Roster Solicitation: SDOT Operations Planning On-call

Project Manager	Chris Saleeba
Email	Chris.Saleeba@seattle.gov
Phone	(206) 265-5510
Website	(200) 203-3310
website	
High Level Scope	Conduct data collection, traffic modeling, quick small-scale planning efforts, and operational analyses in response to emergent transportation issues.
Contracting Opportunities	 Purpose + goal The purpose of this SDOT on-call project is to complete the assessment of the potential benefits/impacts of operational concepts, to recommend solutions for consideration, and to prepare concept plans. The work performed under this contract will consist of individual work orders. A detailed scope of work shall be developed and negotiated for each work order. The project scope for each work order may involve any one or combination of tasks including: planning and design, conceptual development, feasibility and alternatives analysis, traffic engineering and modeling, transit corridor planning and operations services. Scope of work may include tasks such as: Data collection - collect data to support the operational analysis and design of spot improvements as requested by SDOT for locations determined under each work order. Transportation Planning and Operational Analysis - review existing and/or future transit routing along selected corridors or intersections, evaluate existing traffic patterns, and identify congested areas for transit operation. Model existing and proposed traffic and transit operations utilizing Synchro or Vissim software as needed to analyze the impacts of proposed concepts. Design and Implementation - design of traffic signal modifications, rTS design, channelization modifications, curb/sidewalk/curb-ramp modifications, bicycle facilities, bus islands, and prepare cost estimates. Desta reports that may include: Field observation of transit and traffic operations Auto or transit travel times Quito transit travel times OBS/AVL data from King County Metro and/or Sound Transit Signal timing cards Parking inventory and utilization
