Re: EXP INV Certification for Bifurcated Case Number: 2023OPA-0344

OIG EXP INV Certification Memo

OIG has reviewed the proposed EXP INV for bifurcated case number 2023OPA-0344. The investigation is certified as thorough, timely, and objective.

While OIG has certified the EXP INV portion of the case, it also acknowledges that the case, as originally submitted, contained two different complaints. OIG appreciates the willingness of OPA to separate the two complaints into two separate cases. That said, OIG expects that the Reports of Investigation for the two forthcoming cases will also be separated and only contain information pertaining to each related investigation.

Respectfully,
