VISION

SAFER STREETS FOR SEATTLE

before passing.

Never ride against traffic

Helmets are encouraged in Seattle

People biking are not allowed to ride more than 2 abreast

People biking are required to use lights and reflectors at night

#### More information

Cross train tracks at a 90

degree angle. If raining,

walk your bike across

the tracks

- A list of Seattle's bike laws can be found at www.seattle.gov/transportation/projects-and-programs/programs/bike-program/rules-of-the-road.
- Register your bike at www.bikeindex.org, it may help recover your bike if stolen.
- And if you are a new rider, a wealth of helpful information can be found in our Seattle By Bike pamphlet, availabale here: www.seattle.gov/Documents/Departments/SeattleBicycleAdvisoryBoard/presentations/SDOT BikeBooklet 08 04 2014.pdf.

#### WHAT ARE BIKE AND SCOOTER SHARE?

Bike and scooter share let you borrow a rental for a quick errand, a trip to the Link light rail, an all day adventure, and everything between. You pick up the shared rental closest to you, ride it to where you want to go, and leave the rental for the next person to ride.

- No docking required. Because rentals are equipped with GPS, customers can find the nearest available rental on each company's smartphone app.
- Available citywide: Bike and scooter share are generally available citywide. You can find a rental in any neighborhood and leave it in any approved parking locations [see below for parking guidelines].

## How to use bike and scooter share

To use bike and scooter share, download the company's smart phone app. The app will show you a map with all the rentals closest to you. Scan the QR code on the rental to unlock it and start your trip. Check with each company for prices and ways to rent a rental without a smartphone. For more information please visit the websites below:

Bike share information: www.seattle.gov/transportation/ projects-and-programs/programs/bike-program/bike-share Scooter share information: www.seattle.gov/transportation/ projects-and-programs/programs/bike-program/bike-share

Follow the company's instructions to lock the bike and end your trip. You can park the rental in the designated rental parking corrals, or landscaping/furniture zone of sidewalks, as long as that space is more than three feet wide. Some important guidelines for parking:

- Leave at least six feet clear for pedestrians to pass.
- Do not park on corners, driveways, or curb ramps.
- Do not block access to buildings, benches, parking pay stations, bus stops, hydrants, etc.
- Park the rental upright.
- Be courteous to others don't park in somebody else's way, and don't hide the bike somewhere that the next user can't get to it.

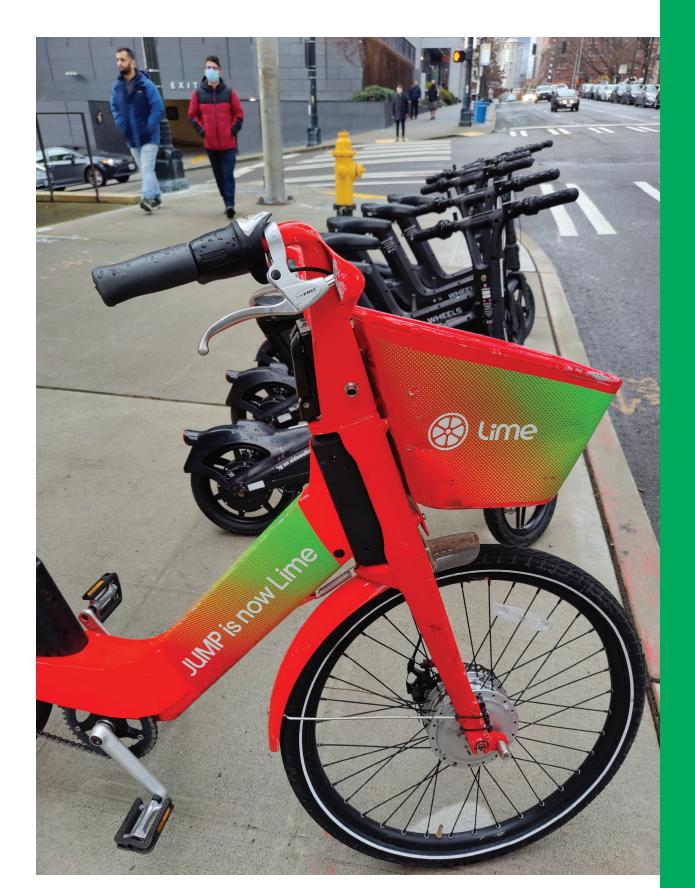

### **NEED A PLACE TO LOCK YOUR BIKE?**

We will install a bike rack in front of any business in the city - for free! Email walkandbike@seattle. gov, or give us a call at (206) 684-7583 with the business name and

address to request a free bike rack.

Visit us at seattle.gov/transporation/bikeparking.htm to learn more about Seattle's Bike Parking Program, including info on where we can place bike racks, tips on how to keep your bike safe, and links to other biking resources in Seattle.

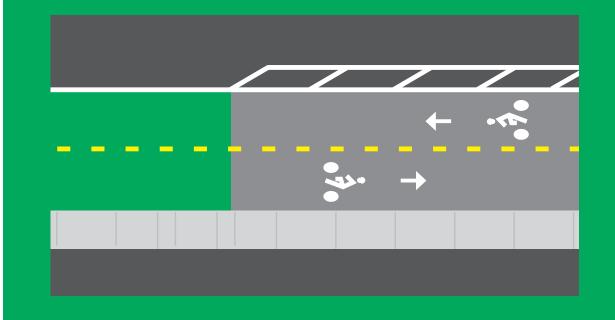

# A GUIDE TO SEATTLE'S BIKE FACILITIES

#### WHAT IS A PROTECTED BIKE LANE?

Also known as a cycle track, a protected bike lane is physically separated from traffic and the sidewalk. Similar to a trail, protected bike lanes are often more comfortable for people who prefer not to ride with traffic.

#### **HOW DO I USE IT?**

Yield to people crossing to access a bus stop or parked cars. Watch for turning vehicles at driveways and intersections.

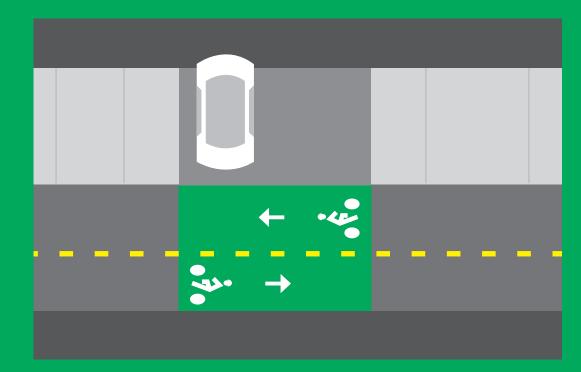

#### WHAT DOES THE GREEN MEAN?

Green pavement highlights areas where people biking and driving cross paths. The green pavement alerts both travelers to pay extra attention.

#### **HOW DO I USE IT?**

Be alert and look for vehicles crossing green pavement areas.

#### **WHAT ARE NEIGHBORHOOD GREENWAYS?**

These are a network of neighborhood streets, designed for low speed and low traffic in order to prioritize pedestrian and bike use. They include safer crossings and wayfinding.

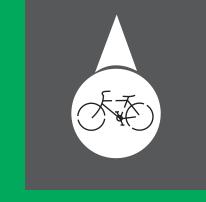

### **WHAT ARE SHARROWS?**

Shared lane markings or "sharrows" guide people biking to the best place on the street to ride. They also remind people driving to share the lane with cyclists. Sharrows also mark Neighborhood Greenways routes and can be used for wayfinding.

### **HOW DO I USE IT?**

Use the sharrow to guide where you ride within the lane.Remember not to ride too close to parked cars. Follow the rules of the road.

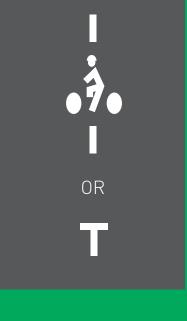

#### **WHAT IS A BIKE DETECTOR?**

Bike detectors tell the traffic signal when a person on a bike is waiting for the light to turn green. Markings indicate where to position your wheels on the pavement in order to change the signal.

### **HOW DO I USE IT?**

Place your bicycle on the bike detector symbol to trigger the green light.

# WHAT IS A BIKE BOX?

A green painted space at intersections with a white bike symbol. This allows bikes to enter the intersection ahead of vehicles, while making bikes more visible and predictable to drivers.

### **HOW DO I USE IT?**

Ride your bicycle onto the box and follow traffic signals to cross the intersection ahead of traffic.
