Public Meeting 2 SUMMARY | September 9 and 10, 2020

Meeting Purpose

The purpose of the Public Meeting #2 was to review the results of the first public survey, provide an overview of the site analysis, and identify opportunity areas to support a potential garden program, conversation circle, and public art program. Strategies to support health and human services and public safety around the park were also discussed as a direct result of feedback received from the community engagement process. Opportunities for new ideas and feedback on the project or the park in general were also discussed.

The meetings were held at two separate times:

- Wednesday, September 9th 6:00pm 7:30pm
- Thursday, September 10th 12:00pm 1:30pm

The same meeting content and format were presented for both meetings. Both meetings were also livestreamed on You-Tube and recorded. Closed captioning was made available through the on-line meeting platform. The recordings and meeting materials are posted on the project website at 2020calandersonpark.com.

Overview of Comments

The comments received during the meeting are organized into the following categories. Some example comments pulled from the meeting recordings are also included for reference. A full list of questions, comments, and responses is provided on the project website.

1. Safety and Security - Continued concerns were raised around homelessness in the park, improving lighting and views through the park, and making the park feel safer for everyone. A large portion of the meeting discussion centered around why the park isn't open to the public yet, and how to get the park open again. Concerns with on-going policing of the park, keeping the park safe for residents and visitors, and questions around the current encampments dominated much of the conversation on this topic.

Example comments:

"A big concern of the soccer clubs we serve is the safety of the youth players and their parents during their practices/games. We have seen a number of instances of homeless/mentally ill

people either attacking our members or stealing their bags during practices/games."

"Residents are targeted when they speak out. It is NOT safe for residents to speak freely."

"Some places along Nagle also have poor sightlines and contribute to the safety concerns. Lighting and activation could help."

"Reopen the Shelter House and bathrooms you welded shut and fenced off. Stop assisting in the brutalization of our people. Leave the people, & the mutual aid set up, alone."

2. Park Programming – An analysis of the site was reviewed with the public, including existing site features and programming, circulation patterns, view corridors, vegetation, solar access, and prior studies regarding site lighting and Crime Prevention Through Environmental Design (CPTED). Based on this analysis, seven potential opportunity areas were identified and discussed in relation to potential programming for a garden program, conversation circle, and public art. In general, comments from the public included concerns with impacting existing programming and events, making sure that any new programming was done in a way to fit with the park context and character, and using potential programming to help activate the park. A number of questions and concerns were raised around the garden program to make sure that efforts here aren't just duplicating other existing p-patches and community gardens in the neighborhood. Discussions around the conversation circle focused on a desire to see some improvement and connection to the adjacent streets. Public art discussion was centered around preserving the CHOP/CHAZ art and ideas for art education and exhibition.

Example comments:

"For many residents the chop was the worst most traumatizing month of our life. Memorializing it will NOT be inclusive."

What about introducing indigenous vegetation of the Seattle grasslands prior to Colonialism, and labeling them in educational content?

"Hopefully we don't take these [current event] spaces away from the community for these new program ideas."

"Maintenance has been an ongoing issue for the existing park. By adding additional "gardens" how will they be maintained when other existing features are maintained at less than minimal levels?"

3. BIPOC / LGBTQIA+ - Comments and discussion included a concern about how a BIPOC garden would function and what the purpose was. Ideas suggested included education programs associated with the garden, indigenous plants and their uses as part of the garden. Others suggested the garden could be located in another location, potentially where a higher concentration of BIPOC residents live. Concerns were raised that any new garden program would not preclude current use of the park for events and other programming. Continued support and flexible space for LGBTQIA+ gathering, events and activities was desired.

Example comments:

"Can arts program/artists demonstrate the intersection of both the BIPOC and LGBTQ+ communities?"

"I don't understand the need for a community garden at Cal Anderson Park. It would seem to be smarter to spend money on promoting more community gardens in areas that would better benefit BIPOC households?"

"What about all the LGBTQ charity events, drag queen softball games, gay rugby team events, gay movie night out, so many pride events throughout June, family pride, trans pride, that all happen in the park?"

4. **Health and Human Services –** Much of the discussion during the meeting focused on opportunities and concerns around a health and human services program in the park. There are a number of existing health and human services, programs and organizations in close proximity of the park. Creating better access to those existing services, having a 'park concierge' to support wayfinding and information about those services, and partnering with other organizations to support health and human service needs were also discussed. Continued discussion and concerns were raised both in support of assistance to individuals experiencing homelessness and those that would like to see the current encampments removed from the park.

Example comments:

"Will parks dept stop the unneeded security and sweeps? Please open the shelter house."

"How do we make sure there is no urination/defecation/drinking/drug use in the park in the daylight, in the open — this is what is happening there every day now?"

"Reopen the Shelter House and bathrooms you welded shut and fenced off. Stop assisting in the brutalization of our people. Leave the people, & the mutual aid set up, alone."

"We have talked about the idea of a concession in the park to serve/activate the area in the evening, and possibly engage/support a local entrepreneur. Could we look at a pilot to see if this works and benefits the community?"

Live-polling results

Live-polling during the meeting focused on opportunity areas for a potential garden and conversation corner program. The questions asked were the same at each meeting, and the results were displayed after participants were given an opportunity to respond via their mobile devise or polling website. The questions and results of the live-polling from each meeting are shown below.

Next Steps

The project team will be developing short- and long-term strategies to support potential programming and to help make the park a safe and more welcoming place for everyone. A second public survey will be released to gain additional feedback on potential locations for park programming and any other ideas or concerns about the park.

Comments are listed in the table below with responses from SPR included. Responses were added after the public meeting.

#	Question	Asker Name	Asker Email	Answer(s)
1	Thanks for setting this call up: A big concern of the soccer clubs we serve is the safety of the youth players and their parents during their practices/games. We have seen a number of instances of homeless/mentally ill people either attacking our members or stealing their bags during practices/games. This has ended up with clubs not wanting to use the field al together.	David Griffiths	davidg@sysa.org	This is in part, why the park is closed.
2	can you explain the type of organization your are with?	sawyckyjk@seattleu.edu	sawyckyjk@seattleu.edu	Rico and Nathaniel are part of DLR Group, a local architecture firm. Juliet Vong is with HBB Landscape Architecture in Seattle. Andy and Daisy are with Seattle Parks and Recreation. More introductions will follow shortly in one of the next few slides.
3	Residents are targeted when they speak out. It is NOT safe for residents to speak freely	Anonymous Attendee		We have heard a lot of concerns around park safety and security - for residents, visitors and those who call the park home. We will be discussing some of these concerns today. If you prefer, feel free to use the chat or the Q&A to provide comments. We will be documenting and tracking all comments and Q&A discussions. We also have a direct project email you can use to raise concerns and provide input. The email and project website info will be provided at the end of this presentation.
4	I am delighted by this conversation, though what actions are being taken NOW to ensure that the vision of CHOP is maintained when Cal Anderson Park has been technically closed for the past two months yet this park closure is only enforced against the unhoused community?			live answered
5	"a better sense of belonging to marginalized communities". That must be why there is a "BIPOC only" garden and you have reached out to Africatown who have a history of anti-Semitism, anti-Asian racism, and anti-white racism. Most recently they bullied a woman's shelter out of their rental space because Africatown wanted it. They made it clear the fact the shelter was run by white people was why they wanted it gone. And they are a stakeholder?? Huh?	Anonymous Attendee		The garden is not intended to be BIPOC only.
6	Does anyone actually live by the park? Hal This has been a nightmare. Park is not closed-it's used every day by hundreds. Including yoga, spots, dog walkers, joggers, protesters and antifa groups. We want a dog park! Include that. Over 200 signatures have signed a petition for the dog park area.	Anonymous Attendee		Please send it to 2020CalAnderson@Seattle.gov

Anonymous Attendee		The intent of the initiatives is not to memorialize the Chaz/ Chop. The intent is to create a better sense of belonging for the marginalized populations

72	Why has the homeless population become so important to the park's redesign? Ideally, Seattle should be helping these people in some way (although most do not want to be helped) and getting them into housing or counseling. However, letting them take over our parks is not the answer. They are dangerous for families who want to take their children to the park.	Joyce	attachment@msn.com	live answered

Dawn Dailey	ddailey1@uw.edu	live answered		
82	This is a comment that you don't have to answer, but I'm serious. Everything about the redesign about this park revolves around dividing people into groups (homeless, LBGTQIA, BIPOC) and referring them as a bunch of initials. I don't care what color or sexual preference people are. I accept them as a human being. They and we are all human beings. If people stopped labeling people maybe everyone would get along.	Joyce	attachment@msn.com	Thank you for sharing.		
83	I want to point out that Andy's explanation for when Cal Anderson is supposed to open basically sounds like, Cal will only be classified as open when the unhoused community leaves. I was present the other day when I guess someone called 911 because of a "fire." SPO showed up first and checked it out, verified that it was just a BBQ, and left all before the fire department showed up. Ignoring the needs of the people who use the park by closing it, does not help. I am unsatisfied with your reasoning for closing the park.			Thank you for sharing.

92	I hit the paragraph to quickly. We don't need a bunch of memorial structures. The park is great as it is. We don't need gardens (run by out of the area farmers) or a conversation area. Parks are inherently gardens of flowers and nature and a place where conversation is welcome. What about keeping the park for children, adults and seniors. 29	what is the plan to manage the picnic area next to wading pool and seating area next to basketball courts? It always feels dangerous to walk past there because of intoxicated people loitering. 39	Safety is so important at this park and all parks, and I applaud the goal to increase the ability to see and be seen when you are in the park. (though right now, people who live next to the park can see things like that armed standoff, people getting beat with skateboards, rock throwing, bottle throwing). If some form of law enforcement cannot be brought to bear in the park, sightlines won't matter.	Anonymous Attendee		comment received
40	The park is closed but I was just there yesterday and there is a city of tents and it looked very much open. I was followed down the street while being screamed at by a homeless person.	Felicity Alexander	falexander@millcreekpl aces.com	Thanks for sharing

44	This park is the heart of the gay community. The occupation has made it unsafe for the gay community. I was recently gay-bashed there by the occupiers. Why does the city have such little respect for the gay community?	Neighbor	andrewdhaas@hotmail.	live answered
45	If this is a fair and open process, why is one project proponent, Marcus, allowed to promote/lobby for his project.	Anonymous Attendee		This is a process to receive vet ideas that spawned from the protests over the killing of George Floyd. And proponents of these ideas are welcome to add clarity to the respective initiative.
46	Can I call 911 when I see people walking their dogs in the park?	Anonymous Attendee		Thanks for sharing
47	My question is for Marcus. He said his goal is to bring more BIPOC farmers into the space- that is his plan and vision. He has only lived in Seattle is short time and never on Capitol Hill so why has he taken over and discriminate against those who created it? It's really inappropriate.	Anonymous Attendee		Thanks for sharing

Question Details - 5	Sep 10 Question	Asker Name	Asker Email	Answer(s)
51	What is your understanding of how allowing homeless people who refuse shelter to live in the park, affects the rest of Capitol Hill? Is it Seattle Parks position that the needs of the homeless outweigh the needs of the residents and business's within the entire CH neighborhood?	Anonymous Attendee		We are not aware of the unsheltered population in the park refusing shelter. Centers of Disease Control and Prevention are recommending not to more encampments during COVID
52	people LIE on surveys about where they live and they survey was shared on twitter can you please send a paper survey to only nearby residents?	Orlando	mylittlejohn@hotmail.c om	We will consider your suggestion. Thank you
53	There is a lot of illegal off-leash dog activity in the park, as well as legal on-leash dog walking. Do you have park plant experts' assessment of how the resultant load of residual dog feces is compatible with vegetable gardening?	Anonymous Attendee		Hopefully the Off Leash Area study will identify another OFA on Capital Hill to alleviate the pressure.
54	Thanks. As a resident of capitol hill and cal anderson being the closest park to my home i never see anyone enforce the off-leash rules.	Ro Lima	ro@guavatothepeople.o	Hopefully the Off Leash Area study will identify another OFA on Capital Hill to alleviate the pressure.
55	I share the concerns with others about undesired activity taking place in the park. Places like the community garden and conversation corner were heavily abused during the CHOP such as drug use, homeless encampment, and other crimes. Why are we proposing these activities when Seattle doesn't enforce the law in the park currently?	Anonymous Attendee		Thank you for sharing
56	What is being done about the violent scourge of cops smashing our homes and eating our food?	Anonymous Attendee		Thank you for sharing
57	Please keep the park closed until illicit activity is controlled.	Anonymous Attendee		Thank you for sharing
58	It is counterintuitive to say you are not opening a park until illicit activities end when it is clear that positive activity breeds positive activity.	Anonymous Attendee		Thank you for sharing
59	There are homeless services across the street. A youth shelter is planned a block away. Why is the park an appropriate place for homeless services and how will it be managed to insure it doesn't become a permanent CHOP campground?	Neighbor	andrewdhaas@hotmail. com	The reason we want to conduct a survey of the human services in the neighborhood is to better direct the unsheltered to the necessary resources.
60	What alternatives if any do the residents who rely on cal anderson as their green space have for recreation during it's closure?	Anonymous Attendee		live answered
61	You make assumptions about the garden being desirable. Food gardens attract rodents, so it would be better to have any gardening be non-food related.	Anonymous Attendee		Dealing with rodents will be part of the gardens operation plan
62	I heard you guys say that the park will be closed "until incidents stop." 1.) Since the park is officially closed, does that mean there will not be maintenance also? 2.) How are we measuring "until incidents stop" (for example, is there a set number of 911 calls that trigger the park being open again)?	Anonymous Attendee		We will be maintaining the park and are coordinating with the other departments in this effort. We have been having to strategize around safety issues and how best to implement the work without putting staff in harms way.
63	You're only answering the questions that align with your agenda	Anonymous Attendee		We are answering all the questions that we are able to. There are some questions that refer to city wide issues that we may not be able to answer.
64	Regarding: "Orlando: there is already a conversation corner near the basketball court" There were four more benches in this same area, but SPR removed them due to gatherings with illegal drinking and other activities. Similarly, there were four more benches along Pine St. in two areas that were removed by SPR for similar concerns. Can these be returned?	Anonymous Attendee		We are looking into the benches on Pine and will research the issue with the benches near the Basketball court.
65	Please address private security. What is happening	Anonymous Attendee		There was a pilot to use private security to try and protect the assets in the park and it only
66	Over the past 3 months, we've been seeing a lot of unauthorized vehicles driving illegally on park lawn/terrain. Are you planning on implementing any changes to park infrastructure and access points to limit/deter as much as possible the access to unauthorized vehicles inside the park?	Anonymous Attendee		We have already starting installing bollards at the entry points and are going to carefully monitor vehicular access. If it continues we will have to install additional impediments around the perimeter.

Question Details - #	Sep 10 Question	Asker Name	Asker Email	Answer(s)
67	Does in not make sense to implement improvements to public safety prior to any other improvements (including the community garden, which was just expressed as the first improvement)? Since public safety seems to be the most common concern, will a detailed plan of action be developed to address it? It seems that all other improvements be judged through the lens of public safety, which has been a decades-long primary concern of Capitol Hill residents.	John	john@3plus.studio	We are currently implementing CPTED measures. A walk-thru was conducted with our arborist. Low limbs blocking light from luminaries are being removed. The electrical Shop has been replacing broken luminaires. We are also looking into adding lighting at key locations.
68	What are the plans for picking up trash? That is contributing to the rodents and our safety. Neighbors are volunteering to pick up trash. Do you plan on additional trash cans at each of the entrance/exit points? That's where it seems to pile	Anonymous Attendee		We will be maintaining the park and are coordinating with the other departments in this effort. We have been having to strategize around safety issues and how best to implement the work without putting staff in harms way. We have been picking up trash once a week and we will increase our frequency as needed. With the folks living in the park there is a significant increase in trash that we need to acknowledge and address immediately.
69	How do you plan on recentering this discussion on the BLM movements and police brutality? It feels as if the commentary is putting a lot of blame on the unhoused for the state of the park, while forgetting the reason why people gathered in the park in the first place. It feels as if you are trying to capture artifacts of CHOP with out acknowledging why it occurred. And again you are failing to center BIPOC voices. You are letting this process get dominated by Capitol Hill residents who don't care about black lives.	Anonymous Attendee		Point well taken. We have covered a lot of ground in the focus group discussions that have been centered on BIPOC and LGBTQIA voices.
70	the CHOP was very disruptive and violent. Many residents do not want to be reminded of that traumatic horrible month. what will be done to make a safe place for residents with PTSD because of the chop??	Orlando	mylittlejohn@hotmail.c om	Safety of park users will be number one priority once the park is re-opened.
71	John Rodriguez, Co-Chair of the Seattle LGBTQ Commission here, my question is; what measures or plans are being considered to be enhance or or keep supporting LGBTQI+ activities and work on creating a safer space for our community?	John Rodriguez	republicadominicana@i tgetsbetter.org	The safety and security of park users is our number one priority. We have started to implement measures recommended by the Crime Prevention through Environmental Design Analysis. Any changes to the park will be vetted by the community in an inclusive design outreach process. Any suggestions as to how to better support LGBQIA+ activities are more than welcome. Please email:2020CalAnderson@Seattle.gov
72	Before you start cutting down trees to improve sightlines, if that is under consideration, would you please provide evidence that such action will actually increase safety?	Anonymous Attendee		I can appreciate your concern. There is no intent to cut down trees in the park, there are other ways to help manage the vegetation at the entrances that can help increase visibility without removing trees.
73	Please don't keep talking about "The Garden". Juliet mentioned that adding gardening activities could be done in many different ways. Thus it would be better to include a variety of "garden sites", but not locate them to impact the import event meadow.	Anonymous Attendee		Thank you for sharing. The intent is not to impact the center of the event meadow; but, to locate the garden on with side of the buildings (East of Shelter house, West of Restrooms).
74	Can we have some real conversations where people can respond to each other? There is no community engagement here. Having Andy answer these sensitive questions is not helping its dividing.	Anonymous Attendee		Thank you for sharing
75	The website I was given doesn't work. Can you please confirm?	Felicity Alexander	falexander@millcreekpl aces.com	My apologies. The correct link is: 2020CalAndersonPark.com
76	If you're doing maintenance now please deal with the loss and destruction of parts of the park - missing handrails, etc.	Anonymous Attendee		Point well taken. We are currently inventorying damage and repairing assets.
77	This group has proposed increasing line of sight and lighting as a way of increasing safety within the park. That would increase visibility for everyone, including police. How does Seattle P+R plan to prevent SPD from using increased visibility to target the BIPOC community?	Gavin Dean	gavin.n.dean@gmail.co m	We "One City" and rely on our city partners to lead with equity. The Race and Social Justice Initiative holds us all accountable to address racial justice.
78	You mention frequently the CHOP/CHAZ art work, but the previous art work in the park has been severely damaged and compromised, the entire 1% for Art water feature, the tile murals at the shelter house, the WPA bridge and waterfall, etc. When will these be fully restored and functioning? Has the project team talked with any of these artists whose work have been impacted?	Anonymous Attendee		We have tried to identify and reach out to the artists of the BLM mural without success. The lower half of the mural was covered up with additional graffiti so we intend to repaint the lower half and restore the tile work.
79	The grass in the north side of the park is only partially being watered at the moment. Why is that the case? Are there any plans for sprinklers to operate throughout the park in the short term?	Anonymous Attendee		Irrigation has been cut back as an energy conservation measure and to avoid encampments.
80	Please address the 11th Avenue E sidewalk - it has huge dips & cracks that are an ongoing danger to even able bodied folk - let alone a clear deterrent for any disabled folk to use, to access the park on the entire length. Is there a plan coordinated with the city?	Anonymous Attendee		Yes, this condition has been called to the attention of SDOT
81	Thank you	Alan Burke	alan@classicnursery.co m	Thank YOU!

82	If you're looking at garden areas why don't you use the Howell/Nagle entrance? It is a place where people can easily walk through the planting space and have good exposure for a variety of plants.	Anonymous Attendee		live answered
83	Thank you Alan for your thoughtful input to this conversation.	Anonymous Attendee		Thank you
84	Corporations are flailing to find ways to support BLM. This is a very real opportunity to fund this with a more concerted corporate outreach	Alan Burke	alan@classicnursery.co m	Thank you for sharing!
85	I too am concerned at the lack of mention of BLM when that is the basis of CHOP and the farms, and the fact that we discuss this while ignoring the plight of houseless people who's homes are being destroyed by parks and rec.	46 E Walther [she/her]	erika.walther@gmail.co m	Thank you for sharing!
86	Is there a "friends of Cal Anderson Park" group coordinating as support for these ambitions? Most other parks have established a group for their parks.	Anonymous Attendee		live answered
87	People need to understand the park and its great variety of uses and not assume that this is the space to do a major statement which overwhelms the function of the park.	Anonymous Attendee		Point well taken
88	if you pick up protestors garbage it proves the park is not closed to anyone but the residents.	Orlando	mylittlejohn@hotmail.c om	Thank you for sharing
89	The park is closed, yet in reality people are still using it today since closure is not enforced. What is the city doing to reduce waste and overflowing bins. Trash ends up in the ground on makes its way to private property and neighbors - forcing residents to take this matter on their own hands and clean the park on behalf of the city. When will the city restart basic services such as trash pickup/removal?!	Anonymous Attendee		We will be maintaining the park and are coordinating with the other departments in this effort. We have been having to strategize around safety issues and how best to implement the work without putting staff in harms way. We have been picking up trash once a week and we will increase our frequency as needed. With the folks living in the park there is a significant increase in trash that we need to acknowledge and address immediately.
90	When you talk about safety, one of the tests needs to be would a parent feel it was safe for their child to go into the park, to use the restroom, etc.	Anonymous Attendee		Point well taken
91	This park was recognized as one of the best new urban parks of the 21st century when it opened. Why has it been allowed to deteriorate so far, not only in the last few months, but also over the last few years? On-going maintenance has been disgraceful for a long time.	Anonymous Attendee		Unfortunately, the level of vandalism has significantly increased over the past 5 years. It has been very difficult to keep up with repair of the constant broken windows, broken doors, graffiti, etc.
92	Is there going to be more effective outreach to the Capitol Hill community about these proposals? For example, will Parks post flyers throughout the neighborhood to inform more people?	Anonymous Attendee		We will keep our website updated.
93	Certainly hope the arborist will not be damaging the important trees in the park and will understand their form and significance.	Anonymous Attendee		Absolutely
94	When is the water feature and its art going to be repaired? Does the Art Commission have that on their budget? What about uncovering the art tile at the restroom of the water fountain?	Anonymous Attendee		Water feature: The masonry on the dome of the water feature is significantly cracked. Arts and Culture is investigating and scoping a project to repair. Comfort Station: Ext. tile will be uncovered by late Nov.
95	How are the Park ambassadors identifiable?	Anonymous Attendee		They wear reflective vests and have ID on a lanyard.
96	Williams Park nearby is a homeless camp. Regarding the park landscape, Sound Transit was supposed to replace trees they removed for the station construction. Why haven't they been replaced? Also several trees in the park are dead, or have been cut down, or removed, including two significant historic trees. Why haven't these been replaced?	Anonymous Attendee Anonymous Attendee		Thank you for sharing We are going to inventory the dead trees over the winter, come up with a replacement plan, present plan to Landmarks for approval, and replant in the early spring. We will report back on Sound Transit actions.
