4" - 10"	5,800 deposit	7,080 deposit
≥ 12"	site specific	site specific
<b>Watermain improvements (SPU installations)</b>		
	T&M	T&M

### Notes:

"Site specific" is a charge calculated by SPU that accounts for specific location and site conditions. Determined before work is performed, a site-specific cost sums all labor, material, equipment, fringe benefits, overhead and taxes and any other costs required to complete the work. Site-specific costs vary between sites in order to recover anticipated costs of providing a service at a specific location.

"T&M" or time and materials is the actual cost incurred by SPU for work performed, including labor, equipment, materials, applicable permit fees and taxes, pavement restoration, overhead costs and any similar costs, which is calculated by SPU after work has been completed.
