

Rainier Ave S Bus-Only Lane: Phase 2 Alternatives

Typical Existing

Two general traffic lanes in both directions
Two-way center turn lane

Alternative 1

Alternative 1

- Continuous northbound bus-only lane from S Walden St to S Grand St
- One northbound general travel lane
- Maintains two-way center turn lane

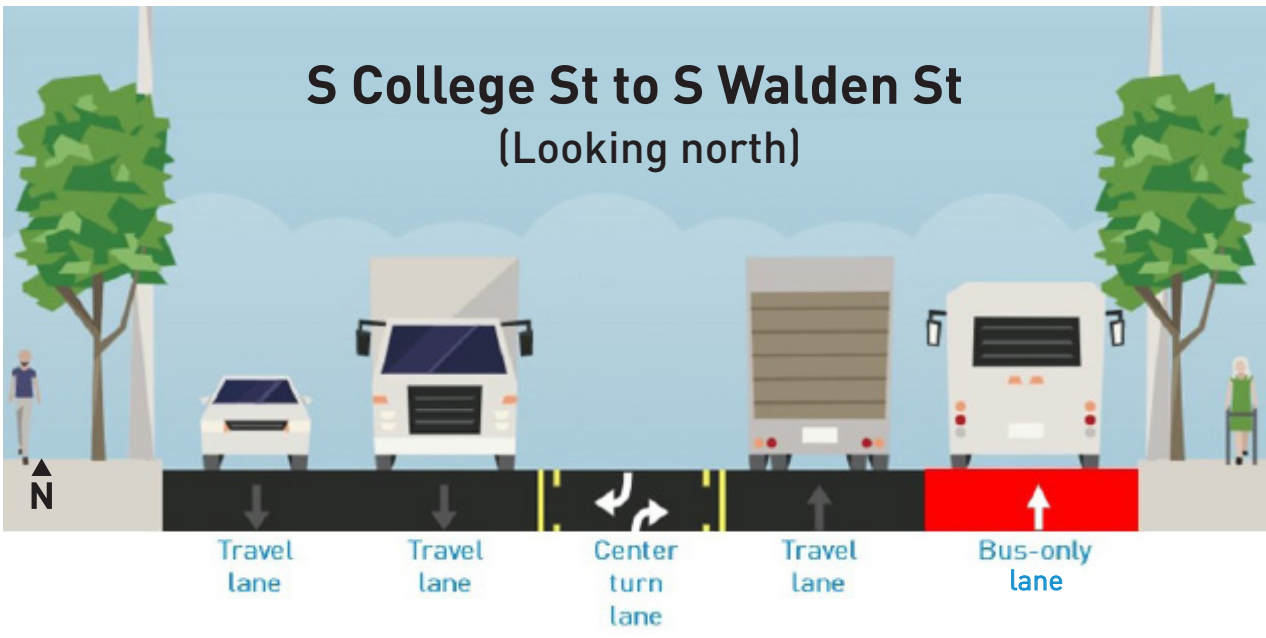

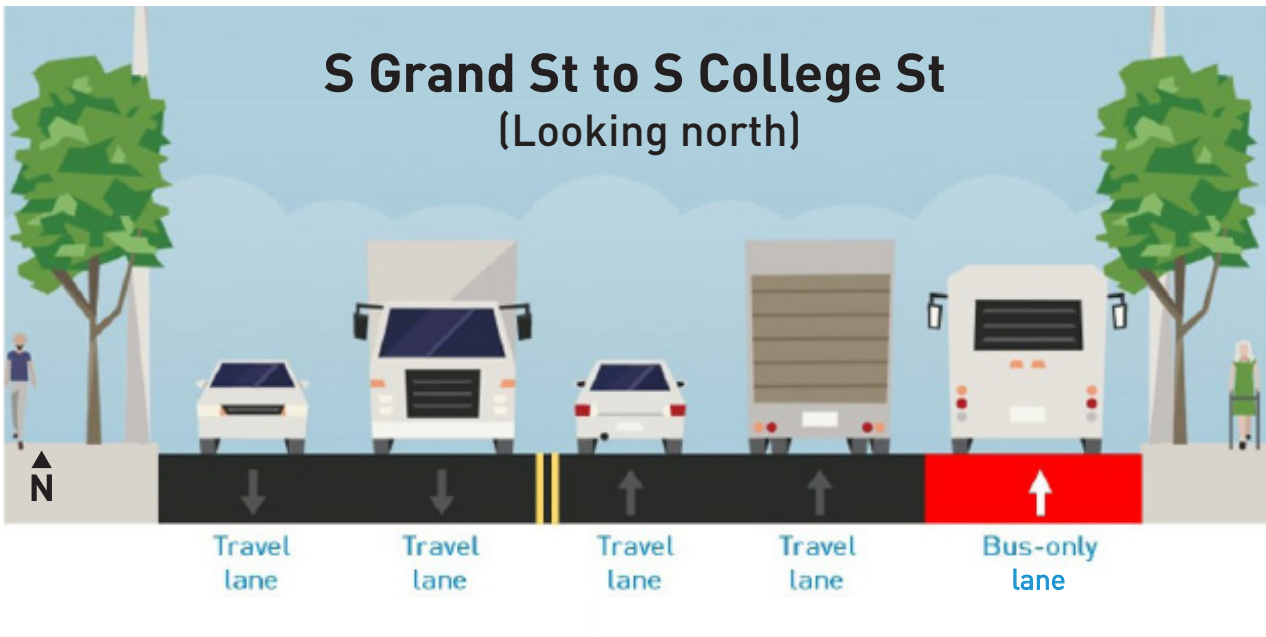

Considerations:

- Potential for traffic diversion on neighborhood streets
- Travel times for people driving northbound on Rainier Ave S may increase by 9 minutes during the AM peak hours
- May need more investments to address barriers to taking the bus

Benefits:

- New traffic signal at S Grand St to promote transit reliability and safer crossings
- Estimated to save nearly 5 minutes of transit travel time when conditions are more congested than usual
- Makes riding the bus a more reliable and attractive transportation option
- Makes progress toward City climate and equity goals

Alternative 2

Benefits:

- Adds two new traffic signals at S Grand St and S College St to promote transit reliability and safer crossings. New signal at S College St will provide protected left turns.
- Estimated to save nearly 5 minutes of transit travel time when conditions are more congested than usual
- Maintains two northbound travel lanes for I-90 access
- Makes riding the bus a more reliable and attractive transportation option
- Makes progress toward City climate and equity goals

Alternative 2

- Continuous northbound bus-only lane from S Walden St to S Grand St
- Between S Grand to S College, maintain two northbound travel lanes and remove two-way center turn lane

Considerations:

- Restricts left turns between S Walker St and S Holgate St
- Requires adjusting all travel lane widths
- Potential for traffic diversion on neighborhood streets
- Travel times for people driving northbound on Rainier Ave S may increase by 5 minutes during AM peak hours
- May need more investments to address barriers to taking the bus

RAINIER BUS LANES PHASE 2 SURVEY

We want to hear what you think about options to expand the bus-only lanes on Rainier Ave S, your experience traveling on Rainier Ave S, your experience riding the bus and/or what would encourage you to take more bus trips.

Background

Bus-only lanes help improve bus travel times and make buses more reliable. We’re expanding the bus-only lanes on Rainier Ave S to improve travel times and reliability for buses including the Route 7. The Route 7 bus has some of the highest ridership in King County both before and throughout the pandemic.

SDOT and King County Metro are evaluating options to extend the northbound bus-only lanes on Rainier Ave S to S Grand St. We estimate this change will save people riding the bus 5 minutes during congested morning hours.
