44	SPU Drainage Partnership - Broadview - Greenwood Sidewalks	Ron Scharf 206-684-5192 ron.scharf@seattle.gov	Q4/2019	NO																								
	Project Information: This project will construct pedestrian improvements as part of SPU’s larger Broadview Sewer and Drainage Improvement project. The Broadview sewer system was built in the 1950’s and cannot handle the combination of additional flow from the homes and business that have developed since then and the additional storm water that is entering the system from downspouts directly connected to the sewer system as well as additional storm water entering through deteriorated pipes. This area is also lacking conventional sidewalks and would benefit from pedestrian improvements. The overall project goal is to reduce the potential for sewer backups and surface flooding for the Broadview neighborhood.				Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	N	N	N	N	N	Y	Y	Y	Y
