* New School Zone Sites for 2014-2015 School Year

** Following the publication of collision data for 2011-2013, SDOT made adjustments to the collision data for 2013. Those adjustments included the removal of "Voided" collisions as well as the addition of "Citizen Reported" collisions. This resulted in either a slight increase or decrease in the numbers at certain locations. The total outcome was an overall decrease of five collisions for the Red Light Camera, two collisions for the School Zone Camera, and two collisions from the Arterial Pilot Camera from the original posted totals.
