

Traffic and Revenue Study Consultant

Project Manager	David Conway
Email	David.Conway@seattle.gov
Phone	(206) 684-5016

High Level Scope	Provide consulting services to support the development of investment-grade traffic and revenue studies for the City of Seattle. The initial phase of work will be on the West Seattle Bridge Corridor.
Contracting Opportunities (1)	<p>A. City of Seattle Traffic and Revenue Study</p> <ul style="list-style-type: none"><i>Scope Summary</i> The City of Seattle, via the Seattle Department of Transportation (SDOT), requires the assistance of a qualified Consultant team to provide traffic and revenue services, including investment grade for financial planning for the West Seattle Bridge Corridor. The services to be provided include, but are not necessarily limited to: data collection and analysis, traffic forecasting, review and analysis of revenues, impact analyses including equity impacts, evaluation of alternative toll rate structures, cost analysis, revenue projections, and financial/economic feasibility studies as necessary. The Consultant will also provide other associated administrative support services that may be needed to assist and support SDOT. The studies may be used by credit rating agencies, government agencies, and other financial institutions. The scope of work may also include coordinating with the City's congestion pricing efforts.
Contract Estimate(s)	Approximately \$2,000,000

Schedule Summary	SDOT is looking to release this in July 2020
<p>The consultant contract opportunity will be announced on http://consultants.seattle.gov/. The Formal Solicitations are bid through the City of Seattle E-Bid Exchange system.</p> <p>This information is neither a guarantee of contracting opportunities, nor a promise of business and is subject to change. If you have any questions on the prospective projects, please contact the staff person identified for the project.</p>	

SDOT UPCOMING CONSULTANT OPPORTUNITIES

Listing Updated Quarterly

Automated Vehicle Readiness Assessment and Action Plan Consultant

Project Manager	Shannon Walker
Email	Shannon.walker@seattle.gov
Phone	(206) 573-8308

High Level Scope	The goal of this project is to create an updated needs assessment for the City of Seattle to prepare for automated mobility, with a focus on ensuring that SDOT programming, resources, and investments are maximizing the Department's readiness at varying levels of AV deployment in Seattle.
Contracting Opportunities	<p>SCOPE SUMMARY: Recognizing the significant uncertainty that exists in the timeline of AV deployment, this readiness assessment will focus on a set of "milestones" that represent points in time along a generally accepted scenario for autonomous vehicle operations. Rather than solely examining the needs of a future end state, this project will look at needs along the development trajectory so that resources can be allocated proportional to the impacts and opportunities of AV deployment.</p> <p>The resulting product(s) should guide the city's potential next steps to positively shape automated mobility as it arrives and scales in Seattle. This stand-alone document could be provided to internal and external audiences to help understand needs across different program areas and create a cogent set of priorities that reflect not just our principles and values, but the intermediate steps necessary to support them. The final product(s) will represent the objectives of the department in evaluating its own actions as well as potential state and federal regulations about the deployment of autonomous vehicles, particularly the Washington State Transportation Committee's Autonomous Vehicle Working Group.</p>
Scope Details	SDOT is looking to select a consultant in early Winter 2020. We estimate this work will take approximately three months. We aim to complete this work as soon as possible, no later than the end of April 2020.
Contract Estimate(s)	\$50,000-\$70,000

Schedule Summary	SDOT is looking to release this in early Winter 2020.
<p>The consultant contract opportunity will be announced on http://consultants.seattle.gov/. The Formal Solicitations are bid through the City of Seattle E-Bid Exchange system.</p> <p>This information is neither a guarantee of contracting opportunities, nor a promise of business and is subject to change. If you have any questions on the prospective projects, please contact the staff person identified for the project.</p>	

Transit Plus Multimodal Corridor Outreach On-call Contract

Project Manager	Dan Anderson
Email	Dan.a.anderson@seattle.gov
Phone	(206) 684-8105

High Level Scope	On-call outreach and communications contract to support planning, design, and construction of Levy to Move Seattle deliverable Transit Plus Multimodal Corridor projects including RapidRide corridors.
Contracting Opportunities (3)	<p>A. Ballard-Interbay Regional Transportation System – ESHB 1160</p> <ul style="list-style-type: none">• <u>Scope Summary</u> Scope will likely include the following tasks:<ul style="list-style-type: none">○ Project management, administration, reporting and invoicing○ Public Involvement Plan○ Coordination and meetings with SDOT and the technical team or contractor○ Materials and messaging development (website, fact sheet, mailers, notices etc.)○ Briefings and presentation prep, staff and reporting○ On-the ground outreach○ Preconstruction and construction outreach○ Coordination with property owners○ Correspondence management○ Database management and reporting
Scope Details	SDOT is looking to release a Request for Qualifications in winter/spring 2020
Contract Estimate(s)	\$2,000,000

Schedule Summary	SDOT is looking to release this in Q1/Q2 2020.
<p>The consultant contract opportunity will be announced on http://consultants.seattle.gov/. The Formal Solicitations are bid through the City of Seattle E-Bid Exchange system.</p> <p>This information is neither a guarantee of contracting opportunities, nor a promise of business and is subject to change. If you have any questions on the prospective projects, please contact the staff person identified for the project.</p>	

Drainage and Hydraulic Design Services On-Call

Project Manager	Nick Shrope
Email	Nicholas.Shrope@seattle.gov
Phone	(206) 233-3925
Website	N/A

High Level Scope	Provide On-Call services for drainage and hydraulic design and Stormwater Code compliance evaluation in the delivery of SDOT's Capital Projects. Services may be required for roadway, bridge, sidewalk, bicycle, or transit oriented projects.
Contracting Opportunities	<ul style="list-style-type: none">• Drainage plan preparation, ranging from preliminary engineering plans to Bid Documents.• Development of specification special provisions to support the drainage design plans.• Engineer's Estimates.• Development of drainage reports, including but not limited to field observation and recommendations reports, TIRs, downstream analysis report, flow spread analysis, preliminary City of Seattle stormwater code drainage code determination, SDOT comprehensive drainage plans and milestone submittal drainage reports that explain and justify the drainage plans and specifications for projects.• Drainage engineering and design support during construction. Provide design and review services during construction for the development of new or updated construction documents due to contractor proposed changes in design or changed field conditions.• Stormwater modeling. Large drainage basin and sub-basin analysis of existing and proposed flow characteristics and patterns, estimation of existing land cover, and development of overland and pipe network flow rates. Ability to model and size specific flow control and water quality best management practices (BMPs) including, but not limited to, underground detention tanks and vaults, water quality catch basins and treatment systems, water quality vaults, oil/water separators, flow splitters and Green Stormwater Infrastructure (bioretention areas, permeable pavement, etc.).
Scope Details	Multi-year contract to support the delivery of Move Seattle Levy funded Capital Projects.
Contract Estimate	\$290,000

Schedule Summary	SDOT is looking to release this in Q1 2020
