Sign will be flat; no raised lettering is being proposed.

Sign will be flat; no raised lettering is being proposed.

Double-sided blade sign with 1/4" raised aluminum letters

Due to the limitations of digital printing some PANTONE® colors cannot be matched with 100% accuracy

Doug Pratt Enterprises

Aldea Home & Baby

Project location: 5304 Ballard Ave NW Seattle, WA 98107

Record Number: DONH-COA-01709

Here are the answers to the "Corrections Letter" dated 5/23/25

1. If other signs are needed (such as window decals, door signs) please add them to the proposal; all changes to the storefront require Landmark District review and approval. **Photos of decals have been added.**
2. Provide measurements for the distance between the proposed sign and sidewalk level. **It will be a minimum of 10 feet from the sidewalk to the base of the sign, no more than 11 feet.**
3. Provide a photo of the existing storefront, without mockups of the proposed sign usage. **Photo provided.**
4. Provide information about the material for the sign hanger. **The entire sign will be aluminum.**
5. Raised aluminum lettering is discouraged. **We are changing from raised lettering to a completely flat sign.**
6. Provide information about how the sign hanger will be attached to the building. Hardware should be installed in mortar and adding new holes to brick should be avoided. **We will use Tapcon concrete bolts 3/8-in x 3 in. Bolts will be mounted into mortar.**
7. Application fee of \$25 is payable online in the Seattle Services Portal, record number DONH-COA-01709. **Fee paid on 5/19.**

Thank you for taking the time to review this. I hope this answers all your questions to your satisfaction.
