

Ship Canal Water Quality Project

What's happening in North Queen Anne?

The Ship Canal Water Quality Project includes the following elements in North Queen Anne:

- A microtunnel to convey polluted stormwater and sewage under the Ship Canal to the storage tunnel
- A drop shaft to collect flows entering the microtunnel
- New pipes to convey polluted stormwater and sewage to the storage tunnel

What to expect during construction?

- West Ewing Park closure
- Possible South Ship Canal Trail closure
- Periodic lane closures
- Project neighbors and stakeholders will receive notice of work happening in the area
- Truck traffic and noise
- Construction equipment and vehicles

Projected North Queen Anne timeline
