

Diabetes Care Plan Checklist

Child Care Providers: Many health care plans do not meet WAC requirements for child care and early learning programs. The purpose of this checklist is to ensure that the care plan you have on file for a child meets WAC 110-300-0250 and 110-300-0300 requirements for child care and early learning programs.

| This form and the diabetes care plan are valid until: |
|---|
| (Unless otherwise indicated, care plans are valid for 1 year from the date of the |
| healthcare provider's signature on the care plan). |
| |
| Child's name: |
| Child's date of birth: |
| |
| Diabetes Care Plan Checklist |
| Let your licensor know you have a child with special health care needs enrolled. |
| |
| ☐ A copy of the child's diabetes care plan is attached to this form. A child care or early learning program must have the parent or guardian provide a signed care plan from the child's licensed healthcare provider before the child attends or resumes care. |
| ☐ Review the child's care plan. It must include the following items: |
| ☐ Child's first and last name |
| ☐ Child's date of birth |
| ☐ Child's medical diagnosis, if known |
| ☐ If medication is prescribed: |
| List of emergency and daily medication(s) |
| ☐ Medical need for the medication(s) |
| ☐ When and how to give medication(s), in response to specific |
| symptoms or at specific times |
| ☐ Amount or quantity of medication(s) to give (dose) |
| ☐ Possible side effects of the medication(s) |
| ☐ Parent or guardian signature agreeing to the written care plan |
| ☐ Contact information for the child's healthcare provider |
| ☐ Licensed healthcare provider's signature |

| | Medication Name | Expiration Date |

| ☐ Emergency glucagon: |
| ☐ Snacks for low blood sugar (hypoglycemia): |
| ☐ Plans for emergency situations: |
| ☐ Symptoms of low blood sugar (hypoglycemia) and how to respond☐ Symptoms of high blood sugar (hyperglycemia) and how to respond |
| ☐ What to do in response to an equipment failure |
| ☐ The child's preferred hospital in case of an emergency |
| |
| Look at the medication(s) the child has been prescribed. Make sure each |
| medication is labeled with or has the following (if any information is missing, have |
| a Medication Authorization Form completed): |
| ☐ The original packaging |
| ☐ The child's first and last name (can write directly on medication bottle) |
| □ Date the prescription was filled (for prescription medication only)□ Name and contact information of the prescribing healthcare provider |
| ☐ Medication expiration date |
| ☐ Amount or quantity of medication to give (dose) |
| ☐ Instructions for administration |
| ☐ Storage instructions (for example: must be refrigerated or store away from |
| heat and light) |
| ☐ Each medication must have a Medication Administration Record. |
| A 3-Day Critical Medication Authorization Form is also required if the child is on a medication that they take at home that is life sustaining. If this is the case, ensure this form is attached to the child's diabetes care plan and that it includes: The child's first and last name The child's date of birth Medical reason for the medication Amount or quantity of medication to give (dose) Licensed healthcare provider's signature Medication expiration date (if not listed, write above) Parent or guardian signature. This is the parent or guardian's authorization for trained child care employees to administer medication to the child, as ordered. The parent or guardian signature above is sufficient. |
| Medication Storage Requirements: ☐ Medication must be stored in a way that is inaccessible to children. ☐ Controlled substance medications must be stored in a locked container or |
| cabinet. |
| External medication (applied on skin) is stored separately from internal medication (injected or taken by mouth). |
