

Ship Canal Water Quality Project

What's happening in Wallingford?

The Ship Canal Water Quality Project includes the following elements in Wallingford:

- The eastern end of the tunnel to store polluted stormwater and sewage from the neighborhood. The Tunnel Boring Machine will complete tunneling at this location
- A drop shaft to collect flows entering the tunnel near 3500 Interlake Avenue N
- New pipes to convey polluted stormwater and sewage to the storage tunnel
- Odor control to minimize odor

What to expect during construction?

- Closure of parking lot and site at 3500 Interlake Avenue N
- Project neighbors and stakeholders will receive notice of work happening in the area
- Increased truck traffic and noise
- Construction equipment and vehicles

Projected Wallingford timeline
