

FACT SHEET

# Feedback needed: Phase 2 of West Marginal Way SW Safety Corridor Improvements Project

June 2023

We would like your feedback on the proposed landscaped median islands and raised crosswalk being designed as Phase 2 of the West Marginal Way SW Safety Corridor Improvements Project. We are looking to understand driveway operations that would inform the median island size and feasibility. See the locations on the map.

Median islands and raised crosswalks are important safety elements intended to slow traffic and protect people walking and biking on the Duwamish Trail.

Phase 2 of this project comes after the installation of the Protected Bike Lane and safety improvements to the Duwamish Trail in May.
