issues and would still not meet current standards for mission critical systems. The project will replace aging data center facility systems with more efficient environments that provide the increased resilience, maintainability, and disaster recover/business continuity to the City's information technology systems.

## Seattle Channel Maintenance and Upgrade

<b>BCL/Program Name:</b>	Office of Electronic Communications	<b>BCL/Program Code:</b>	D4400
<b>Project Type:</b>	New Investment	<b>Start Date:</b>	Q1/2009
<b>Project ID:</b>	D404EC001	<b>End Date:</b>	ONGOING
<b>Location:</b>	600 4th AVE		
<b>Neighborhood Plan:</b>	Not in a Neighborhood Plan	<b>Neighborhood Plan Matrix:</b>	N/A
<b>Neighborhood District:</b>	Downtown	<b>Urban Village:</b>	Commercial Core

This project provides funds to maintain, replace, and upgrade the cablecasting and production systems for the Seattle Channel. This includes replacement of the channel's remaining analog equipment with digital ready gear and the on-going replacement of equipment that has reached the end of its useful life. The current replacement cycle will provide a new routing system, graphics generators, web interface equipment, studio control components, and equipment for coverage of council meetings. This plan will provide the Seattle Channel with an all digital, HD-ready infrastructure.
