

ROSTER SOLICITATION - Document Controls

Project Manager	Jonathan Williams	
Email	onathan.Williams@seattle.gov	
Phone	206) 733-9026	
Website	N/A	

High Level Scope	Conduct neighborhood access intercept surveys in Fall 2018. Summarize results and provide findings.
Contracting Opportunities (1)	Neighborhood Access Intercept Surveys opportunity will be advertised to vendors on the City of Seattle's Online Business Directory Roster under category Public Information and Public Relations.
Scope Details	Detailed scope will be released to all vendors registered under the Public Information and Public Relations Category in the City of Seattle Online Business Directory.
Contract Estimate	Contract for fall 2018 will approximately be \$85,000. SDOT may extend the contract with the selected vendor to cover 2019 for a similar amount.

Schedule Summary	SDOT is planning to release this opportunity to vendors on the roster in late June 2018.
------------------	--

SDOT UPCOMING CONSULTANT OPPORTUNITIES

Seattle Department of Transportation

Listing Updated Quarterly

Projects	Description	Design Consultant Opportunities	Construction Management Opportunities	Outreach Consultant Opportunities During Design	Outreach Consultant Opportunities During Construction	Planning	Other	Project Manager
Consultant Contracting Accessible Mount Baker	The Accessible Mt. Baker Plan will transform an auto-oriented area into a pedestrian and transit-oriented destination that is safe for everyone. The Plan will reconfigure the intersection of Rainier Ave South (Rainier Ave) and Martin Luther King, Jr. Way (MLK Way) and transform the Mt. Baker station area into a safe, comfortable and dignified place for people to walk, bike, and make transit connections. This contract will be for design services and design support during construction.	Q1 2018	2022-23	N/A	2022-23	N/A	N/A	Therese Casper therese.casper@seattle.gov 206-684-8764
Fremont RapidRide Planing, Design & Environmental	Zero to 30% planning, design and environmental for the Fremont RapidRide Corridor (a Seattle RapidRide Expanison Program corridor) with the provision for amending the contract to include all services associate with completing 60%, 90% and 100% design milestones. Work may include traffic analysis, traffic modeling, signals & ITS, and multimodal design. There is the potential for this corridor to be federally funded.	Q2/Q3 2018						Alison Townsend alison.townsend@seattle.gov 206-233-3780
Market/45th RapidRide Planning, Design & Environmental	Zero to 30% planning, design and environmental for the Market/45th RapidRide Corridor (a Seattle RapidRide Expansion Program corridor) with the provision for amending the contract to include all services associated with 60%, 90% and 100% design milestones. Work may include traffic analysis, traffic modeling, signals & ITS, and multimodal design.	Q2/Q3 2018						Alison Townsend alison.townsend@seattle.gov 206-233-3780
Madison BRT - CM Services	Provide on-site RE, inspectors, office engineer/document control team to manage the construction of this bus rapid transit project. A. Madison BRT (RE/Inspectors only) B. Madison BRT (Office Engineer/Doc Control only)		Q3 2019					Mark Sliger mark.sliger@seattle.gov 206-733-9936
Northgate Ped Bridge	This project constructs a new pedestrian and bike bridge over I-5 in Northgate to improve connections between the east and west sides of the community and to maximize the use of transit facilities, including the King County Transit Center and the future Sound Transit Link light rail station.		Q3 2019					Mark Sliger mark.sliger@seattle.gov 206-733-9936

Projects	Description	Design Consultant Opportunities	Construction Management Opportunities	Outreach Consultant Opportunities During Design	Outreach Consultant Opportunities During Construction	Planning	Other	Project Manager
ROSTER SOLICITATION: On-Call Signal, Lighting, and ITS Design Services	The Engineering Services Group within SDOT Capital Projects delivers in-house plans for a range of improvements in Seattle's public right of way. Currently, traffic signals, pedestrian signals, RRFBs, pedestrian pushbutton upgrades, street lighting, pedestrian lighting, and RTIS improvements are largely designed in-house. As a result of peak workload from the Move Seattle Levy, it is anticipated that additional support will be needed to prepare: foundation design, traffic modeling, traffic analysis reports, plans, specifications, estimate, SCL service applications, QA-QC reviews, and perform research of as-built records.	Q2 2018						Erich Ellis erich.ellis@seattle.gov 206-684-5840
New CM On-Call Contracts	4 or 5 Non-federal contracts, 1 federal contract. Scope may be around \$4-5M each contract.		Q4 2018					Mark Sliger mark.sliger@seattle.gov 206-733-9936
Structural On- Call Services for Federally Funded Projects	Perform engineering services for SDOT in study, prelminary design, value engineering, PS&E, cost estimating, and construction. Other structural services include but not limited to bridge load rating, bridge seismic retrofit, rehabilitation or replacement, retaining wall design. Specialty services will include but not limited to: tunneling, areaway, underwater inspection, movable bridge.	Q4 2018?						Yuling Teo yuling.teo@seattle.gov 206-733-9244
Ballard Bridge Planning Study	The Ballard Bridge is over 100 years old and carries more than 57,000 vehiciles per day. This planning study would explore alternatives and identify a recommended replacement alternative and associated costs. Regarding the recommended alternative, this study should identify the: essential functional needs, right-of-way needs, types of environmental permitting required, and ways to minimize impact to the navigable channel and 15th Ave W corridor traffic.					Q3/Q4 2018 - Q2 2019		Wes Ducey wes.ducey@seattle.gov 206-684-7033
Pedestrian Wayfinding Program	Develop a pedestrian wayfinding program. Conduct user research and stakeholder outreach, develop movement plan and system design, prepare maps and prototypes, recommend governance and maintenance strategies, user test design, develop design standards and implementation plan.	Q1 2018		Q1/Q2 2018				Aditi Kambuj aditi.kambuj@seattle.gov 206-615-0429

Pioneer Square East-West Streets Project

Project Manager	Steve Pearce	
Email	Steve.Pearce@seattle.gov	
Phone	(206) 684-8371	
Website	N/A	

High Level Scope	The Office of the Waterfront and Civic Projects (OWCP) will shortly issue an RFQ soliciting for integrated design teams to design streetscape improvements in Pioneer Square.	
Contracting Opportunities	 A. Project Objectives: Connect the core of Pioneer Square to the new Waterfront; Provide safe, convenient, graceful pedestrian connections and foster positive city life and activity in ken Pioneer Square east-west streets B. Budget The total budget for the project is \$20 million and consultant design services are expected to be between \$1.6-2.1 million C. Geographic scope The geography of the project is Yesler, Washington, Main and King Streets, between Alaskan Way and Second Avenue D. Schedule: Design would begin in September 2018 and construction is expected to begin in March 2021 	
Scope Details	The following core disciplines required for this project: • Urban Design/Landscape Architecture • Civil Engineering • Project Management • Structural Engineering The following supporting disciplines should be included on the team to evaluate existing conditions and address any design issues that emerge in the design process: • Survey • Traffic Engineering • Utility Engineering • Geotechnical Engineering	

Contract Estimate(s)

Approximately \$1.6-2.1M

Schedule Summary

OWFCP is looking to release May 2018

The consultant contract opportunity will be announced on http://consultants.seattle.gov/. The Formal Solicitations are bid through the City of Seattle E-Bid Exchange system.

Document Controls

Project Manager	Shannon Walker	
Email	Shannon.Walker@seattle.gov	
Phone	(206)573-8308	
Website	N/A	

High Level Scope	 To develop a Dynamic Electric Vehicle Service Equipment (EVSE) Siting Model that identifies priority areas for EV charging installation across the City based on different criteria "layers" that can be turned on/off. To develop the Dynamic EVSE Siting Model in a way that can be geographically expanded with additional funding and developed to address further considerations for EVSE placement. To produce an EVSE Roadmap Strategy and Strategic Siting Analysis that ranks Seattle's Shared Mobility Hubs by priority for electrification.
Contracting Opportunities (3)	The 11-week project period will be broken down into four task periods, each with specific sub-tasks, associated milestones, and deliverables. Task 0: Project Management (Week 1) is the completion of all necessary project contracts and the establishment of a project management protocol. These subtasks are to be complete by the end of the Week 1, and the vendor should not proceed to further tasks until the Project Manager provides a go-ahead confirmation in writing. At this point the vendor will proceed to Task 1: Create Dynamic EVSE Siting Model (Weeks 2-8). The vendor will work with the Project Manager to finalize the model's technical framework, inputs, outputs, criteria, and constraints and to develop a dynamic heatmap model for EVSE siting. The model will be built in a way that can be updated to include future EVSE locations and can turn "on" and "off" criteria to see the impacts of each on siting suggestions. Model development will be done in a highly iterative format that includes twice-a-week check-in meetings via phone, and in-person meetings at 50%, 80%, and 100% model completion. Appropriate City staff will conduct quality assurance testing on the model and any changes or technical issues will be resolved by the end of Week 8. The first and only Go/No-Go decision point is at the end of Week 8 and requires the completion of the Dynamic EVSE Siting Model by 7/6/2018. In Task 2: Create EVSE Roadmap and Strategic Siting Analysis (Week 9-10), vendor will use the Dynamic EV Siting Model to identify top-priority locations for EVSE installation near Shared Mobility Hubs. To do this, vendor will work closely with the Project Manager to rank Seattle's Shared Mobility Hubs by priority group [(1-5)/(6-10)/(11-20)/(20+)] for electrification and include key attributes of each location that contribute to its ranking. Task 3: Concluding Hand-off (Week 11) requires vendor to train appropriate staff in how to use the model and trouble-shooting resources available to them including a manual the vendor creates that do

	Vendor will also be responsible for ensuring the desired specifications are met and will provide the Project Manager all documentation, data sets, source code, and additional project assets. The consultant will also remain on-call to comply with a 360-day work guarantee.
Scope Details	Vendor may, but is not required to, hire subcontractors to complete portions of the work described. This entire project will be posted as one solicitation.
Contract Estimate(s)	\$75,000 Total

Schedule Summary	SDOT is looking to release this solicitation in April 2018.
------------------	---

The consultant contract opportunity will be announced on http://consultants.seattle.gov/. The Formal Solicitations are bid through the City of Seattle E-Bid Exchange system.

Northgate Pedestrian Bridge---CM services

Project Manager	Mark Sliger
Email	mark.sliger@seattle.gov
Phone	(206) 733-9936
Website	N/A

High Level Scope	Provide preconstruction design support leading up to the advertisement and award of the construction contract. Provide on-site resident engineer(RE), multiple inspectors, and office engineer/document control services for this \$23M bridge project. This team will work out of a field office and the estimated duration of the construction contract is approximately 21 months. The bridge to be built will span I-5 and will require coordination with WSDOT, Sound Transit, and other agencies.				
Contracting Opportunities	 Scope Summary Preconstruction design support (90% constructability review, bid review, etc.) 5 FTE's during construction: This team will provide full oversight of all contractor work. The estimated duration for the construction is April 2019 thru December 2020. We're estimating 6 months of closeout activities starting in January 2021 and concluding in June 2021. Funding Notes: FHWA/FTA 				
Scope Details	This contracting opportunity is anticipated to be released as stand-alone, full solicitation. The solicitation will be posted through the City of Seattle E-Bid Exchange portal.				
Contract Estimate	Approximately \$ 3.3M				
Schedule Summary	SDOT intends to advertise this RFQ in March/April 2018				

The consultant contract opportunity will be announced on http://consultants.seattle.gov/. The Formal Solicitations are bid through the City of Seattle E-Bid Exchange system.
