## Responsibility of the Board of Administration

The Retirement System's assets are held in trust. The Board of Administration has a fiduciary responsibility for those assets. The two key fiduciary responsibilities are the *duty of prudence* and the *duty of loyalty*. The *duty of prudence* is largely about process and ensuring an investment process was prudent. The *duty of loyalty* requires the trustee to act "*with an eye single to the interests of the members and beneficiaries*".

The SCERS portfolio has an actuarial value of \$3.3 billion and is 71.6% funded on an actuarial basis as of January 1, 2021. The Board of Administration oversees the fund's investment activities and seeks to create a diversified and balanced portfolio. A few of the responsibilities includes hiring investment managers, and setting the asset allocation and funding policy. In addition, the Board is responsible for setting strategic policy over the administration of the retirement system.
